For Corns Little or Big-Use "Get-It"

Stops Corn Pain Instantly and Removes Them Completely.

The Only Way to Cure a Corn is to Remove it with "Get-It"

You will laugh to see how quickly your corn lets go its grip, how it curls right up and dies so you can lift it off with your fingers. It's fully and non-sensitizing to pare and trim a corn trying to ease its pain when "Get-It" will easily rid you of it entirely.

"Get-It" is sold at all drug stores and costs but a trifle. Your money back on request. Mfg. by E. Lawrence & Co., Chicago. Sold in Pendleton and recommended as the world's best corn remedy by Tallman & Co., Economy Drug Co.

THE FORDSON TRACTOR

Tractor farming has come to stay. The knowledge that the tractor is the speediest, most practical and economical power in common to nearly every one in the farming community.

The general trend now is from the big tractor to the smaller and more economical. Ranchers everywhere are getting away from the big over haul jobs, the expensive parts and high priced operators.

The Fordson is the logical tractor. The tractor that fills the requirements of the smaller economical type.

It does not matter if you already own a caterpillar, you can use a Fordson to good advantage. Place it along side of any six to eight mule team. Keep track of the actual time that each are in the field working during the day. You will find the Fordson will get in an hour more actual work than the mules. You will also see that the Fordson is traveling twice as fast as the mules and that you are using an average of less than two gallons of COAL OIL to the acre.

The Fordson is no experiment. Over one-third of all the tractors in use in the United States are Fordsons.

Come in or call us up and we will be glad to demonstrate. Watch it do the work that you have to do every year. Watch the ease, economy and speed with which it does it. If you have any work to do this fall let us help you get it done, and in doing this you will have the opportunity to see the Fordson in action. We know you will appreciate the saving in initial cost, in operation and upkeep. If you don't you owe us nothing.
