### Renewed Activity Seen.

A revival in building activity in the past ten days has been noticeable from permits issued by the city recorder. Several persons have shown a faith in the good sense of building at this time by starting work on dwellings. The projects are small in most cases but represent an effort to relieve the housing shortage to some degree.

Homer C. Krehbiel is to erect a dwelling on Irvington Heights which will cost in the neighborhood of \$4,000. A. I. Graham, of 210 Ash street, was issued a permit to erect a dwelling which will cost \$2500. He plans to do the work himself. L. G. Frasier has undertaken extensive improvements to his residence at a cost of \$1000 and several other projects are under way.

The past summer has been devoid of any building activity, due to the level at which materials were sold, coupled with the inability of would-be builders to get loans at satisfactory terms. The recent trend toward readjustment has been felt already to some extent and it is apparent that soon conditions will be more favorable for a renewal of building. There are dozens awaiting the opportunity to go ahead with building operations should conditions stabilize sufficiently.

## COX DECLARES WOMEN HOLDING BALANCE OF POWER WILL SAVE LEAGUE IN REFERENDUM

DAYTON, Oct. 4.—(A. P.)—Home nation will not vote to scrap the covenant from a tour covering 11,000 miles into every state west of the Mississippi river except three, Governor Cox, though supposed to rest for two days, today continued his plea for adoption of the league of nations, the paramount issue of the campaign. Addressing a body of women he told why women should support the league, asserting that throughout many years they have been "leaders of progress in the world," and declaring that the wrath of women who were made to suffer in the war would pursue emperors of Austria, Germany and Russia "through all eternity."

He said the league not only will prevent war which he asserted is its primary purpose, but also will promote progress and "set up or itself become a clearing house for international justice and social service."

Becomes Solemn Referendum  
DAYTON, Oct. 4.—(By Herbert W. Walker, U. P. Staff Correspondent.)—The campaign has developed into a solemn referendum on the treaty of peace, with its proposals for the league of nations to prevent future wars. Governor Cox told a delegation of the league of women voters at his home here today. After asserting that 10 years ago anyone who suggested that a national referendum would be necessary to determine whether the United States should enter the league to prevent war, would have been ridiculed. The governor predicted that women of the

statutes of sound statesmanship, and bring to the sons of men peace that shall cover the earth as the waters cover the sea."

Women Will Decide  
"Fortunately for the first time in history, the women of America hold the balance of power, and will cast the deciding vote," Governor Cox said. "The women of America will vote to keep our pledges to \$1,000 heroes whose blood crimsoned the poppies in Flanders. They will vote for the limitation of armaments, publication of secret treaties, amelioration of distress and elevation of labor conditions to higher standards. In a word, they will vote for the league which will save the world."
