COMMUNITY DINNER ON THURSDAY IS PLANNED

(East Oregonian Special)
BOARDMAN, Nov. 22.—The Ladies Aid Society will hold a Bazaar and Food Sale at the church, Friday evening, December 10. Every lady on the project is being asked to contribute some article of food or fancy work.
The next important event on the calendar is the community dinner on Thanksgiving Day at the school house. All who can will bring a picnic basket or some item of food. Bachelors and unattached gentlemen will contribute 25 cents or 50 cents to meet the expense of the occasion. There will be a good program. It has been suggested that the nimrods of the community get out their trusty guns and capture a wagon load of ducks. The ladies volunteer to cook them.
Going to the bazaar, the next regular meeting of the Farm Bureau will be held on Friday night Dec. 17. There will be a program, refreshments, and election of officers.
The Grange holds its election of officers Saturday, December 11. There will be a picnic dinner at the usual time.
Road election is called for Nov. 27 at the school house. The purpose is to vote five mills special tax.
Most of the parts have been assigned for the community play. A few more books have been sent for. Rehearsals will begin shortly after Thanksgiving.
A school bank has been organized in the endeavor to develop habits of thrift among the pupils. Deposits from one cent up may be made. When 25 cents has been deposited a thrift stamp may be had if desired. If preferred, when \$1 has been deposited an account may be opened with a real bank. Money may be put in or taken out at any time.

PASTOR FROM ATHENA ATTENDS CONVENTION

(East Oregonian Special)

The Flavor Lasts So Does the Price!

YONCALLA, Or., Nov. 22.—"We intend to study conditions, and do all in our power to give the city of Yoncalla a good, efficient government," declared Mrs. Mary Burt, mayor-elect. "At the worst," smilingly added Mrs. Burt, "we can't do any worse than the men have done."
By "We" the next mayor of Yoncalla meant the women, for a woman was elected to every city office at the recent election. The present city officials thought they were going to be elected without any opposition, but they awoke election night, after the ballots were counted, to sadly realize the women had secretly put over an entire slate—that is, secretly as far as the men of the town were concerned.
Mrs. Burt, mayor-elect, has been a resident of Yoncalla 40 years. She is a native Oregonian, a republican and was graduated from Pacific university in 1873.
One of the four women elected as members of the city council is the wife of Jesse R. Lasswell, the present mayor, whom Mrs. Burt defeated at the polls. He has pledged the help of the out-going administration to the new officials.

THE FORDSON TRACTOR

Tractor farming has come to stay. The knowledge that the tractor is the speediest, most practical and economical power is common to nearly every one in the farming community.
The general trend now is from the big tractor to the smaller and more economical. Ranchers everywhere are getting away from the big over haul jobs, the expensive parts and high priced operators.
The Fordson is the logical tractor. The tractor that fills the requirements of the smaller economical type.
It does not matter if you already own a caterpillar, you can use a Fordson to good advantage. Place it alongside of any six to eight mule team. Keep track of the actual time that each are in the field working during the day. You will find the Fordson will get in an hour more actual work than the mules. You will also see that the Fordson is traveling twice as fast as the mules and that you are using an average of less than two gallons of COAL OIL to the acre.
The Fordson is no experiment. Over one-third of all the tractors in use in the United States are Fordsons.

Come in or call us up and we will be glad to demonstrate. Watch it do the work that you have to do every year. Watch the ease, economy and speed with which it does it. If you have any work to do this fall let us help you get it done and in doing this you will have the opportunity to see the Fordson in action. We know you will appreciate the saving in initial cost, in operation and upkeep; if you don't you owe us nothing.
