Hogs Live Half Dollar
Cattle and Sheep Steady
Hogs dropped 50c again at North Portland, cattle were slow but steady and sheep steady. Receipts totaled 12 cars for Wednesday.

In the hog alleys there was a further reduction of a half dollar in the North Portland market. Tops dropped during the day to \$15 flat and the bulk of the limited supplies went below this.

In the eastern market there was a general advance Wednesday but prices there continue much below those in effect at Portland.

General hog market range:
Prime mixed \$14.50@15.00
Medium mixed 14.00@14.50

Sharp Upturn Followed by Setback in Wheat
CHICAGO, Oct. 28.—Although new upturns in the price of wheat took place today the market afterwards underwent a sharp setback. Attention given to farm strike reports was the chief bullish influence. On the other hand, export buying appeared to have come almost to a halt. The market closed weak, 2 1/4 to 3 1/4 net lower; with December 2.06 to 2.04 1/2 and March 2.00 to 2.00 1/4. Corn lost 1/4 to 1/2. In provisions the outcome was unchanged to 40c lower. General buying associated with cur-

More Charming Coats

\$29.50 \$34.75

Many of our friends delayed a few days in seeing the first two groups of those wonderfully good looking coats we advertised at the above prices and the result was they were disappointed in not finding many of the first shipment here.

We immediately wired in for another assortment, which arrived in yesterday's express. In these new coats are velours, tinsel-tones, silvertones and bolivias. Some have deep cape collars and many are fur trimmed. In both qualities you'll be surprised to find full linings of beautifully flowered silks.

Give yourself the advantage of the complete assortments of these new coats by seeing them at your earliest convenience.

ANOTHER SHIPMENT CHILDREN'S NEW COATS

This last consignment of comfy coats for youngsters include many coats for wee folks, a good proportion of them being in sizes from three to ten years. Materials are mostly solid color coatings in very pleasing shades of brown, tan, green and blue.

rent advice about farmers taking concerted action to put a stop to rural sales of wheat gave the market a decided upturn at the outset. Some houses had messages which asserted that farmers were picketing and were sending back home ward producers who were hauling wheat. Other houses said country acceptances of bids were more liberal than had been expected in view of the strike call. Conflicting gossip about settlement of the English coal strike added to the uncertainty of traders, and the fact became more and more apparent that at least for the time being exporters had almost completely withdrawn from the market. Throughout most of the remainder of the day, bears were in control of the pit.

Corn and oats merely reflected the action of wheat. Provisions lacked support. Packers selling was reported.

Speculative Stocks Under Increasing Pressure for Day.
NEW YORK, Oct. 28.—The stock market was under increasing pressure Wednesday, the extent of the impairment, while comparatively moderate in seasoned shares, assuming wider dimensions among the more speculative issues.

From the outset selling converged around the steels, that group evidently being regarded as especially vulnerable because of the failure of the U. S. Steel directors to increase the common dividend yesterday. In all likelihood, however, heaviness of steels and affiliated stocks was directly due to advices from leading centers of the industry, where further price unsettlement and reduced output seemed to be in progress.

Equipments, motors and their subsidiaries, oils, tobaccos, sugars, chemicals and numerous unclassified specialties were swept into the reactionary movement at extreme losses of one to five points. Ralls of the better type made only moderate concessions, but junior issues eased sharply on small offerings. Total sales amounted to \$75,000 shares.

Strength of exchange on London foreshadowed early adjustment of differences between the British miners and the government. This was borne out by cables received by private banking interests, but the effect on the stock market was negligible. Call money opened at 9 per cent and advanced to 10 per cent before the close.

Bonds were irregular on a relatively small turnover, popular issues, including liberties, showing no nominal gains and recessions. Total sales, par value \$11,250,000. Old U. S. bonds were unchanged on call.

Coffee Futures React Down On Decline in Exchange
NEW YORK, Oct. 28.—The market for coffee futures showed further reactions Wednesday owing to the earlier ruling of the Brazilian cables and reports of a further decline in Rio exchange rates. The opening was unchanged to 2 points lower and there were rallies of a few points right after the call, but the market soon weakened with March selling off to 8.95 or 23 points net lower and 90 points below the high price of Monday under liquidation and scattered selling. The close was at nearly the lowest point of the day, showing net declines of 26 to 31 points. October 7.25; December 7.40; January 7.62; March 8.07; May 8.27; July 8.47; Sept. 8.74.
