## BANKERS TO MEET

WASHINGTON—The American Bankers' Association will hold its annual convention in Washington October 18 to 24. Richard S. Hawes (below) is president of the organization, and Guy E. Bowers (above) is general secretary.

**BETTER TIMES THAN SPRING.**  
(By Frank L. Stanton.)  
Good times in the country—better times than Spring,  
An' they're singin' to a fellow like his sweetheart used to sing!  
An' sorrow is a dream now, an' flies on swiftest wing  
An' the world is rollin' on to grace an' glory!

Good times in the country—an' let 'em have their way!  
What if winds are sighin'—what if skies are gray?  
Winter's joys are recompense for all the blooms of May,  
The world is rollin' on to grace an' glory!

—Copyrighted for the East Oregonian Pub. Co.

## HOW ARTICLE 10 REALLY WORKS

In his speech at Kansas City October 8 Senator Harding indulged in a bit of misrepresentation that shows the dangerous character of his candidacy. He took the view that article 10 means war for member nations whenever a dispute arises. He could just as well say that the Monroe doctrine means war for the United States. He could with equal truth say that whenever a man assumed American citizenship he must go to war. The Monroe doctrine is a pledge that this country will make war if necessary. When a man becomes a citizen he takes oath to defend our constitution and our flag against all enemies whomsoever. But the United States, in 100 years of trial, has never had to go to war in defense of the Monroe doctrine. Nor does the average citizen have to take up arms although pledged to do so if called upon.

But as a matter of fact, article 10 is not a pledge of war at all. Article 10 provides that whenever its provisions are broken the "council shall advise upon the means by which this obligation shall be fulfilled." The council could call for an economic boycott, for financial action or for many other things short of war. The council's action would be purely advisory and each nation would be its own judge as to what to do.

Article 10 has already been put to the test and it did not mean war for a single member nation. When the Russian soviet government invaded Poland, article 10 was violated. But no member nation went to war nor was any nation asked to go to war. On the contrary, England and France extended aid in other forms. So did other countries. The result was that Poland herself, with such aid, hurled back her foe. The bolshevik were defeated and peace is being made on terms favorable to Poland.

Article 10 also came into play in the trouble between Poland and Lithuania, but no nation went to war nor was asked to go to war. On the contrary, the League of Nations council brought the Polish and Lithuanian representatives together and war between those countries was averted. The League of Nations is a great world wide agency for maintaining peace. The plan is sound and it will work if given a fair chance. It is already working and accomplishing results. All that it now needs is for Uncle Sam to join and give the league the benefit of this country's great moral support.

With the logic Harding uses he could condemn our oath of allegiance, he could condemn the Monroe doctrine, he could condemn the ten commandments. He offers an argument that no real student of law or history can accept. He makes a weak appeal to pacifism and to prejudice. The United States cannot endorse his views and expect to hold up its head among the nations of the earth. America stands at the cross roads and the situation calls for hard thinking between now and election day.

**A STRANGE CASE**  
In the county hospital at Portland a man aged 103 years went on a hunger strike against life, claiming that he had lived too long. He fasted for three weeks and at last breaking under the ordeal, passed away. The report of his death says he had been in Oregon for 50 years. Yet no relatives are known and all in all it is a strange case. This man was evidently possessed of unusual physical vitality, judging by his long life. But after all, did he really live? It is a mooted question. There may have been reasons for his lonely life. He may have been a hero in many acts of service to his fellow men. Who knows?

**IT COMES HIGH**  
JULIUS Barnes, a republican, says that if peace had been made 15 months ago and exchange rates stabilized, farmers would be getting a dollar per bushel more for their wheat. He explains that overseas purchasing power is deficient. If Mr. Barnes is right, then the senate's fight against the peace treaty is costing our local wheatmen several million dollars. In order to show partisan spite against the president, the Lodge-Harding group opposed a perfectly good treaty that was acceptable to the best leaders in the G. O. P. and was accepted without complaint by 40 allied and neutral countries. Now our farmers are asked to elect as president a man who was one of the chief senate conspirators and who during the war wanted to "strike at the manifest greed of the agricultural sections," though he was very solicitous about taxing profits of big corporations.

**ELLIS ISLAND WILL HELP TO FIND JOBS**  
NEW YORK, Oct. 12.—(A. P.)—Ellis Island Immigration Station officials have been invited by the Labor Department of New York to cooperate in extensive plans to supply employment for the thousands of immigrants who are coming in this country. The object of the plan, Labor Department

**You Must Replace the Wear and Tear on the Human System**

Did you ever stop to consider what a tremendous task is placed upon your human system every day? Your heart is constantly pumping life and vitality to every part of your body. This is being rapidly consumed after being turned into energy and strength that keeps your system performing its various functions.

Every day there is a certain amount of wear and tear that must be replaced, if you are to enjoy good health.

Many people have found S. S. S. a great aid in keeping their system in good condition. Being such a fine blood tonic and system-builder S. S. S. strengthens and enriches the blood supply, and gives new vigor and vitality to the whole body.

S. S. S. is sold by all druggists. Write for free literature and full information to Chief Medical Adviser, 162 Swift Laboratory, Atlanta, Ga.

## PRICE MANIPULATION

(From The Modern Miller)  
Apparently agencies representing foreign governments have found market manipulating easier than any old-time wheat speculator ever supposed possible. This week the wheat market broke 9 cents in a few hours when a line of long wheat was sold, then buying started and it is credited about 10,000,000 bushels of wheat were bought, culminating in the advance of 9 cents, Sept. 23. The wheat buying is reported to include 5,000,000 bushels of hard winter wheat via the Gulf and Atlantic seaboard.

