BULGARIA VOTED IN BY GENEVA ASSEMBLY

GENEVA, Dec. 10.—The admission of Bulgaria to the league of nations has been voted by the commission on the admission of new states. This action was taken after a report submitted by Marshal Foch had been read, in which the marshal declared that Bulgaria had made sincere efforts to live up to the treaty terms.

Even the "little entente" countries, which had been strong in their opposition to Bulgaria, voted for her admission.
The commission also decided to permit Armenia, Albania and Georgia participate in the work of the technical commission. Liechtenstein was refused admission, but will be allowed representation of its interests in the league to Switzerland.
The Baltic states were not admitted and the only remaining question is the disposition of Lithuania.

FAVOR IMMIGRATION BILL.
WASHINGTON, Dec. 10.—(U. P.)—A big majority for the bill suspending immigration for two years was indicated in the house when, by a vote of 151 to 3, immediate consideration of the measure was ordered.

HIGH SCHOOL NOTES

Seal Sale Going Strong—The freshman class, which is handling the Red Cross stamp sale, have already turned in \$25. The high school's quota was \$15 and more than this was raised in the first day. They expect to turn in at least \$45 toward the stamp sale. Miss Elizabeth Severance, faculty advisor for the class, is in charge.

Second Series of Class Games—The second series of class games was held last evening when the Freshman again defeated the seniors and the sophomores defeated the juniors. Each class will play another three games before the two contenders for the interclass championships will be announced. Tonight the senior girls will meet the freshman girls for a game. Both the seniors and the freshmen have strong teams and the game this evening is expected to be interesting.

Banquet This Evening—The Girls Forum of the school this evening will entertain members of the first and second football teams, the athletic managers, the pep leader, coach and several business men with a banquet in the music room of the school. The boys will be called for at their homes in automobiles and will be escorted to the school where the banquet will be served by committees appointed from the Forum. Miss Estella Mills, president, has arranged several interesting talks and plenty of entertainment for this evening.

GOVERNMENT TO ISSUE TWO NEW SECURITIES

Two new government securities to be issued in 1921 have just been announced by the treasury department. They are a \$1 treasury savings stamp and a \$25 treasury savings certificate. The new \$1 savings stamp will bear the head of Alexander Hamilton, first secretary of the treasury and will be printed red in color. The \$25 savings certificate will be similar in design and terms to the treasury savings certificates of \$100 and \$1000 maturity value but different in color.
The 1921 savings stamp of \$5 maturity will be larger than the 1920 stamp, will be orange in color and bear the head of Lincoln. The thrift stamp, \$5 savings stamp and \$100 and \$1000 treasury certificates will be continued for 1921.

HOME SITES MAPPED ON MOUNT HOOD LOOP

PORTLAND, Ore., Dec. 10.—(A. P.)—Areas of the Oregon national forest which have been made accessible by the building of the Mount Hood loop road and which are said to be suitable for summer home sites have been inspected and mapped by officers of the United States forest service, according to A. T. Jackson, a member of the mapping party, who returned to Portland the other day from the region above Government Camp in the Mount Hood district where the mapping activities have been carried on.
Two separate sections of land were mapped one lying below the government camp, and one above. Both are rich in scenic beauty, according to Jackson, and are easily accessible by either the Barlow road or the loop road. Both sections are about sixty miles from Portland and will be easily reached when the loop road is completed.

offered him a drink. The man went in rear of the building and returned. Rohrk then asked him for \$3 for a drink. The man refused, saying that he had taken the drink to believe that it was a freewill offering. He started for his room and Rohrk followed. The man went in, locked the door and prepared to go to bed. Rohrk kept up his pursuit and attempted to break down the door and collect his \$3.

The night clerk of the hotel called for the police and Patrolman Myers and Deputy Sheriff Hughes responded. They caught Rohrk but he broke the bottle. Then he freed himself and ran hiding behind some buildings near the Odd Hippy Canyon site. He was found and jailed. In the afternoon he was found guilty and fined \$50.

William Egan, a frequent offender, was sentenced to 18 days in the city jail for being drunk and disorderly. He was given the alternative of a fine. He pleaded not guilty when brought to trial Wednesday morning and witnesses were brought in to prove that he, too, had created more than a normal amount of disturbance while intoxicated.

by part of the band, others unlocked the cells and took out the three gangsters to 30 waiting automobiles. The death ride was then started through Santa Rosa's beautiful residential districts to the Odd Fellows cemetery. The gangsters were rushed inside a great human circle to an oak tree inside the cemetery, where they were hanged, one after another. The band stayed until all three were dead, and then departed quietly.

Spectators Visit Scene
After the bodies had swung in a gentle breeze which was blowing a light mist around them, for an hour, the sheriff and county coroner removed them. Groups of grim-faced men hurried to the scene, and surrounded the stillwarm bodies soon after the hangings. Women soon made their

appearance and several were led hysterical from the scene.
"I had no chance," said Sheriff Boyce today. "Six guns were poked at me by the mob and two men grabbed my arms. They slammed me in a chair, one man went through my pockets and then they hustled me in to an adjoining office and kept me there."
Law of 49-crs Modernized.
It was the "lynch law" of the "forty-niners" modernized, which was the ruling again for the first time in many a year in California. Instead of the old mining camp wagon, which hauled the victim of the gold hunters' wrath to their doom, costly motor cars were used. Instead of the glow of lanterns, the ghastly gleam of automobile headlights made the tortured, writhing bodies glow ghost-like amid the night.
It was done with modern efficiency, quickly over with in half an hour. Hardly a word was spoken; not a shot was fired. The roaring, cursing, reckless mob of the old mining camp days had been replaced.
