Hardly one of the dogs of war but nevertheless connected with Uncle Sam's defenders is the yellow and white terrier which has been adopted by the local navy recruiting office. P. R. Weaver, recruiting officer, caught a wistful look in the eye of the stray pup one day and brought him from the streets to shelter. As yet the mascot is nameless, it being deemed too late in the season to dub him Josephus Daniels. It is thought the new cabinet will bring an inspiration.

## Chess Taught In School!

BERLIN, Germany—Not only is chess a popular recreation in Germany, but it is part of the German youth's education and a compulsory subject in schools. Teachers play against students and students are matched with each other. The photograph shows the chess schoolroom of a big German school with, perhaps, some future chess prodigy of Europe here learning the fundamentals of the game.

## Taking Desperate Chances

It is true that many contract severe colds and recover from them without taking any precaution or treatment, and a knowledge of this fact leads others to take their chances instead of giving their colds the needed attention. It should be borne in mind that every cold weakens the lungs, lowers the vitality, makes the system less able to withstand each succeeding attack and paves the way for the more serious diseases. Can you afford to take such desperate chances when Chamberlain's Cough Remedy, famous for its cures of bad colds may be had for a trifle? Chamberlain's Cough Remedy the Mother's Favorite

The soothing and healing properties of Chamberlain's Cough Remedy, its pleasant taste and prompt and effective cures have made it a favorite with people everywhere. It is especially prized by mothers of young children for colds, croup and whooping cough, as it always affords quick relief and is free from opium and other harmful drugs.

## When You Are Constipated

To insure a healthy action of the bowels and correct disorders of the liver, take two of Chamberlain's Tablets immediately after supper. They will not only cause a gentle movement of the bowels, without unpleasant effects, but banish that dull, stupid feeling, that often accompanies constipation.

## UMATILLA COUNTY SCHOOLS

(Continued from page 1.)  
schools in the presence of school boards. As a result we have a demand for trained teachers at good salaries.

The summer session of the Oregon State Normal School held at Pendleton last summer is declared an innovation of great worth to the schools of this section. Results are already speaking for themselves, the superintendent says. In most of the schools are found trained teachers, especially where the 12-month pay basis is adopted with a minimum wage of \$1200 and proper living conditions.

The little one-room school has been polished up in many places and will soon be decorated with a certificate of standardization, the report adds. "For the coming summer we can promise an attendance of 160 students for the Pendleton State Normal School."

## Teachers Solve Problem

One of the factors which has helped bring trained teachers into this county, even to the rural districts, is the system of teacherage adopted by many districts. Where, in the past, teachers have been unwilling to take certain positions because living conditions were unfavorable, these small cotages, provided by the district, have solved the problem.

Eight teacherages ranging in size from two to 10 rooms have been built during the past year by districts in the county. There are used by all the teachers in some of the larger districts, as for example Stanfield and Hilly.

Most teacherages are in one-room school districts. In all, there are 14 such buildings in use by Umatilla county districts.

Five new school buildings, ranging in cost from \$4000 to \$40,000, have recently built. Within the last month two districts voted bonds for new school buildings, the amounts being respectively \$4000 and \$200,000.
