Telephone 3

A DREAM
(By Frank L. Stanton.)
As far away as dark from day,
And solemn seas that sever;
And still to love a dream, my dear,
"Forever and forever!"

And song must die, and be a sigh,
And thrill Love's dear heart never
Across the desert of the years;
"Forever and forever!"

BLESSINGS IN DISGUISE

THAT it is an ill wind that blows no good is likely to be proven in connection with the low price of hay in the west end of Umatilla county. If through inability to get a remunerative price for alfalfa the farmers of that region are induced to go more strongly into dairying they may see the day they will bless the fates they now decried. There is a limited demand for hay and this demand is often seriously affected by weather conditions. But the demand for dairy products is great and always will be so long as there are human mouths to feed. Furthermore the number of districts well adapted to dairying are not numerous. There are regions not nearly as favored by nature as the Hermiston country where dairying has produced wonderful prosperity. One of these is the Coquille valley in Oregon. The average Eastern Oregon farmer would sniff at a Coquille ranch but nevertheless the men who farm those places derive good incomes and ride in good automobiles.

The East Oregonian is too busy watching the high price of news print to pose as an agricultural expert but it has much faith in those who advise west end people to the effect that if the world does not want their alfalfa in bales to sell it in smaller packages of butter, butter fat or cheese.

ASIA ONCE HELD MASTERY

THE action of the league assembly at Geneva in voting for favorable steps in behalf of Armenia offers a ray of hope for those who fear that in the reaction from war the world has become more selfish and sordid than ever. But relief of Armenia would be more than a humanitarian move. It would be constructive statesmanship.

Armenia is a swamp where war germs breed. To clean up that swamp will help protect against another plague such as cost over ten million lives between 1914 and 1918. We treat disease by attacking the cause of disease. We should stop warfare by correcting conditions that lead to war. That is practical idealism.

The belief was expressed at Geneva yesterday that in the task of rescuing Armenia America will do her part. God knows we should and so should all other civilized powers.

The white nations of the earth in particular have need for concert of action that will stop warfare among themselves. The white race is inferior to other races in numbers and in territory. It has the supremacy but it has not always had it. Asia once held mastery and until Marathon her armies were deemed invincible.

History moves quickly these days and wise men say that another war such as we have had will make the white man's burden too heavy for him to bear. It would mean chaos and possibly oriental supremacy.

America does have a part to play in preserving peace and should not be derelict. Our task will be slight and easily met. But if we neglect the chance and hold too far aloof we may later face a far heavier task from which there will be no escape.

The laws against driving an auto while intoxicated and the law providing for revocation of a driver's license were enacted for the safety of the public. They should be enforced and such enforcement will protect the reckless driver as well as his possible victims. It is an easy step from reckless driving to manslaughter.

Under its new management the Baker Herald has become a seven column paper and shows other improvements. Keep it up, gentlemen; there is much fun in publishing a live newspaper and such work is usually appreciated by the community.

In his "consultation with best minds," President-elect Harding shows a marked preference for minds that follow the irreconcilable trend. But perhaps that is what the people want and if so they should get it.

The murders and reprisals in Dublin illustrate the tragedy of the present Irish situation. Good men are dying by the score and it is hard to see how either the Irish or the British are gaining anything.

That new road down the river will make a wonderful skating place available when the Furnish reservoir freezes over.

The increase in rates asked for by the telephone company is too sweeping and should not be allowed.

It would be easier for wheat to make vardage if it were not for that monumental corn crop.

As usual Thanksgiving turkeys are cheaper here than in Portland.

SEARCH ON FOR WOMAN CHARGED WITH SHOOTING

ARDMORE Oklahoma, Nov. 23.—(U. P.)—A search extending from Oklahoma to California today was instituted for Mrs. Clara Harmon, of Kingling, Okla., charged with shooting Jake Harmon, millionaire oil king and republican national committeeman. Mrs. Harmon is a relative of the committeeman.

