Hogs Suffer Further Loss

White Cattle are Nominal
Nine loads formed total arrivals at North Portland for Wednesday trade with a further loss of \$11 for top hogs, cattle were nominal, while no change was shown in the sheep situation.

fully 25c from the previous day. On Tuesday the \$11.25 sales were for non-diversion freight stuff, while tops on Wednesday had the diversion rate. For that reason the decline in reality was more than the 25c noted.

Fresh Selling in Stock

Market Leads to Heaviness
NEW YORK, Dec. 16.—The stock market became heavy again Wednesday, various unfavorable developments in the course of the session detracting from fairly steady opening and provoking fresh selling. Sentiment was rendered increasingly bearish by news of numerous dividend suspensions, further curtailment in steel and iron production and renewed uncertainty several of the more important commodities markets.

Adverse conditions in the metal industry

were confirmed by announcement of a wholesale reduction, beginning Jan. 1 next, of wages of copper miners.

The money market and foreign exchange

were distinctly stable, despite misgivings concerning the former. Enormous federal income tax payments caused no disturbance, being offset in large measure by the heavy disbursements of the treasury department, for interest on liberty bonds and maturing certificates of indebtedness.

Quotations for call money were easier than at almost any time in the past fortnight, the rate for demand loans falling to six per cent in the afternoon, although most of the day's accommodations were made at 7 per cent. The lower rate for money failed to induce any buying of stocks, however, minimum prices being made in the final hour when oil, steel and shippings were under special pressure. Net losses of one to three points were registered by Mexican and pan-American petroleum, Crucible, Atlantic Gulf, Baldwin Locomotive, American Woolen, Corn Products, Studebaker, Reading and Southern Pacific. General Asphalt, a newcomer on the big board, was distinguished for its gain of 1-2 points. Sales of all stocks amounted to \$75,000 shares.

Bonds were strong, the active demand suggesting inquiries from investment sources, especially in old-time railway bonds. Total sales, par value, \$21,550,000. Old United States bonds were unchanged on call.

Government Crop Reports

Set Wheat Price Back
CHICAGO, Dec. 16.—Sharp setbacks in the price of wheat resulted yesterday from the government report showing that grain crops were larger than expected. The close was unsettled 5 to 6 1/2c net lower, with December \$1.65 1/2 and March \$1.58 1/2 to \$1.58 3/4. Corn lost 2 7/8c to 3 3/8c and oats 2 to 2 5/8c. Provisions lost 20 to 25c.

Increased production overshadowed every other factor in the wheat market. Word that one million bushels had been taken from export by way of the gulf of Mexico, failed to assist the bulls. On the contrary, it was said rural offerings in the southwest had become more liberal. Many in the trade not only looked on the grain figures as bearish and wheat especially so, but further considered the big crop of potatoes important as furnishing a bread substitute. Even the most radical bulls had to concede that any wheat shortage this season would be a month later than had seemed probable yesterday. May delivery, in which trading started this morning, proved relatively weaker, December or March finished at 7 to 7 1/4c under the initial price, \$1.60.

In corn and oats there was a notable lack of support except from shorts. Old corn led the decline. Country selling of corn futures was rather free. Provisions went down with grain.

REMEMBER THIS—"CATERPILLAR" 75 TRACTOR IS BY FAR THE MOST POWERFUL TRACTOR ON THE MARKET TODAY "Caterpillar" 75 Tractor stands first in power—it has become the standard machine for deep plowing, subsoiling, chiseling, leveling and other heavy work. It stands first in economy, using less fuel and oil than other tractors of considerably less horsepower. It stands first in accomplishment—results behind the drawbar. It is geared right—on direct drive it handles a big width of plows at the proper plowing speed. It stands first in accessibility—a more important advantage than most people realize, for in the course of a year it means a considerable saving of the time necessary for cleaning, oiling, adjusting, etc. "Caterpillar" 75 Tractor works on any ground surface without power-loss due to slippage. It turns as short as the implements can follow. Its durability is proved by the fact that the first "75s" built, seven years ago, are still in successful service. It is backed by REAL factory service that insures success and eliminate delay in the field. It is built better, especially since the adoption of rigid Government standards during the war, than any other tractor. You can get immediate delivery of a "Caterpillar" 75 Tractor if you place your order without delay. Buy now and be equipped to do your work properly, economically, quickly.

ON HAMON CASE R.B. BROWN. ARDMORE, Okla.—Here's the man who is trying to solve the death mystery of Jake L. Hamon, Republican National Committeeman and oil millionaire, who died of a gunshot wound. Russell B. Brown, county attorney here, is trying to bring to trial Mrs. Clara Smith Hamon, Hamon's former stenographer, who has disappeared. He says his work has been hampered by powerful influences and that he may bring the names of prominent people before the grand jury in this connection.
