Going Into Debt

Debts are much like habits, some are constructive, building you up physically, morally or financially, while some are destructive, pulling you down. Start a good habit by starting a good constructive debt—one worth your best efforts to pay and one that will leave you something worth while or valuable when final payment is made.

Buy a home, invest in good real estate, work your way into a business you like. But first you need the "money down," the usual first payment. Open an account in our Savings Department and accumulate the required sum—by making regular weekly or monthly payments.

Don't discard that old piece of furniture just because its finish is scratched and marred. Give it a new lease on life with a coat of Vernicol, the jiffy-do-over varnish stain. Stains and varnishes the wood at each stroke of the brush. Scratches disappear almost magically. Dries with a rich, hard, glossy luster. Wears and wears. It's good for floors, too.

Keep a can of Vernicol handy. It's a great antidote for careless servants and thoughtless children. Comes in all the popular finishes. Ask for color card and booklet.

Stock Market Suffers Dull Day Because of Strike.
NEW YORK, Oct. 19.—Foreign selling precipitated chiefly by the strike of the British miners and domestic offerings originating mainly at interior points, were the restraining influences of Monday's dull and heavy stock market.

The British industrial crisis was directly responsible for another sharp decline in rates of exchange to London, sterling bills falling to their lowest quotations for the current movement.

Exchange on other important foreign capitals was similarly affected. French and Belgian remittances, also lira and rates to Spain and Switzerland, eased sharply. A new low record for remittances to Argentina was primarily due to that country's adverse trade balance.

Advices from home industrial sections strengthened the impression that independent steel producers are formulating plans for a downward revision of price schedules.

Steels and equipments, oils, junior rails, shippings, textiles and leathers were the vulnerable features of the stock market. Sales 475,000 shares.

Easier conditions ruled in the money market. An opening rate of 7 per cent for call loans held until the last few minutes, when offerings were made at 6 per cent.

Domestic and foreign bonds were steady to firm, local utilities strengthening. Total sales, par value, aggregated \$12,275,000.

Old United States bonds were unchanged on call.

Bears Control Wheat Price Because of British Strike.
CHICAGO, Oct. 19.—Bears had the advantage in the wheat market Monday, owing chiefly to the British coal miners' strike and to a sharp break in sterling exchange. Prices closed heavy 1 3-4 to 3 3-4c net lower, with December 2.11 to 2.11 1-4 and March 2.91 3-4 to 2.92. Corn lost 1 5-8 to 2c and oats 1-2@5-8 to 7-8. The finish in provisions varied from unchanged to 1.15 down.

It was generally assumed that the British strike meant unavoidable delay and curtailment of export business in wheat. This was emphasized by the fact that sterling had dropped to the lowest level since March, and that acute weakness was shown by cotton.

A late influence against the bulls was an enlargement of the visible supply total. Besides, there were advices that 40 per cent of the receipts at Minneapolis came from Canada.

Corn and oats gave way with wheat. Provisions were depressed.
