### HOW TO GET BETTER TEACHERS

THE teaching situation was the chief topic of discussion at the Citizen's Educational Conference in Portland Saturday. How to get better and more teachers was the problem. The following 15 suggestions for recruiting teachers were offered:

- Salaries must be raised to a reasonable living wage.
- Qualifications raised and salaries graded on training and experience.
- Better housing conditions for teachers and social recognition of the service.
- Make profession attractive for more men teachers.
- Furnish employment for 12 months in the year.
- Certificates based on training and experience to be issued by the state.
- Security of tenure.
- Graded salaries increasing with successful experience.
- Pension system financed by the state.
- Equalized support assuring specific amount for each pupil.
- Provision for training of teachers in service.
- Subsidy for teachers taking normal training.
- Teachers' participation in school administration.
- Enforcement of compulsory educational laws.
- Widespread publicity for need of trained teachers.

### WHY THE FARMER WILL NOT SELL

INQUIRY comes from certain sources with each temporary advance in the price of wheat, "Why don't the farmers sell?" The farmers who have wheat from the 1920 harvest and they are plentiful, are as busy giving reasons for not selling, as they are watching the market price from day to day. "Why don't they sell?"

Gasoline, which not many years ago sold around 15 cents a gallon today costs the farmer 32 cents or more in drums. Distillate is but a few cents cheaper. Motor oil for his tractors costs \$1.25 a gallon. His farm help outside of harvest season, must be paid from \$80 to \$90 a month and board, whereas \$30 and board was the price not long ago. Rentals of land on the reservation are \$20 today where they were \$5 before the war.

Machinery and parts are in the same class. Tractors went up more than 50 per cent, plows nearly 200 per cent, drills took a like jump and threshing outfits about doubled. Is it any wonder that a crop put in and grown to sell at \$2 and above is held while the market hovers about \$1.50 with no buyers?

### CLEANING UP PUGILISM

CALIFORNIA started an investigation of gambling in baseball that extended to the east and has resulted in a wide-spread campaign which probably will place and keep that sport "on the level." With the embers of this fire just dying down, California has started another reform that has been a far more crying need. California and the nation are on their way to drive the criminal element from the boxing game.

The outrages committed by San Francisco gangsters, included in whose membership were several pugilists, resulted in a revocation of all boxing permits in that city and a strict consorship in other California cities. When murder and attacks on young women emanate from a certain element in this so-called profession, it is the time that the sheep are separated from the goats. California's lead should be made a nation-wide move.

It ought to make every dad in town swell up quite a bit with pride that his youngster is superior in stature, health and activity to those of most towns and superior to the government measurements. Young Pendleton is quite a robust race and they will grow up to be quite a virile bunch of Pendletonians like their dads are.

Projects of the U. S. reclamation service now under way or completed embrace approximately 3,300,000 acres of irrigable land which will ultimately provide about 60,000 farms of from 10 to 160 acres each. The value of crops grown on irrigated lands during the year 1919 was \$150,000,000 or approximately \$80 an acre.

The Reed College youth who found a way to douse all the lights on the campus at one time was not so bright. The Pacific Power & Light Co., switches here, with a good gust of wind, give all Pendleton that effect.

An increase in the tax on incomes under \$5000 will hardly meet with the approval of the nation. Those with incomes under \$5000 cast the votes that elect yet must not bear more than their share of the burden.

"The country will now settle down," says a republican chairman in Missouri. The country is going to settle up, too, and that's where the trouble lies.—Chicago News.

There ought to be joy for the ardent prohibitionists in the fact that the United States senate has sold its champagne cooler—whatever that is—for \$1.—Chicago News.

That Columbian who boasts that he never borrows trouble is probably too busy borrowing everything else.—Columbia Record.

Evidently many newcomers fail to realize that the Statue of Liberty is also a statue of limitations.—Norfolk Virginian Pilot.

A look at the pie counter may make Mr. Harding wish there had been more democrats.—Detroit News.

Did you buy a barrel of flour yet?

## HALLOWELL CONCERT CO. ENGAGED FOR DEC. 28

The Hallowell Concert Co., which made a decided hit in concert here last winter under the auspices of Pendleton Post, American Legion, has been contracted for a return engagement. The company will play in the Eagle-Woodman hall on the night of Tuesday, December 28.

There are nine members in the company this season, including a vocal soloist. The program is of two hours' duration and consists of popular and standard instrumental and vocal numbers. Last year the concert was presented in Happy Canyon before a capacity audience of more than 1100.

The Hallowell company was engaged for a return concert because of the excellence of their first program here. They have many excellent recommendations this season, legion officers say. They will precede by three weeks the Columbia Ladies' Symphony orchestra, which will be given in the Oregon theater in mid-January.

**CAVE-IN TRAPS FARMER**  
SASKEATON, Sask., Dec. 9.—(A. P.)—Reports of the horrible death suffered recently by Nickolai Klufman, a Galician farmer of the Horse Lake district, has been received by the provincial police. Klufman was trapped by a cave-in while working in a well on his farm. In spite of frantic efforts on the part of his family and neighbors he could not be budged. The water rose slowly in the well. Inch by inch it crept up, finally drowning the man. Before he died Klufman made his last will, verbally, and bade farewell to his wife, children and friends.

## THREE LIVES ARE LOST IN VANCOUVER FLAMES

VANCOUVER, B. C., Dec. 9.—Three men lost their lives in a fire which destroyed a rooming house here early Wednesday.

The dead are Thomas Freeman, Jack Davey and one unidentified man, all lodgers in the rooming house, which consisted of three floors above a paint store.

Bursting out in great puff of flame, fire made rapid headways, within a few moments it had filled the apartments above the ground floor with heavy, oily smoke, which made the escape of 72 occupants of the rooming

house very difficult. The three deaths resulted from suffocation. Freeman made good his escape when the first alarm sounded but returned to help in the work of arousing others. He was found with a blanket wrapped about his head.

### CREAM COLOR FOX DISCOVERED

DARBY, Mont., Dec. 9.—(A. P.)—Jack Keddes, local trapper, has discovered what is said to be a species of fox hitherto unknown in this part of America. The animal is larger than the red fox and of rich cream color. The United States biological survey has been asked to identify it. It is believed that the fox possibly had roamed down from Canada where there are several specimens not found in Montana.

## Kill That Cold With

**HILL'S CASCARA BROMIDE QUININE**  
FOR Colds, Coughs AND La Grippe

Neglected Colds are Dangerous  
Take no chances. Keep this standard remedy handy for the first sneeze.
