Nominal Receipts of Stock In Portland for Day

Only cattle came forward to North Portland over the holiday. For the Friday trade there was only a nominal market. Hogs were considered fully steady, cattle steady to easier and sheep slow.

In the cattle alleys, there was a noticeable degree of sluggishness in the market for feeder stuff at North Portland Friday. Good killer stuff has been scarce of late and this class has shown a fairly steady tone at unchanged prices.

While no carload lots of hogs were noted at North Portland for the Friday morning trade, the market indicated a steady tone. With no hogs in sight, killers began to inquire for supplies, especially those who had purchased liberally at the low prices and were therefore in a position to profit by an advance.

General hog market range: Prime mixed \$11.00@11.75; Smooth heavy 10.75@11.25; Rough heavy 9.00@9.75; Fat pigs 9.50@10.50; Feeder pigs 9.00@10.50. In the sheep and lamb trade there were no fresh arrivals for the Friday trade. Quite fair stocks were carried over the holiday and there appeared a slow and weak tone in the trade although no price changes were made during the early session.

General sheep and lamb range: East of mountain lambs \$8.50@9.50; Willamette valley lambs 8.00@8.50; Feeder lambs 7.50@8.00; Cull lambs 5.00@6.00; Yearlings 5.00@7.50; Wethers 6.00@6.50; Ewes 1.90@4.50.

Trading on Stock Exchange Little Changed in Aspect

NEW YORK, Nov. 27.—Trading on the stock exchange Friday presented no material alteration in its salient aspects from previous sessions of the week, price movements being extremely irregular when not actually heavy.

Apart from the relaxed tone of the money market which extended to bankers' acceptances and commercial paper, developments and advices over the holiday recess were again of character to inspire extreme caution.

Grain quotations suffered another sensational decline, other commodity markets were nervous and one of the most influential of the independent steel manufacturers adopted lower prices, "due to the law of supply and demand."

Exchange on London was firmer. Shippings, oils, steels and coppers were the most vulnerable issues, their reactions of from 1 to 5 points keeping pace with reduced business, lower prices and reduction of output, especially in the metal industry. Neutralizing features were restricted to several of the investment rails, notably coalers, also American woolen and sundry specialties. Sales 794,500 shares.

Call loans for the day and into coming week held at the one rate of six per cent and an enlarged volume of business in acceptances and mercantile loans was reported at the lower quotations.

Although the new issue of Canadian Northern bonds was quickly taken, the general bond market was dull and heavy, especially for liberty issues, the second four quarters losing one point and the fourth four quarters a large fraction. Total sales, par value, \$15,250,000.

Old U. S. bonds unchanged on call.

Demand for Wool Keeps Within Narrow Limits. BOSTON, Nov. 27.—The Commercial Bulletin of Boston today says of the wool market:

"The demand for wool has continued within narrow limits during the week. Some fine and fine medium original bag territory wools have been sold at 70 to 90 cents, according to staple, to various mills. There is a stronger belief that prices are nearing the bottom rapidly. The foreign markets are generally slow."

"The goods market is still unsettled, but some sales of surplus clothes are being made to better advantage."

Texas—Fine, 12 months, 90@95; fine, 8 months, 70.

California—Northern, 95; middle county, 90; southern, 60@65.

Oregon—Eastern No. 1 staple, 95@97; eastern clothing, 70@75; valley No. 1, 85.

Territory—Fine staple choice, \$1@1.05; half blood combed, 90; 2-5 blood combed, 60@65; 1-4 blood combed, 50; fine clothing, 70@75; fine medium clothing, 55@60.

Mohairs—Best combed, 40@42; best carding, 32@35.

North Dakota Failures Cause Slump in Wheat. CHICAGO, Nov. 27.—Strained financial conditions in North Dakota had much to do yesterday with a violent new break in the price of wheat. For the first time in several years the cereal commanded less than \$1.50 a bushel. There was a nervous close at 6 to 7c net decline with Dec. 1.52 1-2 to 1.53 1-4 and March 1.48 to 1.48 3-4. Corn finished at 1-4c loss to 3-8 gain, oats up 1-8 to 3-8 and provisions varying from 20c off to an advance of 2 1-2.

Attention to the remarkable series of rural bank failures in North Dakota was so eager and general among wheat traders that a selling stampede could be easily foreseen. As soon as the market opened, rushes to the bear side of the market began, and buyers were restrained through knowledge not only of the North Dakota banking situation, but also on account of a fresh break in the cotton market and owing

Prestige

The moral benefit of being known as a customer of a bank where strength and character are the salient traits, is conceded as essential as your bank balance. Confidence enters largely into all business transactions. The custom of a concern handling a large volume of business as well as those handling comparatively a small volume, reflects the character of banking relationship maintained.

Thus the influence of the American National Bank affects the customers' affairs directly and indirectly.

SCRAP BOOK GIRL VISITS PRESIDENT

WASHINGTON—Miss Olive Chace, 18-year-old Washington schoolgirl, has kept a scrap book of newspaper pictures of President Wilson ever since he took office. Her mother wrote to Wilson, telling him about it and, as a result, Mrs. Wilson invited Olive to the White House that the president might look over the collection. Did Olive go? You just bet she did!

to the postponing temporarily of lower quotations on British exchange which later recovered.

Ralls took place later, influenced by estimates that one million bushels had been bought to go to Europe from ports on the Gulf of Mexico. Announcement, however, that the Belgian government had withdrawn from the market led to a fresh setback as the day came to an end. Corn and oats at first sympathized with wheat depression, and December corn touched the lowest point since before the war. In the last part of the session the scantiness of country offerings tended to make the market harder.

Provisions were steady by an advance in hog values.
