DECEMBER WHEAT
(Continue from page 1.)
(From Overbeck & Cooke Co.)
CHICAGO, Oct. 19.—Wheat—A pessimistic feeling was prevalent, but not concerning wheat particularly, but on the general business conditions at home and abroad which had a tendency to influence liquidation on all commodities. Prices started lower and remained depressed throughout the session, although at time the December delivery seemed willing to respond to spasmodic buying. The December-March spread was further widened, further reflecting the possibility of a tight market.

developing the first of the year, due to light deliveries from the country and a large outward movement. A report that Kansas banks had been advised to urge farmers to sell was an argument in favor of the short side, although private advice confirmed the determination of the producer to hold for higher prices. Receivers reported a slight increase in offerings from the country, but not sufficient to be considered significant. Sentiment is too unanimously bullish and we think any improvement in the buying will disclose an over-sold condition.
(From Overbeck & Cooke Co.)
Russels says—According to the bolshevik official statistics, Russia, including the Ukraine produced 132,400,000 wheat in 1920 while the bare necessities of the country in 1921 will be 273,600,000 bushels. If bolshevik statistics are correct there can be no exports of wheat from Russia this year.
(From Overbeck & Cooke Co.)
NEW YORK, Oct. 19.—Prices were decidedly firm though the volume of dealings was restricted. The foreign news was somewhat more specific and denoted that parliament will actively grapple with the strike situation and an early solution is therefore expected. Money ruled as low as 6 per cent. Copper was weak. We think the advance will again be resumed shortly.

Beauty More Than Skin Deep
There is an old saying that beauty is only skin deep. That may be so with those who get their beauty out of a box but not the genuine sort. Beauty is really only another word for good health and no woman who is bilious and constipated can reasonably hope to be beautiful. Chamberlain's Tablets will correct these disorders, then with proper diet and exercise there is no reason why any young woman with regular features may not hope to be beautiful.

She Sets a Good Example
"I keep a bottle of Chamberlain's Colic and Diarrhoea Remedy in the house at all times and have recommended it to many friends and acquaintances who have used it with good results" writes A. O. Newell, New Kensington, Pa. Should you not do like wise? Think of the pain and suffering that must be endured when medicine must be sent for.

Now is the Time to Get Rid of Your Rheumatism
If you are troubled with rheumatism get a bottle of Chamberlain's Liniment and use it according to the plain printed directions. You will be surprised at the quick relief which it affords. No internal treatment is required in cases of chronic or muscular rheumatism. All you need is to use this liniment freely.

debated upon the question: Resolved, That the League of Nations Should Be Adopted Without Reservations. The negative, taking the republican stand won in the first period class by a two to one decision. The teams consisted of affirmative, Miss Evelyn Davis, leader, Miss Geraldine Morrison, and Donald Woodworth; negative, Miss Genevieve Phelps, leader, David Swanson, and Travis Taylor. The judges were students from other classes, Miss Estella Mills, Miss Mary Chisholm, and Miss Mary Clarke.

Annual Board Chosen—The editor of the annual for this year, with the assistance of Miss St. Peter, Miss Ross and Miss Severance of the faculty, has selected a staff to issue this year's annual.
