The Oregon-O. A. C. game Saturday was a great spectacle, says Fred Benton, who was one of the 13,000 people who saw the football classic. Mr. Benton says that the men on the side played with great precision and that the contest was more like a game of chess than a game of football because of the precision and strategy shown. Mr. Benton returned last night after seeing the game and attending the Pacific International Livestock exposition.

Major Les Moorhouse, maker of mulligans, has in his culinary investigations discovered an entirely new way of cooking lima or butter beans. The major has long sought the most satisfactory way of cooking the succulent vegetable and in his opinion the new way is best. He pours boiling water on the beans and then lets them stand over night in cold water. In the morning it is a simple matter to remove the hulls and the beans can then be cooked in half an hour.

It did the hearts of O. A. C. grade good to see their old honor on the gridiron upheld on Saturday in the game against the University of Oregon. The Aggies came mighty close to putting over the score that would have beat their rivals and had the rooting of Mr. and Mrs. Archie McIntyre of Helix been all that was necessary, the ball would have roared on the far side of the chalk line instead of a foot short as it did. Mr. and Mrs. McIntyre, both graduates of the Corvallis institution, returned from Portland this morning after having witnessed the game at Corvallis on Saturday and spent Sunday in Portland.

A LETTER FOR WOMEN

From a Woman Whose Serious Illness Was Overcome by Lydia E. Pinkham's Vegetable Compound.

Garnett, Kas.—"I first took Lydia E. Pinkham's Vegetable Compound for a complete nervous breakdown following the birth of my oldest child. I got up too soon which caused serious female trouble. I was so weak that I was not able to be on my feet but very little and could not do my housework at all. I had a bad pain in my left side and it would pain terribly if I stepped off a curb-stone. One day one of your booklets was thrown in the yard and I read every word in it. There were so many who had been helped by your medicine that I wanted to try it and my husband went to town and got me a bottle. It seemed as though I felt relief after the second dose, so I kept on until I had taken five bottles and by that time I was as well as I could wish. About a year later I gave birth to a ten pound boy, and have had two more children since and my health has been fine. If I ever have trouble of any kind I am going to take your medicine for I give it all the praise for my good health. I always recommend your medicine whenever I can."—Mrs. Eva E. Shay, Garnett, Kansas.
