POPE BENEDICT HAS ARTISTS AT VATICAN

ROME, Nov. 10.—(A. P.)—Although the popes of today cannot afford to spend enormous sums on artists, sculptors and decorators as did the pontiffs of the renaissance, Benedict XV is a patron of the arts, and has allowed two artists to have studios and work on the grounds of the Vatican. They are Quadroni, the sculptor, who at the Pope's expense is modelling a more than life-size statue of the Cardinal Rampolla for his monument in the Church of Santa Cecilia and the artist Antonelli who is painting a huge picture of the promulgation of the codex of canon law.

The picture of Benedict XV, seated on a throne, receiving from his co-sponsor, Cardinal Gasparri, the volumes containing the newly codified canon law, represents 52 figures, all portraits of the ecclesiastic and lay court of the pontiff. There are to be seen 10 cardinals, the Pope's Master of the Chamber, Monsignor de Samperi, the Grand Marshal, who have charge of great Vatican ceremonies and wear the picturesque renaissance dress of ruff and doublet; the commanders of the Noble Guard, the Swiss Guard, and many others, so the picture will have considerable historic interest in the future.

Round the enormous frame there are portraits of past popes who have specially interested themselves in the codification of the canon law, Pius X, Boniface VIII, Innocent III, Alexander II, Gregory IX and Benedict XIV.

The block of Carrara marble for the over Quadroni's statue of Cardinal Rampolla weighs 15 tons, and the statue will be over six feet and nine inches high, with an angel in high relief behind it. The monument will eventually be placed in the Basilica of Santa Cecilia in Trastevere, which was Cardinal Rampolla's titular church, the lower part of which he restored gorgeously in 1901.

Benedict XV frequently visits the studios of both these artists, advising with them as to the work which they are carrying out for him.

BERMUDA CELEBRATES 300TH ASSEMBLY YEAR

HAMILTON, Bermuda, Nov. 10.—(A. P.)—Bermuda recently celebrated the 300th anniversary of the founding of its House of Assembly one of the oldest legislative bodies in existence and coming next in age to the British parliament. Bermuda shares with Virginia the honor of the earliest of representative institutions on this side of the Atlantic. Its history is closely linked with that of the Old Dominion. The first general assembly for Virginia was held at Jamestown, July 30, 1619, while the first general assembly for Bermuda was convened at St. George's, the ancient capital of this colony, on August 1, 1620. Virginia was settled in 1607 while Bermuda was settled in 1612, though the latter reached the stage of self government more quickly than their Virginian fellow colonists.

When Sir George Somers was wrecked on this island in 1609, he and his company of adventurers were bound for Virginia to settle. But after their unexpected landing in Bermuda they decided to stay on here and later secured letters patent from the crown which included the Bermudas in the limits of the Virginia Company.

The distinction of being the oldest self-governing British possession is proudly borne by Bermuda and its tercentenary is one of the notable celebrations in connection with the English settlement of America recently held at Plymouth and Southampton, England.

The ceremonies included meetings in old St. Peter's Church at St. George's where the first legislature met 300 years ago, in the former state house in that town. They are now concluded with the visit of the Prince of Wales.

SWEDEN IS SUFFERING ACUTE MONEY SHORTAGE

STOCKHOLM, Nov. 10.—(A. P.)—Sweden is suffering from a scarcity of money and an abnormal economic situation. This is reflected in the report of the State bank for September. The money shortage depresses the stock exchange where prices of bonds and shares have touched a very low level, even old established industrial enterprises which pay dividends of 10 to 15 per cent being quoted below par.

Causes to which Sweden's unsettled condition is attributed here include the socialist program, emanating from the present government, such as the investigation whether socialization of industry and commerce lies within the borders of possibly, heavy taxation, an increasing demand for higher wages and the labor unrest. Adding to this, the growing debt to foreign countries through unnecessary imports, and decreased production ascribed by many to the eight-hour day, one obtains a picture of the present economic position of Sweden.

VIENNA HAS 23,000 HOMELESS FAMILIES

VIENNA, Nov. 10.—(A. P.)—A survey of housing just completed shows that 23,000 families comprising about 70,000 persons are virtually homeless in Vienna, so great is the shortage of living premises in spite of the requisitioning process that has been going on for a year. These people are herded into passage ways, where often 15 to 20 persons sleep in places used for other purposes in the daytime, or in the pleasant weather they sleep in parks. It is now proposed to permit them to erect shacks on available land throughout the city.

CONTINUOUS BRAKE DECLARED ESSENTIAL

PARIS, Nov. 10.—(A. P.)—Need for hastening adoption of the "continuous brake" on freight cars says, M. LeTroquer, Minister of Public Works, is made apparent by the wrecking of an express train, recently, outside of Paris. Nearly 50 persons were killed and scores injured. Such brakes are provided for in the economic section of the peace treaties, he said, but their adoption depends upon agreement among European countries.

The "continuous brake" is designed to operate automatically upon cars that may break loose from a train. The recent accident was caused by several loose cars becoming derailed when they rolled down grade to the forward part of the freight train, waiting for them. The loose cars fell across the track of the express that arrived half a minute later.

ONE YEAR OF WORLD OUTSIDE IS ENOUGH FOR ESKIMO VISITOR

SEATTLE, Wash., Nov. 10.—(A. P.)—One year of the world "outside," with its automobiles, street cars, motion pictures and modern schools, was enough for Donald Nuyak, an Eskimo boy, who passed through here recently on his way to his old home on Kinross Island, a dot of land in Dearing Straits. Nuyak said he was going back home to raise reindeer. He spent the past year at the Chemawa Indian School in Oregon learning shoe-making, tailoring, horse-shoeing and harness making. Attractions of the outside world did not appeal to him, he said, and he intended to spend his life with his father's reindeer herd.
