A woman's fondest hope is to stay young. She often resorts to paints, powders and cosmetics to hide her years. Some women pay large sums to so-called "Beauty Doctors" in the belief that money will buy youth. Others wear girlish dresses, thinking they can fool the world about their age. But no one is deceived. The more you try to hide your age, the more it shows.

There is but one thing that holds old age back, and that is health. Sickness and weakness bring old age early in life. Dr. Pierce's Favorite Prescription is a building-up medicine for women. It makes them healthy and strong when they suffer from women's troubles. It keeps them looking young by keeping them well. It is a woman's tonic for the frail, the delicate and those who are nervous, dizzy and who have backache and dragging pains. Favorite Prescription is altogether vegetable and without a particle of alcohol. It is safe to take. Try it now. In tablet or liquid form at all druggists, or send 10c for trial package of the tablets to Dr. Pierce's Lavalin Hotel in Buffalo, N. Y.
