AT THE GATE.

(By Frank L. Stanton.)

She comes to meet me when the soft twilight
 Darkens the roses at my garden-gate;
 And wistfully the dewy blue eyes wait—
 Twin, tender stars, that glorify my night.
 And as my steps draw near I read aright
 The morning in her eyes—divine and great.
 Love that comes early and yet lingers late—
 In God's own garment of celestial white.

Up to my arms she climbs—my little one;
 Close to my bosom nestles like a dove;
 With soft caresses of her gentle hand,
 Ah, God, if some day when my toil is done
 I miss her clinging arms—her kiss of Love,
 And only see her footprints in the sand!

ABOVE THE LEVEL OF PARTISANSHIP

ONE of the outstanding features of this campaign is the wonderful support that is being given Governor Cox and the League of Nations by pro-league republicans.

We have had some striking illustrations in this county. Col. Charles W. Whittlesey, who talked at the station yesterday, is a republican. He was against President Wilson in 1916 but he praises him now and he supports Governor Cox because of the league issue. He speaks from the viewpoint of a soldier who fought for American ideals and resents the fact that the Harding campaign has sought to trail those ideals in the dust. Who has a better right than Whittlesey to speak at such a time? His command would not surrender though shot to pieces and surrounded for five days. Do the American people want to uphold such devotion or make of it a mockery?

With Col. Whittlesey on his stop here yesterday was Herbert Parsons, also an overseas veteran. Mr. Parsons was a republican congressman from New York and that state's national committeeman. But he quit Harding when Harding made his Des Moines speech. With Parsons principle comes ahead of party.

We are also having some earnest speeches in this county from Mark W. Hearn, a republican lawyer who lost a brother in Flanders. Mr. Hearn sacrificed his law practice in Detroit to go into the government service during the war. He had a hard time getting relieved and when he returned to Detroit he did not know the people who came to his old office, nor did they know him. He came west to start anew and is campaigning for the League of Nations because his heart is in the cause.

When men like this enter the campaign as they have done the presidential election rises far above the level of party politics. The work of pro league republicans in behalf of Governor Cox is going to be tremendously effective and that work is entitled to unstinted praise. The example of these men and women is to be commended for the future to men and women of all parties. If you wish authority for this we have it in the words of George Washington, as reprinted in the Literary Digest, that in a government purely elective the party spirit "is not to be encouraged."

SAFEGUARD OREGON

THE fact he supports the League of Nations is not the only reason why Senator Chamberlain should be elected. From a cold blooded business standpoint Oregon can ill afford to lose the prestige that comes from having a veteran member of the upper house, who is personally popular with the members of both parties and has important committee assignments. Most legislation that affects this state such as irrigation is usually bi-partisan in character. Through Senator McNary we can reach the republican members and through Senator Chamberlain the democrats. With this arrangement we reach both sides and we are certain to be in touch with the majority party, whichever it may be. No one knows how the next senate will stand politically but it is certain the lineup will be very close. Under such conditions it would be a blunder to replace Senator Chamberlain with a new man. Safeguard Oregon by reelecting our senior senator.

VOTE IT DOWN

SOME people have a mistaken idea that passage of the four per cent interest law would enable them to borrow money at Oregon banks at four per cent. It would not. The banks would be able to place all available money in gilt edge, liquid securities, outside the state, and obtain an interest rate of seven or eight per cent. They would do that and the Oregon farmer or businessman wanting money would practically be barred by law from obtaining the money needed, many of these people would go bankrupt. The proposed law would bring calamity upon the state. Hit it hard.

Senator Harding wants the election to be a referendum on the League of Nations subject. That relieves a republican who believes in the league from any party obligations. The way to have a referendum is to vote on the subject at issue. The Harding position is for rejection of the covenant, with or without reservations. Governor Cox stands for joining the league with helpful and clarifying reservations. The Harding proposal for some other sort of an association is junk because 43 nations of the world are pledged against going into any counter league.

The Curtis Publishing Co., owners of the Saturday Evening Post, formerly enjoyed a second class postage rate that meant millions of dollars to the concern. Under the Wilson administration the present businesslike zone rate was applied with a view to fixing charges in a measure at least on a basis of the cost of service. That is explanation enough for the eleventh hour attack the Post is making on Governor Cox.

FARMERS JOINING IN \$3 PRICE DEMAND

A CLEAR SKIN

Women do not have to patronize the beauty parlor—for if their skin is disfigured with pimples and blotches, and their blood is in disorder they should obtain at the drug store that wonderful blood tonic and alternative of Dr. Pierce's which he placed before

public over 50 years ago. Since that time many thousands of men and women have testified to its wonderful blood-cleansing effect. This is what one woman says:

CHEHALE, WASH.—"I have used Doctor Pierce's medicines for over forty years for myself and family and have always found them just as represented. I think Dr. Pierce's Golden Medical Discovery for a tonic and blood builder cannot be beat; and Dr. Pierce's Pleasant Pellets have no equal for constipation; in fact, I can heartily recommend any and all of Dr. Pierce's remedies. "My daughter had chronic constipation from babyhood and doctors could not cure her. Dr. Pierce's Pleasant Pellets is the only thing that ever helped her."—MRS. JENNIE K. SWOFFORD, 1320 Alfred St.

Beats Gasoline at 15 Cents a Gallon

WINTER — is just around the corner. Have you filled your coal bin? If not, don't delay any longer. The time was never better than right now.

New Invention Makes Ford's Run 31 Miles on Gallon of Gasoline and Start Easy in Coldest Weather — Other Cars Show Proportionate Savings.

A new carburetor which cuts down gasoline consumption of any motor, including the Ford, and reduces gasoline bills from one-third to one-half is the proud achievement of the Air-Precision Carburetor Co., 1424 Madison St., Dayton, Ohio. This remarkable invention not only increases the power of all motors from 20 per cent to 50 per cent, but enables everyone to run slow on high gear. It also makes it easy to start a Ford or any other car in the coldest weather without previously warming the motor. With it you can use the very cheapest grade of gasoline or half gasoline and half kerosene and still get more power and more mileage than you now get from the highest test gasoline. Many Ford owners say they now get as high as 25 to 30 miles to a gallon of gasoline. So sure are the manufacturers of the increase saving their new carburetor will make that they offer to send it on 30 days' trial to every car owner. As it can be put on or taken off in a few minutes by anyone, all readers who want to try it should send their name, address and make of car to the manufacturers at once. They also want to send a note to whom they offer an exceptionally large profit. Write them today.—Adv.
