

Social and Club News

"SOCIETY IS ADJOURNED"

Milady today will "put on her old gray bonnet" and accompany suitors to the polls where she will cast her first vote to elect the president of the United States. Society is adjourned in favor of politics—at least until tonight, though election parties this evening will be quite the thing.

Women are deeply interested in the fall this year and with the constitutional amendment adopted just in time to admit the feminine vote, the "unknown quantity" which has caused such scratching of heads in political camps, promises to wage its influence. Then tonight, when all is said and done, these same first-voters will wait in line eagerly to hear the news. Several informal supper parties have been scheduled for the more ardent devotees to plan to stay up for election returns.

VISIT IS POSTPONED

Friends of Mrs. J. N. Burgess, who have been expecting her in Pendleton for a visit, will regret to learn that her coming was delayed by the serious illness and death of her sister-in-law at Banks, Oregon. The message was contained in a letter received today by Mrs. J. D. Montgomery. Mrs. Burgess, who is spending the winter at The Mallory in Portland, will probably make the visit to Pendleton later.

BRIDE-ELECT ENTERTAINED

Friends of Miss Helen Curry of La Grande and Estley Roy Farley of

Hermiston, will be interested to know that they have chosen Thursday, November 4, as their wedding day. Many complimentary affairs are filling the final week before the event. La Grande friends feted the bride-elect with luncheons, teas and dinners.

BREAKFAST IS DELIGHTFUL

One of the most attractive of Hal-lows'en time affairs was a breakfast for which Mr. and Mrs. Lynwood Livermore were hosts Sunday morning. Guests were asked to their

apartment in the Association building. A pumpkin bowl was filled with varied fruits to form a charming centerpiece and covers at the pretty table were laid for ten.

SPokane BUSINESS BUILDINGS BURNED

SPokane, Nov. 2.—(A. P.)—Three business buildings suffered in a fire this morning which caused a loss of \$25,000. Firemen controlled the blaze which was threatening the First Baptist church.

NON-PARTISAN LEAGUE FACES BITTER FIGHT

ST. PAUL, Nov. 2.—(U. P.)—The non-partisan league today faced the bitterest election fight in the north-west. Almost every ballot, marked "survive" or "perish" to the league. The battle in South Dakota is especially bitter, with republicans, democrats and independents all combined to down the league candidates.

NOT EVEN A WHIFF MOISTENS ARID CITY OF CHICAGO IN 1920

CHICAGO, Nov. 2.—(U. P.)—Today is Chicago's "driest" election day. Where once flowed freely in past election days today there was not even a smelt. A two and a half year sentence to bootleggers yesterday took all the thrill out of it. Cops could have taken a day off today.

WRIT SERVERS SCARED BEYOND USUAL DEGREE

DUBLIN, Nov. 2.—(A. P.)—Writ servers, never popular in Ireland and who in times of excitement had often to eat their writs, now have been so intimidated that they do not dare even attempt to serve their documents. In some cases where they took the risk they have been held up by armed men who took the writs from them. Most of the writs are issued by the Irish land commission claiming arrears of the annuities of the purchase money advanced by the government to tenants to enable them to buy their holdings.

New rules have been drafted to meet the emergency and it has been provided that it shall not be necessary to serve a writ. It will be sufficient to mail it by registered letter and advertise in the local papers. The mere fact of mailing is enough so that nothing will be gained by holding up the mail carrier.

LARGEST NAVY AIRSHIP DELIVERED TO ARMY

WASHINGTON, Nov. 2.—(A. P.)—Naval airship D-2, which flew successfully from Akron, Ohio, to Langley field, Va., Sunday, has been delivered to the navy department and today to the army air forces stationed there. The ship made the trip in 20 hours and 45 minutes. It is the largest craft of the type built in America.

