

CANDIDATE FOR DISTRICT ATTORNEY

SYLVESTER A. NEWBERRY

A practicing attorney in Umatilla County for twenty-three years continuously, has been regularly nominated for Prosecuting Attorney. He served as Deputy District Attorney of Umatilla County for two years under Sam E. Van Vactor, 1911-12, while Mr. Van Vactor resided at Heppner. At that time the District was composed of two counties, Umatilla and Morrow, and a Deputy was necessary. Since 1914, the District has been composed of Umatilla County only. Since 1918 the taxpayers have been paying two salaries to run the office of District Attorney: One to Mr. Keator and one to his Deputy. If I am elected, I will save the taxpayers \$600.00 a year, as I will devote my time to the duties of the office and not require a regularly salaried Deputy.

I charge Mr. Keator, my opponent, with reckless extravagance in office, not only in requiring a salaried Deputy at the expense of taxpayers, but in bringing such expensive cases in court as the Homer Watts case and the Jim Means case. These two cases, if proper judgment had been used, would never have been brought into court. They cost the taxpayers several hundred dollars and there was no competent evidence in either case to justify a conviction. Many other expensive cases can be named which should not have been brought. A District Attorney should make careful investigation before filing informations, or causing indictments, and not harass people through "spite" or "malice" at the expense of taxpayers.

If I am elected I pledge myself to strict law enforcement and will devote my entire time and attention to the duties of the office. I will see to it that every person arrested shall be immediately taken before a magistrate in the manner provided by law and given a hearing without being kept in jail for weeks without such. As chief legal advisor of the county, I will not permit the "brutal third degree" to be given to any prisoner at any time by any detectives or any other person. Poor people shall have the same careful attention that is given rich ones. I will give every person a square deal and protect the taxpayers against official extravagance. Every person who calls to see me in my official capacity will be given a careful hearing and accorded courteous treatment. I will not recommend an indictment at any time against any person unless there is sufficient proof to justify a conviction.

I appeal to no class nor to any party, but to the people in general to whom I pledge myself for speedy and economical transaction of all business and strict performance of all duties.

My number is 86 on the ballot.

A Bill That Saves Money

CREATES NO NEW OFFICES

FITS ALL COUNTY OFFICES ON SAME BASIS BY MAKING TERMS OF EQUAL LENGTH

Efficiency, more capable public officials, and reduction of expenses are the three most important elements to be considered when an amendment to our constitution is before us for initiation.

The initiative measures Nos. 308 and 309 for the amendment of the constitution of the State of Oregon in the matter of increasing the term of office of certain county officials—that is, county clerk, coroner, sheriff, surveyor and treasurer, if ratified by the vote of the people in the election November, 1920, will undoubtedly result in a more capable and efficient type of official, will give the taxpayers less expense, and will result in greater efficiency in the work of these various officials.

The undersigned recommend this amendment for the increasing of the term of office of county officials for ratification by the voters of this state for the above reasons, and because of the following further advantages which will accrue to the taxpayers of this state if this amendment is passed and becomes a part of the Constitution of the State of Oregon. Capable men will much more readily run for office when they are assured of a four-year term in case they are elected, inasmuch as a two-year term merely means that by the end of the first year when they are just beginning to get acquainted with the duties of their office they must start a campaign for re-election, which involves considerable expense on their part in addition to the worry and attention, and lessens their efficiency in office. A four-year term is desirable and worth con-

sidering to such candidates who would not consider a shorter term.

The passage of such an amendment would also lessen the expense of election and will classify public service under the same practical tenure as private business wherein competent heads of departments are rated by their ability and efficiency.

ENDORSEMENTS

This amendment is endorsed by Ben W. Ghett, Governor of Oregon, by Geo. M. Brown, Attorney-General, who endorses it in the following words: "I endorse constitutional amendment fixing term of certain county officials, and especially as it relates to the clerk and sheriff."

"I do so for the reason that it is in the interest of well-trained public officials."

Also by Sam A. Koser, Secretary of State, to the following effect:

"I am heartily in favor of the proposed constitutional amendment extending the terms of county sheriffs, county clerks and county treasurers to four years. I believe that the endorsement by the people of this amendment is in the line of progress and will result in more efficient administration of the duties of those offices. The term of office at present is hardly of sufficient duration to enable an official to acquaint himself with the duties thereof before he must seek re-election. A longer term of office, to my mind, tends toward the more efficient performance of the duties of the office by those whom the people may select therefor."

This amendment is also endorsed by Conrad P. Olson, Eugene Brookings, and many others.

EVERY FOREST BLAZE BOOSTS LUMBER COST

WASHINGTON, Oct. 29.—(A. P.)—Every time there is a forest fire it is a contributing factor to the increasing price of lumber, according to Charles Lathrop Pack, president of the American Forestry Association, who, in a statement here today denounced the needless \$30,000,000 annual forest fire loss of the United States as "a wasteful strain upon the resources of the nation."

Standing timber is being cut and destroyed by fire, diseases and insects, he said, more than four times as fast as new trees are being grown. "Here is an example of what confronts the nation," declared Mr. Pack. "The wholesale prices on upper grades of soft wood lumber in New York were from \$29 to \$35 a thousand feet prior to 1885, when mills in the same state supplied the market, from \$35 to \$45 between 1885 and 1917 when most of the supply came from the lake states and the south and are now entering a general level of \$110 a thousand feet with a large part of the material coming from the Pacific coast. "Many industries have been unable to secure their supplies of lumber at any price. The output of certain entire industries has been reduced as much as 50 per cent. Necessities have fared worse than luxuries and have affected seriously practically our entire population."

Voters Attention

To the Taxpayers and Voters of The City of Pendleton: Some misleading statements have been made regarding the Bonds to be voted on for the purchase of a new fire truck. Some people are under the impression that a new truck was purchased by the city council last spring which is not true, for when it was discovered the city finances would not permit, the matter was dropped and held over for the coming election.

Remember: Investment in fire apparatus is buying an asset. No department ever has had too much apparatus: It's there when needed and nobody knows when that time will come.
