## Lowe's ...

**Vernicol makes old furniture new— keeps new furniture from getting old—**

Don't discard that old piece of furniture just because its finish is scratched and marred. Give it a new lease on life with a coat of Vernicol, the jiffy-do-over varnish stain. Stains and varnishes the wood at each stroke of the brush. Scratches disappear almost magically. Dries with a rich, hard, glossy luster. Wears and wears. It's good for floors, too. Keep a can of Vernicol handy. It's a great antidote for careless servants and thoughtless children. Comes in all the popular finishes. Ask for color card and booklet.

## BETTER CLOTHES - BETTER PRICES

\$37.50 \$42.50 \$49.75

There are cheaper clothes than Penney Clothes

—But None That Are Less Expensive.

Very high priced clothes and very low priced clothes are often expensive clothes.

The real test is how much style and attractiveness, how many months of wear does your clothes dollars buy.—This is the trial that proves the wisdom and economy of buying Penney clothes.

All along the line the Penney business plan saves you money. Bought direct from the manufacturer not only is the middleman eliminated but all selling expense to the maker as well, thus giving another advantage to our enormous cash buying power.

Coupled with the fact that we have absolutely no credit losses to make up or "frills" of any kind to charge back to our friends it's easy to see how we can sell on a much shorter profit than the one store merchant and still keep our organization building a bigger and better service each year.

## WHITE SOX KEPT EYE ON SCORE, SAYS LYNN

(East Oregonian Special.)

CHICAGO, Oct. 4.—(A. P.)—Chargers that certain Chicago White Sox players regulated their playing this season by the score-board—winning or losing in order to keep the betting odds favorable—were made last night by Byrd Lynn and Hervey McClellan, who said that as "bench warmers" most of the season, they had studied the players carefully and were convinced the Sox were "thrown" out of the pennant.

"We lost the pennant because certain players—they are among the eight indicted by the Cook county grand jury—did not want us to win," said Lynn. "We soon noticed how carefully they studied the score board—more than even the average player does in a pennant race—and that they always made errors which lost the game when Cleveland and New York were losing. If Cleveland won—we won. If Cleveland lost—we lost. The idea was to keep up the betting odds, but not to let us win the pennant."

McClellan said he was convinced certain players had deliberately "thrown" three games in Boston, on the last eastern trip.