HIGH SCHOOL NOTES

Play Cast Chosen.—The choice of the cast for the Senior play was completed last evening. Miss Olive Roscoe, faculty advisor of the class, Miss Ada St. Peter of the English dept., and Miss Laura Ross coach of the play acted as a committee to choose the characters. The play this year will be presented before the Christmas holidays so that it will not interfere with the class day exercises as was done last year. All members of the class of 50 tried for the parts and those who were most successful and were chosen for parts were:

Sir John Cotswold Ivan Houser
Lady Coltswood Mary D. Chisholm
Cecil Cotswold David Swanson
Peggy Cotswold Alberta McMonies
Vining, Cotswold's servant Sam Oliver
Mr. Lewis, Municipal agent of Cecil's John Simpson
Sir Isaac Jacobson John Henderson
Lady Jacobson Blossom Wilson
Ester Jacobson Genevieve Phelps
Adrian Jacobson Lucius Mathewson
Maximilian, Jacobson's servant Gilbert Struve
Capt. Trevor, An English officer Harold Goedecke
Bill Wee, ex P.

The play is centered on the hatred of the Jewish family by Sir John Cotswold the master of the English home. His son Cecil who has become famous abroad as an opera singer has returned and has fallen in love with the daughter of the Jewish family. The son of the Jewish family has fallen madly in love with Peggy, Cecil's sister. Neither parent can consent to the marriage of their children but they finally force their parents to consent and all ends well.

PULLMAN PORTER IS KILLED IN S. P. WRECK

SAN FRANCISCO, Nov. 2.—(A. P.)—A Pullman porter named Weisberger was killed, and two passengers were injured in a collision between two sections of Southern Pacific train No. 14, bound from San Francisco to Portland, at Corma early today.

The collision occurred while the first section was backing out of a siding. The second section crashed into it, partially wrecking a Pullman car.

WATER IN CALIFORNIA MOST VALUABLE CROP

SAN FRANCISCO, Nov. 2.—(A. P.)—Water is California's most valuable crop, according to the annual report of the Railroad Commission of California to Governor W. D. Stephens, which says that the two fold development of water storage for irrigation and power purposes will bring about a period of enormous development in the state.

"California's streams and rivers, its rainfall and its snowfall, must be made to serve and serve well," the governor was advised by the commission.

Experts have estimated that it will require between three quarters of a billion and a billion dollars to construct the necessary hydro-electric power plants to care for future power demands, and the commission said the expenditure to carry out a program for the conservation of water for irrigation and domestic purposes undoubtedly would be as great.

California's paramount need is cheap power, says the commission, because the state has no coal supply and its oil is needed for other purposes.

Utilities today, the report continues as a result of regulation are selling their product at a price nearer to the price of pre-war days than any other commodity, gas and electric rates having advanced on an average not more than 40 percent, against 100 to 500 percent advances on other commodities.

WASHINGTON APPLE GROWERS HOLDING FOR HIGHER PRICES

SEATTLE, Nov. 2.—(A. P.)—Washington apple growers are holding back apple shipments in anticipation of higher prices, according to Fred W. Graham, assistant agricultural development agent of the Great Northern railroad, who bases his statement, he said, upon the daily bulletin of the federal bureau of markets at Spokane. According to the bulletin, Mr. Graham said, apple prices in British markets show an upward tendency with London prices heading the list.

HIGH PRICES CARRY WEALTH TO ESKIMOS

VICTORIA, B. C., Nov. 2.—(A. P.)—High prices, penetrating to the Arctic rim of western Canada, have brought wealth and prosperity to Eskimos of the Mackenzie river delta, who have sold their recent fur catches for record figures, according to Arthur Thompson, an American prospector who recently arrived at Edmonton, Canada, from the far north.

Mackenzie River Eskimo, Thompson said, own a number of schooners which they operate on the northern rivers and between the islands of the Arctic seas during the summer months when the ice clears from the waters. Thompson prospected as far east as the Coronation Gulf, home of the "blonde" Eskimo, reported discovered by Vilhjalmur Stefansson, Canadian explorer. Thompson said he found the eyes of the Coronation Gulf natives were lighter in color than those of the natives of the country to the west.

Many of the Coronation Gulf tribes still use bows and arrows in hunting, Thompson asserted. Firearms are, however, gradually making their appearance.
