Whereabout of Wrangel and His Fleet is Unknown and Sebastopol is Port of Fast and Frenzied Embarkation.

In the Deshanskoiok region an armored train was captured with a number of machine guns and cannons. U. S. Destroyers Aid Refugees

LONDON, Nov. 16.—(U. P.)—Three American destroyers have arrived at Constantinople with Sebastopol refugees according to an Athens telegraph dispatch today. They brought many wounded men, women and children.

The refugees reported that military evacuation of Sebastopol was completed before the red troops arrived.

Dispatches said the whereabouts of General Wrangel and his fleet of four transports is unknown. General Wrangel left the port with three transports filled with troops and another filled with wounded men.

City in Prey

CONSTANTINOPLE, Nov. 16.—(U. P.)—Evacuation of Sebastopol by its civilian population was marked by complete demoralization. Quays are piled high today with personal belongings which have been discarded when the refugees boarded ships. Only one third of those desiring transportation could be admitted away. Other Crimean ports already in the hands of the bolsheviks suffered like congestion.

In Constantinople, many rescue ships rode at anchor today unable to land their refugees due to lack of accommodations in the city. The last of those boarded ships. The French foreign office today reported. The bolsheviks have counted 40,000 prisoners and the total captured is probably far greater, the dispatches said.

Count 40,000 Captives.

PARIS, Nov. 16.—(U. P.)—The soviet army is in complete possession of the Crimean peninsula, the French foreign office today reported. The bolsheviks have counted 40,000 prisoners and the total captured is probably far greater, the dispatches said.

Wheat—Sentiment was quiet bullish early in the day and resultant increase in buying power found offerings inadequate. The advance had the appearance of being entirely a reflection of pit conditions, practically all markets reported an improvement in domestic milling demand, but this should not be given too much consideration when it is recalled that during the past several weeks there had been a sharp

FUND EXHAUSTED AND ROADWORK IS CHECKED

County road work which is carried on by funds from the general fund, was stopped yesterday because of the exhaustion of money available for this work. Only the graveling of the Riverside road and the road from Milton up the Little Walla Walla River will be completed.

Road work for which the county's bond issue was made, will be continued as before, County Judge C. H. Marsh stated today. This takes in most of the major projects, such as the Havana-Helix road, the Old Oregon Trail, Pilot Rock-Pendleton road and others built by the state and county or by county funds from the bond issue. The work which has been stopped is chiefly on unimportant county feeder roads.

Because of the change of personnel of the county court January 1, the retiring members decided not to issue script and go beyond the budget for repairs to roads for the remaining six weeks of this year. Only work which is urgently needed to put a road in shape for use will be done.

The curtailment of the county's road work for the remainder of the year placed a few engineers and laborers out of employment. Several of those affected have obtained positions with the Warren Construction Co., and will work in this way while paying operations are carried on this winter.

County road work probably will not be resumed until money from the spring tax collections are received next year, it was estimated by the commissioners today.

LIVESTOCK SLIDES TO OLD LOW MARK OF 1916

KANSAS CITY, Nov. 16.—(U. P.)—The lowest prices since December 1916 were paid for livestock here today. Livestock exchange men said that on the basis of prices now being paid for livestock, meat at retail should be 20 per cent lower.

Tight money is blamed by livestock authorities for the lack of demand for stockers and feeders. Exchange officials estimated that buying of feeders dropped to 40 per cent of normal.

Twenty four thousand cattle holdovers from yesterday are in the yards here today.

Chicago Market Hit.

CHICAGO, Nov. 16.—(U. P.)—The local livestock market near the close was in a demoralized condition today, with sellers unloading at almost any price offered. Good cattle sold at a dollar less than yesterday's close and from \$2.50 to \$3 cheaper than two weeks ago.

Portland Market Weak.

PORTLAND, Nov. 16.—(A. P.)—Cattle are weak today, hogs and sheep are steady and eggs and butter are firm.

SUGAR TAKES NEW DROP.

PORTLAND, Nov. 16.—(A. P.)—Sugar dropped another 50 cents a hundred today. The best grade is now \$11.

WESTERN UNION AND GOVERNMENT CLASH

WASHINGTON, Nov. 16.—(A. P.)—A long standing controversy between the state department and the Western Union Telegraph Company today reached the stage of an open break, the company refusing to handle any further cable messages for the state department except upon prepayment of tolls.

The company stated the action was the result of delayed payments on messages. Department officials asserted it was a retaliation for failure of the department to permit landing a cable at Miami, Florida, connecting with the British cable from South America.

FEAR FOR MONROE DOCTRINE IS QUIETED

GENEVA, Nov. 16.—(A. P.)—Danger that the assembly of the League of Nations may encroach upon the Monroe doctrine by considering American questions in the absence of the United States was averted today by withdrawal of a request by Bolivia and Peru for revision of their treaties with Chile. It is not expected that any other American questions with dangerous possibilities will come before the present session of the assembly.

ACTRESSES KIDNAPED, THEN DRUGGED IS BELIEF

CHICAGO, Nov. 16.—(U. P.)—That Mary Rhodes and Lillian Thompson, young actresses found dead in Grant Park here yesterday were kidnaped, drugged or poisoned and then taken to the lake front and thrown from an automobile, is the theory of police today. In an investigation of the mysterious deaths, sufficient alcohol was found in the stomachs of the actresses to have caused their deaths, the coroner's physician announced. "Traces of no other poison were found."

Immediately after the physician announced the results of his examination the police renewed their efforts to trace the movements of the two women after they left their cheap theatrical hotel, where they were living with two men, until they met their deaths. The authorities believe that the girls may have been kidnaped while returning of their rooms after having a couple of drinks of fermented grape juice at a nearby wine merchant's shop. The finding of Miss Rhodes' hat in the street near the hotel is the main evidence on which the kidnapping theory is based. Police believe the women were given alcohol by their captors.

HARDING, WITH OUTING ENDED, HAS VISITORS

BROWNSVILLE, Tex., Nov. 16.—(A. P.)—Forecast by bad weather to abandon his vacation at Point Isabel, President-elect Harding today interviewed Governor Hobby of Texas and Senator Fall of New Mexico.

NEW ELECTRICAL DEVICE HELD MENACE TO SHIPS

NEW YORK, Nov. 16.—(U. P.)—William Morton, former investigating agent for the United States shipping board today testified before the Walsh congressional committee that ships were equipped with a new electrical steering apparatus which resulted in their being declared menaces to navigation.

Vessels were constructed of unseasoned wood and many without sufficient framework, lost their shape through warping.

Inspectors intimidated. Shipping board inspectors who refused to pass poor work on repair jobs were intimidated by agents of the repair companies or expelled by the officials over them.

Ships were sold to private concerns which made enough through their operation to cover the purchase price before their initial payment was made. Lloyd's agency inspected and passed unworthy ships built for the shipping board in private yards at Seattle.

Says Investigations Stopped.

Morton said after being with the shipping board for two years, he resigned and obtained employment with a New York shipping concern because so many of his investigations were stopped as he was in the midst of them. He told of the sales of five ships to the National Oil Company through C. O. Yeakum, in charge of the Pacific coast division of supply and sales. The average price for the hulls was \$50,000 and machinery \$45,000. He said the machinery alone cost \$200,000 in each vessel.

Although it was the custom to require an immediate payment of at least two and a half per cent of the purchase price, no initial payment was made under this contract for six months. During that time, he testified, the company made enough through some of the ships to pay their entire cost.