Charges of intent to kill Harmon have been filed against the pretty woman, also an information charging the couple with a statutory offense. She is said to be fleeing to California. First reports were that Harmon had shot himself accidentally while cleaning his gun, preparatory to taking a hunting trip. Harmon, upon learning of the charges against the woman, still insisted he shot himself. She has been the millionaire stenographer intermittently since 1914.

THREE OF FAMILY ARE KILLED IN CAR CRASH

YAN METER, Iowa, Nov. 23.—Peter Linneman, aged 56, his son Elmer, aged 36, and daughter Esther, aged 5, were instantly killed and his wife seriously injured today when an automobile in which they were riding was struck by a passenger train eastbound at a grade crossing here. Side curtains on the automobile are believed to have prevented Linneman, who was driving from being the applicant for a license. The Linnemans were on their way to a farm near here. They had been reported to be wealthy.

WILDER APPEAL FAILS BEFORE SUPREME COURT

SALEM, Nov. 23.—(A. P.)—The state supreme court today affirmed the conviction of the charge of murder in the second degree, of W. W. Wilder, sentenced from Umatilla county. He is serving a life sentence at the state penitentiary for the murder of Bert McNece on the former's ranch near Freewater on September 14, 1912. Argument on his appeal was heard at the October session of the supreme court at Pendleton.

SMALLPOX SERUM IS RUSHED TO HAITI

WASHINGTON, Nov. 23.—(A. P.)—Smallpox serum from the naval hospital has been rushed to Haiti, Secretary Daniels announced last night, because of the epidemic prevailing there. Rear Admiral Knapp cabled the department today that more than 300 cases has developed in Haiti with only one death, owing to the mildness of the disease.

PEACE BAND WRATHY AT ARMAMENT STAND

NEW YORK, Nov. 23.—(A. P.)—The women's peace society, "with members in many countries," today cabled Senator Henri La Fontaine of Belgium, member of the league of nations council, notice of his dissent from his statement before the council at Geneva last week that the time is not yet ripe for world disarmament. The society said it "urges immediate and universal disarmament as the only hope of the salvation of the human race."

"Women, the greatest sufferers from war, have not voice in the council," said the cablegram. "Against this manifest injustice, we earnestly protest."

HOG MARKET BREAKS WITH HEAVY RECEIPTS

CHICAGO, Nov. 23.—(U. P.)—The hog market in the country is practically demoralized today by a continued sharp decline in quotations. Heavy receipts were caused by the dumping of poorer grade hogs on the markets by growers and lack of purchasing by packers caused a continuing decline. The market here is off a dollar, and similar drops are recorded in other leading centers. The prices ranged around \$19.

CATTLE MARKET STEADY.
PORTLAND, Nov. 23.—(A. P.)—Cattle are steady today and hogs are lower at \$11.50 and \$12.25. Sheep weak. Eggs are lower, the buying price at 68 and 70 cents. Butter is steady.

ANARCHIST HEARS TWO HOUR TALK ON LOYALTY

NEW YORK, Nov. 23.—(A. P.)—Elias Marks pleaded guilty to a charge of criminal anarchy and was let off with a suspended sentence here today after Justice Weeks, in the criminal branch of the supreme court, had lectured him for two hours on Americanism.

Marks, who was caught in a raid on communist party headquarters here a year ago, recanted any opinions he might ever have held consistent with the communist party belief and renounced the party's doctrines.

He had been indicted on the ground that membership in the communist party implied advocacy of the overthrow of the government by unlawful means.

Eleven other cases, the last of the 19 indictments charging criminal anarchy returned more than a year ago, were taken up. The indictment against one defendant was dismissed.

THRILLED BY MOVIE MAN KISSES NEIGHBOR, BUT IT'S POLICEMAN

CHICAGO, Nov. 23.—(U. P.)—Herbert Martin, thrilled by a movie, kissed his next seat neighbor. The kisses happened to be a six foot cop. The judge gave Martin five days to cool off.

