Perry L. Idleman, Charles Z. Randall and Lyman G. The elections are supposed to be held before January 1. Ways and means for helping former service men to get employment were discussed and tentative plans made for the holding of a concert in mid-January. The concert is planned to be one means of quickening interest in the work of the legion in Pendleton and the county.

fore Pleasure," as a whole nation of theatergoers knows, introduces or rather re-introduces, our familiar friends "Abe" Potash and "Mawruss" Perlmutter in an entirely new business—that of moving picture producers. As such their sayings and doings, their quarrelling and misunderstandings were never funnier. Those who remember them as cloak and suit partners in "Potash & Perlmutter" and Potash and Perlmutter in Society" will find a new fund of laughter in the experiences of their old friends in the movie world. "Business Before Pleasure" was one of the great and conspicuous comedy successes of the season of 1917-1918, playing to capacity audiences month after month at the Eltinge Theatre, New York. The authors are Mantague Glass, who created the two characters in his classic Saturday Evening Post stories and Jules Eck-

ert Goodman, the noted playwright. Seldom has a play won such unanimous approval from press and public alike. Alan Dale, the famous critic of the New York American said: "There were so many laughs that gradually one grew tired even of the laughter. I can recall nothing that has evoked such continuous mirth in a long time."