The export buying was on the soft spot, following the sale of December wheat in the pit a few days before.

As soon as the actual buying came to the attention of the public, it was stopped, and the usual cocaine applied to bullish enthusiasm. "It is said that now there does not remain a single export order for wheat in the Chicago market, foreigners having satisfied their requirements for the time being."

The truth is that propaganda in the way of bearish talk, coupled with the trumpeted sale of December wheat is being used to create soft buying spots. The last week and a half resulted in 10,000,000 bushels being bought for export, reputed a record day's business. But what about the 100 previous reports that foreign governments were not buying and would not take a pound of our wheat?

In the day of big speculators, the market does to fool the public and manufacture sentiment rarely resulted in daily price changes of more than a few cents, but since private speculation is frowned upon, foreign buying agencies and the firms operating for them seem to whip the market down when it gets up. The opportunity has been ideal for accumulating wheat, as domestic wheat and flour buying has been way below normal.

Some, we fear, will not appreciate the situation until the surplus is well drained.

## SLEEP DRUGS CAUSE PROBE IN N. Y. DEATHS

NEW YORK, Oct. 12.—(A. P.)—Increase of deaths here from sleep-producing drugs, use of which, it is said, has been acquired by many persons since advent of prohibition, has led Health Commissioner Copeland to order an investigation of sales of such drugs. Additional restrictions may be placed on their sale, he said.

The investigation was ordered because of a statement by Chief Medical Examiner Norris regarding the increase in deaths attributed to this cause. He said that alcoholics, addicts, finding themselves nervous and sleepless in many instances where they have been unable to purchase liquor for their customary "nightcap" before retiring and the "eye opener" on arising, had resorted to other artificial and dangerous ways of wooing sleep. The desired relief he said was obtainable through the use of the nerve-quieting effects of certain drugs.

Dr. Copeland, in instructions to the Bureau of Foods and Drugs to begin an investigation immediately, referred to most of the drugs about which complaint has been made officially, as "treacherous soporifics," 15 grains of one of which, he said, were sufficient to cause death. He admitted that fatalities from the use of these drugs were "altogether too frequent."

Dr. Morris declared that deaths from sleep-producing drugs occurred in hospitals and in what formerly were nurseries for treatment of alcoholism. Deaths from such drugs, he added, should be governed by the same strict regulations as those governing the sale of poisons.

## HUSBAND'S AUTHORITY THREATENED IN FRANCE

PARIS, Oct. 12.—(A. P.)—The husband's authority in the home is threatened in flirty-loving France.

**NOTICE**  
Regarding Mr. Hoffman's services. Up to the time of his recent connection with the Troco Company, Mr. Hoffman's advice and counsel was greatly in demand by Agricultural Colleges, Dairy Schools and Associations, Educational Organizations, Women's Clubs, etc. We wish him to continue this good work and his services will still be available for this purpose, with the hearty co-operation of this company.

**"I have spent 30 years learning how to make Troco"**

A. E. Hoffman, who now supervises every detail of the production of Troco, has been over 30 years in the butter business.

He has made butter. He has judged butter. He has taught butter making in the leading dairy schools. He is in demand wherever butter associations meet.

He knows how to handle milk, how to make the finest lactic culture. (On this culture depends sweetness and delicacy of flavor of both Troco and fine butter.)

As Troco is churned like butter, with only dainty coconut fat used instead of butter fat, this skill and experience are essential in perfecting Troco.

is of fancy grade. It is the de luxe brand of nut margarin.

**Tested ingredients**  
Every ounce of coconut fat used in making Troco must pass an exacting laboratory test for freshness and purity. Every quart of milk comes from selected herds and is twice pasteurized.

These appetizing materials are the most nutritious of natural foods. Whole races thrive on coconuts. Milk possesses all health essentials.

**We have built a new plant**  
To give Mr. Hoffman every facility in his exacting work, we have built a splendid new white tile and concrete plant. It is equipped with a complete laboratory and provided with every mechanical facility. It was designed solely for the making of de luxe margarin.

Working in this ideal environment, every pound of Troco

**You may pay a little more**  
We couldn't achieve and maintain this wonderful quality if we had to cut prices to meet competition. So we make this announcement to Troco users:  
Troco may cost a few cents more per pound. This you will gladly pay, just as the finest grade of butter commands a premium.

Ask your dealer for Troco. Have him order it for you if necessary—but don't accept another brand.

## How To Keep in Good Condition

Sound nerves, a clear head, good digestion, strength, endurance and general health depend upon clean blood. If the kidneys and bladder do not properly perform their functions, the blood cannot be clean and pure, for these organs filter and cast out the waste matter, impurities and poisonous acids that cause nervousness, rheumatic pains, backache, languidness, sore muscles, swollen joints, stiffness, puffiness under the eyes and other weakening symptoms.

**WAS RELIEVED AT ONCE**  
"I was afflicted with kidney and bladder trouble for nearly 8 years. Had one very bad spell about 5 years ago. Was confined to bed for 4 or 5 days, unable to turn without help. I commenced using Foley Kidney Pills and can truly say I was relieved at once. I take pleasure in recommending your kidney pills to all who have kidney trouble." John Smith, Michigan Bar, California.

**FOLEY KIDNEY PILLS**  
soothe, strengthen, heal overworked, weak and diseased kidneys and bladder. When these organs are working properly, the blood is cleaned and purified, appetite returns, good digestion follows, refreshing sleep is possible, health and strength come again. They have brought relief to thousands of men and women who thought old age was coming on before it was due.