GOOD LUCK GOES WHEN HORSE SHOE FALLS OFF DOOR CUTTING GASH

CLEVELAND, Nov. 23.—(U. P.)—Robert Young lost his faith in horse-shoes. He hung one over the door for good luck. It fell and left a four-inch gash.

RAILROAD MAN GIVES GOOD ADVICE

"Several years ago I was under treatment of a stomach specialist for 5 months, 3 weeks of which were spent in a hospital. Another stomach specialist told me I had gall stones and that an operation was necessary. I did not want to have this. I lost 45 pounds in weight. Talking with a brakeman one day he told me of May's Wonderful Remedy and since taking it I have gained 16 pounds and am feeling fine. I am advising others to try it. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.—Druggists everywhere."

SPIRAL PUTTEES TAKE PLACE OF SILK HOSE ON HIGH SCHOOL GIRLS

WHEELING, W. Va., Nov. 23.—(U. P.)—Spiral puttees, just like brother used to wear in the A. E. F., displaced flimsy silk hose among high school girls here. Girls say that the puttees is both fashionable and utilitarian and that the fad is rapidly spreading among their older sisters. Spiral puttees, filched from brother's war trophies, were introduced several days ago when the thermometer dropped to new low point for the season. On the following day a large number of puttees made their appearance and now nearly every high school girl is wearing 'em.

TAX WILL RAISE

(Continued from page 1.)
this year were numerous, and included the following: Fruit inspector, \$200; court house, \$4000; care of poor, \$5000; insane, \$150; widow's pensions, \$4800; sealer of weights and measures, \$475; school libraries, \$800; scalp bounty, \$1300; county schools, \$75,000; county roads and bridges, \$120,000; interest on road bonds \$40,425.

GREAT BRITAIN WARNS GREECE ON TERRITORY

PARIS, Nov. 23.—(A. P.)—Great Britain has already taken steps to warn Greece that she will lose the territorial advantages given in the treaty between the allies and Turkey if former King Constantine is returned to the throne, says the Petit Parisien today.

MAN, WOUNDED IN FIGHT IN OREGON CITY, IS DEAD

OREGON CITY, Nov. 23.—(A. P.)—Alex Deford, shot Sunday night by D. C. Frost, former constable, while running away from officers after being accused of boisterous conduct, died from his wounds today at the hospital here. Frost, under \$500 bonds pending action of the grand jury, reiterated that he shot on orders of Night Patrolman Sarrus. He said Deford struck him in the stomach and refused to stop when ordered.

QUALITY SERVICE

The Sweetness of Grape-Nuts

is a natural sweetness developed from wheat and malted barley by processing and long baking. You need add no sugar.

The rich flavor appeals and the food is both economical and convenient.

Try Grape-Nuts for breakfast. It builds health and strength.

"There's a Reason"

AT GROCERS EVERYWHERE!

Made by Postum Cereal Company, Inc. Battle Creek, Michigan.

THE FORDSON TRACTOR

Tractor farming has come to stay. The knowledge that the tractor is the speediest, most practical and economical power is common to nearly every one in the farming community.

The general trend now is from the big tractor to the smaller, and more economical, handers everywhere are getting away from the big over haul jobs, the expensive parts and high priced operators.

The Fordson is the logical tractor. The tractor that fills the requirements of the smaller, economical type.

It does not matter if you already own a caterpillar, you can use a Fordson to good advantage. Place it along side of any six to eight mule team. Keep track of the actual time that each are in the field working during the day. You will find the Fordson will get in an hour more actual work than the mules. You will also see that the Fordson is traveling twice as fast as the mules and that you are using an average of less than two gallons of COAL OIL to the acre. The Fordson is no experiment. Over one-third of all the tractors in use in the United States are Fordsons.

Come in or call us up and we will be glad to demonstrate. Watch it do the work that you have to do every year. Watch the ease, economy and speed with which it does it. If you have any work to do this fall let us help you get it done and in doing this you will have the opportunity to see the Fordson in action. We know you will appreciate the saving in initial cost, in operation and upkeep. If you don't you owe us nothing.
