**Vernicol makes old furniture new— keeps new furniture from getting old—**

Don't discard that old piece of furniture just because its finish is scratched and marred. Give it a new lease on life with a coat of Vernicol, the fifty-do-over varnish stain. Stains and varnishes the wood at each stroke of the brush. Scratches disappear almost magically. Dries with a rich, hard, glossy luster. Wears and wears. It's good for floors, too.

Keep a can of Vernicol handy. It's a great antidote for careless servants and thoughtless children. Comes in all the popular finishes. Ask for color card and booklet.

**Coffee Futures Slow With Slight Rise**

NEW YORK, Oct. 2.—The market for coffee futures was very quiet again today and prices moved within a range of four or five points. The opening was 2 points lower on Dec. and Jan., but generally 2 to four points higher and active months sold to 6 points above last night's closing figures during the middle of the day on scattered covering. Otherwise there was very little demand and the tone was rather easier late in the afternoon on rumors of lower cost and freight rates, although last prices were within a point or two of the best. The close was 3 to 8 points net higher. October 7.25; Dec. 7.70; Jan. 7.86; March 8.18; May 8.39; July 8.71.  
Spot market was quiet at 7 3/4 @ 8 for Rio 7s and 12 3/4 to 13 3/4 for Santos 4s.

**Cattle and Hogs Weak in Puget Sound Market**  
SEATTLE, Oct. 2.—Hogs—Receipts none. Weak. Prime 15.50@17.00; medium to choice 15.50@18.50; smooth heavies 14.50@15.00; rough heavies 12.50@13.00; pigs 13.00@14.50.

**Heavy Sellings of Wheat Lead to New Declines**  
CHICAGO, Oct. 2.—Heavy selling by houses with northwestern connections did much today to bring about fresh declines in wheat. Prices closed unsettled, 3 1/2 to 4 1/2 net lower, with Dec. 2.11 1/2 to 2.11 1/4 and March 2.07. Corn finished 1 1/2 net lower to 1 1/4 advance, oats up 1-2 to 3-4 @ 7-8 and provisions at a setback of five to 25c.  
Selling pressure on wheat appeared to be largely induced by continued talk of Canadian competition and by bearish estimates of the world supply. The estimates were said to indicate that there could be no world wheat scarcity before May or June. At the extreme of the subsequent break in values, December has very nearly the lowest yet this season. The market had frequent rallies later but there was wheat for sale on all of the hard spots. Big receipts forced corn to a new low level for the season but shorts covering the market again later. Crop damage reports from Argentina helped strengthen oats.  
Commission house selling of ribs weakened the provision market notwithstanding higher quotations on hogs.

**Wool Market Still Quiet With Occasional Buying**  
BOSTON, Oct. 2.—The Commercial Bulletin today says:  
Business has been dragging again this week, all eyes being turned toward the opening Australian sale. In this market a reaction has been directed toward the attempt to secure a presidential imposition of a wool import embargo although this seems hardly to occur. Prices have been rather on the easy side, unless something very choice in staple and fine in quality. The goods market is hardly changed, consumption still being light.

**Scoured Bales:**  
Texas—Prime, 12 months, \$1.30; fine, 8 months, \$1.20@1.25.  
California—Northern, \$1.35@1.40; middle counties, 1.10; southern \$1.00 @ 1.05.  
Oregon—Eastern staple, \$1.35; eastern clothing, \$1.20; valley, No. 1, \$1.20.

**More Divergent Trading Marks New York Stocks**  
NEW YORK, Oct. 2.—The only appreciable change in the stock market today from that of recent sessions was the more divergent character of the trading. Ralls continued to improve while numerous popular industrials and specialties were at lowest prices in many months.  
Entrance into the final quarters of the year brought little comfort to the constructive side of the market. The monthly survey of the Federal Reserve Board, which stressed the caution principle in general business circles, seemed to attract a feeling long-existent in high financial quarters.  
On the other hands, the rails, it was asserted, are enjoying a boom partly because of belated recognition of their intrinsic worth, but more particularly because of the benefits they are expected to derive from transportation of bumper crops.  
Among the stocks most affected today were the several sugar issues, which broke 2 to 3-4 points, South Porto sugar distinguishing itself by a sheer descent of 15 points on a few transactions.  
The rise in rails was the most impressive of the current movement, most of the junior western and southwestern shares gaining 1 to 3 points, with a gain of 6 3-8 for Wisconsin Central. Investment industrials, trust, continentals and coalers rose to 1 to 2 and coalers made some gains. The entire list strengthened later on reports of probable avoidance of the British coal strike. Sales \$25,000 shares.  
Foreign exchange rallied from its early depression although the Argentine rate made a new low record. An 8 per cent quotation represented the high call money quotation of the day and bonds especially standard rails and industrials made variable gains with liberty issues. Total sales, par value, aggregated \$16,750,000. Old U. S. bonds were unchanged on call.
