### 50 Years Ago

a young man who practiced medicine in a rural district became famous and was called in consultation in many towns and cities because of his success in the treatment of disease. This was Dr. Pierce who afterward moved to Buffalo, N. Y. He made up his mind to place some of his medicines before the public, and he put up what he called his "Favorite Prescription," and placed it with the druggists in every state in the Union.

For fifty years Dr. Pierce's Favorite Prescription has sold more largely throughout the United States than any other medicine of like character. It's the testimony of thousands of women that it has benefited or entirely eradicated such distressing ailments as women are prone to. It is now sold by druggists in tablet form as well as liquid.

ASTORIA, OREGON.—"I saw Doctor Pierce's advertisement and as I had tried so many things for woman's trouble without getting any help, I decided to try Dr. Pierce's Favorite Prescription, and I did so with good results. I think it is just great."—Msa. D. Bena.
