M. C. Metz, member of the firm of Metz & Sons, breeders of high grade horses, left last night for Chicago. Mr. Metz just returned from Portland where he attended the Pacific International Livestock show. He will be in Chicago to attend the International Livestock Exposition, November 27 to December 4. Mrs. Metz is in Chicago and she and Mr. Metz will spend the winter there.

Thomas Thompson returned yesterday after seeing the International Livestock Exposition in Portland.

The Red Cross Roll Call is meeting with ready response in Hermiston. Says Thomas Campbell, who was a Pendleton visitor yesterday from the west end city. He reports that the drive opened officially yesterday. Mr. Campbell is a pioneer merchant of Hermiston having founded a store there 11 years ago.

The private cars of W. Bollons and P. N. Finch, second division superintendent and assistant general manager, respectively, of the O. W. R. & N. were attached to delayed No. 6 this morning to be taken to La Grande. The officials spent yesterday here conferring with regard to protection for vehicles and pedestrians on Pendleton grade crossings.

R. E. Chloupek, manager of the Golden West Creamery, escaped a long wait behind slides on the O. W. R. & N. between here and Portland this morning by coming home last night on No. 4. He has been in Portland attending a national convention of ice cream makers and also looking up dairy cattle and methods at the Pacific International Livestock Exposition.

S. R. Thompson arrived home last evening after battling with mud most of the way from Hood River to Pendleton. He made the trip over the Columbia River highway and found that the farther east he came, the heavier was the rain. Mr. Thompson attended the Oregon-Washington football game at Eugene last week, in company with Mrs. Thompson and Miss Thelma Thompson, who is a senior this year at the University of Washington. This week they visited the stock show in Portland. Mr. Thompson being interested in livestock as well as in wheat.

## AMERICANS EVACUATING TROUBLED COAL AREAS

EAGLE PASS, Nov. 19.—(U. P.)—Americans are today evacuating the coal regions of Coahuila, Mexico, fearing trouble between the miners and government because of the workers' expected refusal to surrender the mines seized by them, according to Americans arriving here. The government issued an ultimatum to the strikers that if they have not reached an agreement with the operators or given them the mines by Monday, it will take over the mines. It is believed the workers will attempt to hold the mines, so a clash with government troops is feared.

**A Mother's Recommendation.**  
Mrs. Kate Deets, Mayville, Mo., recommends Chamberlain's Cough Remedy as follows: "I gave Chamberlain's Cough Remedy to my children when they had croup and whooping cough and I and my husband have both taken it for colds and coughs and it has never failed to give the desired relief. I cannot praise this medicine too highly. This remedy contains no opiate and may be given to a child as a confidently as to an adult."

**Beware of a Persistent Cold.**  
When a cold hangs on week after week or when you contract a fresh cold before you are over the first one, there is great danger of some germ disease getting a start in your system. The average consumptive will tell you that "I had a hard cold last winter that was followed by a bad cough that I have not been able to get rid of," or something to that effect. Why take the chances of such a result when Chamberlain's Cough Remedy, famous for its cures of bad colds may be had for a trifle.

**For an Impaired Appetite.**  
Loss of appetite always results from faulty digestion. As a general rule, all that is needed is a few doses of Chamberlain's Tablets. They will strengthen the stomach, improve the digestion and give you a good appetite. They also cause a gentle movement of the bowels.

**Dependancy.**  
When you feel blue and that everything goes wrong, take a dose of Chamberlain's Tablets. They will cleanse and invigorate your stomach, regulate your liver and bowels and make you feel that this old world is a good place to live in.

## DEPRECIATED GOLD COIN HURTS BAKER BUSINESS

BAKER, Nov. 19.—On account of the depreciation in the value of the gold dollar, high wages and H. C. L. generally, a hardship has been worked on the gold mining industry in Baker and Grant counties which may result in the cessation of mine operation. Unless normal conditions return soon the output of gold from these districts will be less in 1920-21 than ever in their history.

As a matter of fact, mine companies have suspended operation until such time as they can see their way clear to make some profit on their investment or at least break even.

This condition is a serious hindrance to prosperity in these parts since a lack of the usual large payroll materially cuts down the volume of the local business. It means many idle miners and a stagnation in what has been one of the leading industries in Baker county, which last year contributed to the country over \$1,500,000 in gold, or 30 per cent of the entire product of the state of Oregon.

In spite of this depression, however, prominent mining engineers from different parts of the east and west are arriving in Baker frequently to look over the field with a view of getting in on the ground floor preparatory to a return of normalcy which surely will come before many months.

**NEBEKER IS APPOINTED.**  
WASHINGTON, Nov. 19.—(A. P.)—President Wilson today made a recess appointment of Frank Nebeker, of Utah, as assistant attorney general.
