## AMERICAN ATTITUDE IS DEEMED SELFISH

NEW YORK, Oct. 4.—(A. P.)—The slogan "America First" is unpopular among Europeans who deem it an expression of selfishness, according to the Rev. Charles S. MacFarland, general secretary of the federal council of the Churches of Christ in America who has just returned from a series of religious conferences in Switzerland and a speaking tour of Western European cities.

"For an American to be in Europe at this time is humiliating and sometimes almost disheartening," said Dr. MacFarland. "I found the people there confused. They do not know what to make of America's present aloofness; it seems to them such a sharp contrast to our attitude during the war. I found the people of Europe industriously working at the problems of reconstruction. While their economic needs are great, and their greatest needs at the present time is that of moral support."

"The American nation and the American people, on the whole, have not as yet suffered irretrievably in the estimation of Europeans," continued Dr. MacFarland. "They still believe in us and look to us for help. But thoughtful Europeans are disturbed about one phrase which frequently reaches across the sea—"America First." To them it sounds like the words that used to come from across the Rhine—Deutschland über alles—with the same aggressiveness, but with something of the same selfishness."

## PRIEST HIDES IRISH CATHOLICS FOR RIOTS

DUNDALK, Ireland, Oct. 4.—Father Nicholas Lawless, a noted Louth priest, told to the promoters of a meeting recently held in Dundalk in aid of expelled Belfast workers that they were "beginning at the wrong end."

"The way to save our people in the north is to end at once the crimes that are disgracing Catholic Ireland both north and south," he added. "It is those crimes that enraged—and no wonder—the workers of Belfast who have said they will let Catholic workers return to work when the shooting of men of the Royal Irish Constabulary and others stops. It is all very well to denounce 'reprisals' but who will say that reprisals are as wicked as the crimes that provoke them."

"Instead of boycotting Belfast let us all join in boycotting murderers and burnings. There is no other way to cure the ills of the north and south."

Incomplete records for only a part of the prefectures show that 91 persons were killed, fifteen are missing and 65 seriously injured. Two hundred forty-two houses were washed away, 188 were damaged and more than 19,000 were flooded.

## SHOE CLERKS PICKETING IS UPHELD BY COURT

SALEM, Oct. 2.—(A. P.)—The supreme court yesterday upheld picketing by Portland shoe clerks but denied the right of union jewelers to picket. The difference was that the jewelers were striking for recognition of their union, while the shoe clerks were striking to enforce their contract.

**BRINGING IT DOWN.**  
(By Frank L. Stanton.)

From platform high, in field and town,  
They're bringing the cost of living down;  
Orators loud  
French to the crowd—  
To the sad consumers, whose heads are bowed!  
O, they're bringing the cost of living down!

Will it come with a crash from skies that frown,  
To the joy of the wise and the village clown?  
When the world, grown gray,  
Has passed away,  
We'll hear that cry, as it rings today:  
"We're bringing the cost of living down!"

## LABOR'S LEADER PREFERS PROGRESS

AMUEL GOMPERS, in the current issue of the American Federationist, says:

"The two leading candidates for the presidency have clearly defined their attitude toward the great public issues of the day.

"In effect Senator Harding says, 'Let us return to normalcy.' Governor Cox says, 'I am for progress.'

"Unquestionably in the mind of Senator Harding a return to normal means a return to the conditions that existed before the war—a return to something that is past. It is clear then that in keeping with the spirit of the republican platform Senator Harding's personal desire is to follow a course that leads backward and if elected to lead the nation in such a course.

"Governor Cox proclaims a desire to go forward and a determination to lead the nation in a forward course if he is elected to the presidency.

"Both of these statements are abstractions and of themselves mean nothing beyond a definition of the general trend of thought of the candidates. The important fact is, however, that the platform of the parties upon which these candidates stand and their own personal philosophies lead inevitable and naturally up to the conclusions found in those two brief utterances.

