In the hog alleys there was a run of 853 head to greet the Wednesday morning trade. Killers were extremely bearish in their views and while no early sales were made, packers were offering a lower price range.

Business on Stock Exchange
Wholly a Traders' Affair.
NEW YORK, Oct. 21.—Business on the stock exchange Wednesday was almost wholly a traders' affair, neither the long nor short account having an appreciable advantage at the firm but sluggish close.

Practically the same factors and influences which served to restrict operations during the early days of the week were again in evidence notably the British industrial crisis and manifold indications of a reactionary trend in many lines of domestic commerce and industry. Increasing interest was manifested in the semi-annual meeting next Friday of the American Iron and Steel Institute, in financial as well as industrial quarters it was understood that the policy of some of the largest producers for the coming year then would be outlined.

Oils, rails, shippings and equipments backed and filled within a radius of 1 to 4 points, motors, utilities and sundry specialties moving in like manner with sugars, textiles and chemicals. Aside from post support and short covering in some of these issues the market was dull and most often featureless, except for pressure directed against International Paper, American Writing Paper, Pfd., and Union Bag, Sales amounted to 475,000 shares.

Vernicol makes old furniture new— keeps new furniture from getting old—

Don't discard that old piece of furniture just because its finish is scratched and marred. Give it a new lease on life with a coat of Vernicol, the jiffy-do-over varnish stain. Stains and varnishes the wood at each stroke of the brush. Scratches disappear almost magically. Dries with a rich, hard, glossy luster. Wears and wears. It's good for floors, too.

Keep a can of Vernicol handy. It's a great antidote for careless servants and thoughtless children. Comes in all the popular finishes. Ask for color card and booklet.

market were mixed, the London rate rising about four cents over its recent low, with concurrent steadiness in Paris remittances and irregularity to the Scandinavian centers.

Trading in bonds was moderately active, liberty issues showing firmness, with slight reactions in the rest of the American group, also international. Total sales, par value, \$14,850,000. Old U. S. bonds were unchanged on call.

Bears Follow Speech of Houston, Forcing Wheat Down.
CHICAGO, Oct. 21.—Bearish views regarding Secretary Houston's address before the bankers convention in Washington led to much selling of wheat Wednesday and to a sharp decline in prices. The market closed unsettled, at the same as yesterday's finish to 2 1-4c lower with December 2.02 to 2.03 1/2 and March 1.95 to 1.95 1/2. Corn closed 1 1/4c net lower to 1/4 advance, and oats off 5-8 to 1 1/4c. In provisions the outcome varied from 5c setback to 27c advance.

At first the wheat market showed a decided upward tendency as a result of prospects that the British coal strike would be settled sooner than had before seemed probable. Beginning of a federal inquiry here as to wheat market conditions counted likewise in favor of the bulls and so too did the growers' prediction that rural sales of wheat would be cut off on and after October 25. However, all gains were more than counterbalanced in the last part of the day when the substance of Secretary Houston's address became known.

Corn and oats likewise displayed firmness early, but later were depressed by eastern selling. Big breaks in quotations on hogs did a good deal to make provisions average lower.

Firmer Trading in Brazil Strengthens Coffee Exchange
NEW YORK, Oct. 21.—Reports of a firmer ruling in Brazil and an improved spot market seemed to stimulate covering and attract more investment-buying in the market for coffee futures here yesterday. Brokers with cotton trade and Wall street connections were among the buyers, while offerings were comparatively small, suggesting that futures had been well liquidated on the big declines of last week. The opening was unchanged and buyers eventually found little incentive in the early tables but advances were reported in Santos and December contracts here sold up 7 1/2 while May touched 8.30, or 4 1/2 at 55 points net higher on the more active positions. The close was at the best prices of the day, showing a net advance of 48 to 58 points. October 6.99; Dec. 7.39; Jan. 7.52; March 7.99; May 8.30; July 8.60; Sept. 8.90.

Spot coffee was reported in better demand with Rio 7s quoted at 7 3-8 to 7 1-2 and Santos 46 at 11 to 11 1/2.
