MRKTS
Hogs Steady to Weak
Cattle and Sheep Steady
 Six loads of livestock entered the North Portland alleys Friday, but one of these was a direct shipment to a packer. Hogs were steady to weak in spots, cattle were steady, while sheep were considered about steady.

With Chicago down to \$13.40 and other eastern values still lower, the Friday market for hogs at North Portland was somewhat mixed in character. Only a small run was shown for the day, total being 338 head, and early prices, while weak in spots, were unchanged.

Stock Market Rises and Falls With Indecision.
 NEW YORK, Oct. 23.—The stock market again rose and fell mostly within a contracted era Friday, the extreme listlessness of prices and light dealings expressing the further indecision of traders in the absence of definite factors.

Gains predominated among the usual leaders, however, until the final half hour when the rate for demand loans suddenly rose to 10 per cent, the maximum of the week, on the withdrawal of funds by local and

The Making of Your Boy

Raising and developing your boy physically and educationally is not sufficient. The right kind of red-blooded youngster should have a good workable knowledge of money, how to bank, invest and handle it under various conditions. To do this systematically and successfully, assist him in starting—and keeping-up—a Savings Account in this strong bank; do so the first time you come down town, corner Main and Alta streets.

Vernicol makes old furniture new—keeps new furniture from getting old—

Don't discard that old piece of furniture just because its finish is scratched and marred. Give it a new lease on life with a coat of Vernicol, the fifty-do-over varnish stain. Stains and varnishes the wood at each stroke of the brush. Scratches disappear almost magically. Dries with a rich, hard, glossy luster. Wears and weathers. It's good for floors, too.

Keep a can of Vernicol handy. It's a great antidote for careless servants and thoughtless children. Comes in all the popular finishes. Ask for color card and booklet.

interior banks. Despite the late reaction a few stocks, such as Canadian Pacific, Utah Copper, Studebaker, Mexican Petroleum and United Fruit, registered net gains extending from 1 to 6 1-2 points. Losses among the industrial leaders, notably steels, equipments and food specialties, were limited to fractions. Sales 425,000 shares.

Apart from the money flurry, which seemed to be regarded as a temporary incident, most of the day's developments were of an encouraging character. Favorable inferences were drawn from the deadlock in the British industrial situation and the view of Chairman Gary respecting steel trade prospects were helpful to shares of that character.

The success of the \$25,000,000 loan to Denmark, offered by local banking interests as indications of extensive accumulations of high grade bonds bore further testimony to the stability of the investment market.

Usual leaders in the bond market were overshadowed in speculative interest by the new foreign flotations. Interborough issues lost some of their recent advance. Liberties were irregular and most other domestic rail and industrial issues eased slightly. Total sales, par value, \$16,475,000.

Active Export Buying Leads to Better Prices.
 CHICAGO, Oct. 23.—Active buying for export together with optimistic advice in regard to prospective settlement of the British coal strike led to sharp advances Friday in the wheat market. Prices closed strong, 4 to 4 1-2 net higher, with December 2.02 to 2.02 1-4 and March 1.95 3-4 to 1.96 1-4. Corn gained 1 to 1 1-2 and oats 1-2@ 3-4 to 7-8. On provisions the outcome varied from 40 cents decline to 25c advance.

It was estimated that export purchasing totalled fully 2,000,000 bushels. Most of this was for shipment by way of the Gulf of Mexico to Belgium, France, Italy and Switzerland. Liberal buying of flour for Greece and Sweden was also reported. Highest prices of the day reached just before the close, came after many sharp fluctuations due more or less to bearish views early about the British strike outlook, flattering crop reports from Argentina and gossip that rural offerings in Kansas were the largest of the season.

Corn and oats were governed chiefly by the action of wheat. Temporary oats touched the lowest point in recent years.

Fresh breaks in the value of hogs brought about considerable liquidation by holders of provisions.

Demand for Wool Moderate With Prices Unchanged
 BOSTON, Oct. 23.—The Commercial Bulletin today says:
 "The demand for wool continues moderate with prices changed but little. The choice Australian wools bought largely by America are firmer since the opening in Melbourne although the average to inferior to wools have shown a declining tendency and withdrawals have been heavy."
 "The goods market here is rather chaotic still, but the willingness of operatives in the mills to accept cuts in wages of 15 to 20 per cent in order to keep mills running is one of the most hopeful signs at the moment."
