Plans for meeting the situation said to have been created in the state by the sudden drop in the wheat market, are to be considered at a conference of farmers, bankers and others interested to be held at Spokane next Tuesday, it was announced here today by A. A. Elmore, president of the farmer's union.

According to Mr. Elmore, wheat was produced this year at the highest cost ever known and the market has dropped to prices below cost of production.

Remedial plans which will be suggested at the conference are:

Creation of a government commission to meet all allied governmental purchasing commissions employed by wheat importing countries.

Application of the Lever food control act by the president and establishment of a price on wheat with a tariff sufficiently high to protect the home grower.

Establishment of a moratorium on notes of sixty to 90 days to allow crops to move under readjusted market conditions, to improve credit conditions.

Members of congress from Washington, Oregon and Idaho have been invited to attend the conference Tuesday, it was stated.

### VANDERLIP BUYS TOWN TO REFORM IT!

NEW YORK—To rid the town of undesirable residents, Frank Vanderlip, former president of the National City Bank of New York, has purchased the entire village of Sparta, N. Y. Sparta, a town of 200 inhabitants, adjoins the fashionable colony of Scarborough-on-Hudson, where Vanderlip lives. Much complaint had come from the wealthy residents of Scarborough about Sparta. So Vanderlip solved the problem by buying the entire village. He says he'll gradually weed out the undesirable, build modern tenements and "get some nice people" to settle there. The picture shows some of the ramshackle dwellings of Sparta. Inset, Vanderlip.