"The denial of any desire on the part of the American people to go backward to anything that is past has been found in practically every public expression which the people have been able to make in recent months.

"The interest of the great masses of our people can be best served only by the elections of the candidate whose declarations and whose record offer the best assurance of intelligence and integrity in the future."

## A WORTH-WHILE TOURIST AGENCY

THE war restrictions directed the attention of tourists as never before toward "seeing America first," and the tide is not likely to be diminished by the reopening of the gates to Europe. We have been aroused to the unparalleled scenic resources of our own continent. We have always had the scenery but not until recent years had any intelligent effort been made to get the people to realize the facts. The Swiss Federal railways and the various steamship and tourist agencies had exploited the grandeur of the Alps, the impressiveness of the Norwegian fjords, the allurements of the Scotch highland, until Europe was accepted as the logical destination of the tourist.

We have an infinite variety of natural attractions, many of which are incomparably greater than anything Europe has to offer, and the people of this country are awakening to that truth. One of the most effective agencies of enlightenment along that line is maintained by Oregon and Washington and the province of British Columbia. Those governments have joined in financing the Pacific Northwest Tourist association to supply free of charge reliable information as to the attractions and resources of the international Pacific Northwest.

That organization has performed invaluable service to the area it represents and to the thousands of travelers who have gone from the eastern parts of this country and Canada. It has educated tens of thousands of us stay-at-homes as to the wonders of the Pacific Northwest and aroused an interest that makes each of us prospective visitors, or at least intelligently appreciative admirers. The Pacific Northwest Tourist Association has set an example that should result in similar undertakings in other parts of the country that too long have neglected the assets they have in nature's scenic marvels.—Indianapolis Star.

## NO WONDER HE NEEDED MONEY

TESTIMONY before the senate investigating committee was to the effect that the headquarters conducted by Henry M. Blair, assistant treasurer of the Harding force and the money getting expert cost \$70,000 a week for maintenance. This expense included the cost of stenographers, rent, clerks and messengers. The chief solicitor in Chicago was paid \$600 a week and he had 500 expert solicitors on his payroll. Blair is the author of the now famous phrase, "Boys, get the money." With such an army of coin diggers to keep up it is easy to understand why Blair tried to put much pep into his crusade.

## The Oil Pull Motor Demonstrates Oil Pull Quality

Oil Pull Quality—proved by the remarkable 11-year Oil Pull Record of Performance—is well demonstrated by the Oil Pull motor, the finest tractor motor in the world.

This is a broad statement—but it is amply borne out by the facts. The Oil Pull motor possesses more genuine quality in material and workmanship than many of the finest automobile engines. It is the type of tractor motor that has proved the most efficient and durable in public and private tests for the past 11 years—two cylinders, low speed, heavy duty, valve-in-head.

And these are the outstanding features of this Oil Pull motor—

- It is built complete in Advance-Rumely factories.
- It stands absolutely alone for fuel economy—especially built for oil fuels and guaranteed in writing to operate successfully on kerosene under all conditions.
- It follows automobile practice in machining—17 motor parts, including the cylinders, are ground to the thousandth part of an inch.
- Its crankshaft is built to U. S. naval specifications—80,000 pounds tensile strength as against the usual 50,000 pounds.
- It is the only oil cooled tractor motor—unaffected by extremes of heat and cold.
- It is throttle governed—the speed of the engine automatically and instantaneously adjusted to meet changes in the load.
- The belt wheel runs directly off crankshaft—no intermediate gears—clutch operated from driver's seat.
- It employs a fresh oil system of combined force feed and splash—equipped with Madisco-Kipp lubricator.
- It is equipped with a Bosch High Tension Magneto, the best and most expensive magneto made.
- All moving parts, including the governor, are enclosed.
- The Oil Pull is made in four sizes—12-20, 16-30, 20-40 and 30-60 H. P.—standard in design. They are oil cooled, oil burning and are backed by a written guarantee.
