MINERS MAKING MONEY IN MERRY OL' ENGLAND

LONDON, Nov. 2.—(U. P.)—While Peers landed proprietors are selling their property, the miners are earning so much that they can afford to demand the best of everything, even at present-day prices.

"The miners," said a merchant, "don't care how much they pay for the best, as long as they get it. The men make no secret of their wealth. They take handfuls of notes from their pockets just as the professional man produces coppers."

Some colliers can show pay-sheets showing, after all deductions, that they have earned over \$65 a week.

BONE DRY LAW HOLDS NOTHING IN COLUMBUS

COLUMBUS, Nov. 3.—(U. P.)—Despite the fact that Columbus is supposed to be "bone dry," intoxicating beverages seem to be flowing freely in the city, if the number of drunk cases disposed of in police court during September can be taken as an indication.

This fact is partly to blame, police say, for a general increase of about 30 per cent in crime in Columbus. Statistics show that during the year the increase in crime has mounted steadily. According to the report compiled by Harold C. Gackebach, chief clerk of the criminal division of municipal court, 569 cases of all character were disposed of during the month, 295 of which were for drunkenness.

This represents an increase of about 400 per cent over the same month in 1919 when there were only 59 drunkards arrested. In 1918, with the saloons widely open, 211 cases were tried.

The report also shows that gambling is on the increase.

Although the country seems to be enjoying the greatest prosperity in its history, police court records show that agrancy is on the increase.

In September last year there were only 25 arrested for vagrancy, against 53 this year, or an increase of more than 100 per cent.

COUNTRY SCHOOL MA'AM IS LYRIC CHORUS LADY

PORTLAND, Ore., Nov. 3.—(U. P.)—Miss Aileen Joyce, who was graduated from Bethany college, Topeka, Kansas, a year ago, is the new girl in the Lyric theatre chorus here—the fourth from the left.

Miss Joyce tried teaching school for a year, but she had to walk a mile to her school in a rural district off Kansas, found the work hard and the salary meager.

Besides, she didn't have any "fun," while teaching young American readers, 'ritin', and 'rithmetic. So, while visiting relatives here this summer, she found the opportunity of getting into the chorus at the local theatre—and took it. And she's glad she did.

"Teaching school, especially in the country, is a poor life and a hard one," said Miss Joyce. "The stage is hard work, but it offers one a chance of advancement, and a better living. It gives a girl a bit of amusement and a touch of adventure. There's a certain lure about the footlights that the class room will never possess."

"I suppose all the girls in the sorority house where I lived while at Bethany would be shocked if they knew I was out here in the west, dancing before a crowd of perfect strangers in a chorus girl's costume. But, anyway, it's a better life than teaching."

CLEVELAND WILL WHOOP IT UP NEXT BIRTHDAY

CLEVELAND, O., Nov. 2.—(U. P.)—Cleveland is airing the mothball fumes out of the municipal tinsel flags pennants and banners and scrubbing up in preparation for the celebration of its 125th anniversary. Mary W. S. Fitzgerald ordered an early start for the event and selected a committee of 50 representative citizens to supervise the work. The 125th birthday fall on July 22, 1921.

It is hoped to dedicate on that day the great auditorium, now under construction. The auditorium will be the largest in the country, the architects said. It will have seating room for 15,000 people. The cost will be \$4,000,000.

The architects said it will seat three times as many persons as the New York Hippodrome and be much larger than Madison Square Garden. An immense stage is included in the plans. Part of it will be constructed on an elevator so that it may be raised or lowered in connection with the use of a swimming tank and ice skating rink. The basement will be large enough to accommodate a three-ring circus. Conventions requiring up to 100,000 square feet of space can be accommodated, the builders say. An organ to cost \$100,000 has been contracted for.

Plans for the celebration call for one week of parades, pageants, dances, banquets, band concerts and other activities. Fitzgerald promised the committee "all the money it will require" to stage the event. The cost will probably be around \$100,000.

FLIGHT OF GOLD TRAIN (Continued from page 1.)

1916 for transfer to the Ottawa, Canada, mint. A big Japanese warship with Novitsky in charge of the bullion, carried the money across the Pacific.

The treasure ship never touched a Canadian port, however, for far out at sea, the Rainbow, in a near gale, met the warship and the precious freight was transferred between the heave of the rollers. The warship turned back and the little cruiser steamed into Vancouver, arriving at the Canadian Pacific dock at three o'clock on a dark and wet morning.

Awaiting her were officials of the Dominion Express Company who had come out from Montreal in their private car. A picked crew put the money on a special train of five express cars, which had been switched into the Canadian Pacific dock. Each car was loaded with \$9,999,999 in gold.

Phone Connects Whole Train.
Every door was guarded and barred and the transcontinental trip started. A telephone system connected the whole train and whenever a sentinel wished to move from one car to another he did so on release from the official car. The doors were never opened when the train was at a
