**WARNING!**

On November 2nd you will be required to vote on the so-called Oleomargarine bill. The instigators of this vicious measure would have you believe that its purpose is to regulate and license.

**THE REAL PURPOSE IS TO KILL A GREAT OREGON INDUSTRY**

It is directed against the manufacture and sale of Oleomargarine, Nut-margarine and all the many kinds of spreads used for bread by thousands of people in our state who cannot afford to pay the price of butter.

**Facts to Remember!**

- 1 The OLEOMARGARINE BILL will not in any way benefit the Dairy industry of Oregon by the implied strengthening of the market or increasing the consumption of dairy products.
- 2 The local butter industry is entirely regulated by national demand and the manufacture and sale of Oleomargarine and Nut-margarines can never, in the least, affect the dairy industry in the state.
- 3 Further state legislation in the form of the so-called Oleomargarine Bill is not necessary because the Government already has 79 pages of regulatory and licensing laws governing the operation of this legitimate industry. Deception and fraud are impossible.
- 4 The Oleomargarine Bill is an attempt to dictate to you what you shall or shall not purchase in the way of a spread for your bread.
