What Your Kidneys Should Do For You

The kidneys are really filters, finely organized for their work of cleansing and purifying the blood, selecting and throwing out waste products which would act as poisons if permitted to remain in the system. When your kidneys are out of order, the impurities are not removed and remain to poison the system, causing backache, swollen or stiff joints, rheumatic pains, puffiness under the eyes, floating specks, biliousness, weakness and pale, waxy, dry skin.

WAS MISERABLE AND ALL THIED OUT
"I suffered with kidney trouble and have taken many kinds of medicine without getting relief. I used to have severe pains across my back and left shoulder and all tired out, but after taking Foley Kidney Pills I am well. In fact I have not been bothered with kidney trouble since taking the pills."—Mrs. C. J. Ellis, 505 5th Ave., Sioux Falls, S. D.

FOLEY KIDNEY PILLS
are made from the purest and finest medicines, accepted as the most helpful for kidney trouble and bladder ailments. They cost far more to make than the average kidney pills, for the high standard of their making is never deviated from, no matter how the cost of ingredients advance.
