Speculative Issues Singled Out for Further Deflation.

NEW YORK, Dec. 18.—Speculative issues of the more vulnerable class were singled out for further price deflation in the stock market Friday.

Foreign exchange offered the one interesting feature of the day, the British rate rising to highest quotations in almost three months on buying of sterling bills for year's end adjustment of payments in London.

The reported investment demand for bonds fell away, with consequent easing of prices for most domestic issues, including the liberty group.

Export Buying of Wheat and Corn Boosts Prices.

CHICAGO, Dec. 18.—Big export buying of both wheat and corn did a good deal Friday to lift the value of all grain and of provisions as well.

Wheat closed strong, 5 1-2 to 6 1-2c net higher with March 1.54 to 1.54 1-2 and May 1.55 to 1.55 1-2.

Corn gained 1 3-4 to 2 3-8; oats 1 to 1 3-8 and provisions 12 to 40c.

with prospective dividend revision or suspension.

Average price were lowest in the final dealings on the relative firmness of call money, which ruled throughout the session at 7 per cent.

Export Buying of Wheat and Corn Boosts Prices.

CHICAGO, Dec. 18.—Big export buying of both wheat and corn did a good deal Friday to lift the value of all grain and of provisions as well.

Wheat closed strong, 5 1-2 to 6 1-2c net higher with March 1.54 to 1.54 1-2 and May 1.55 to 1.55 1-2.

Corn gained 1 3-4 to 2 3-8; oats 1 to 1 3-8 and provisions 12 to 40c.

The wheat market was on the upgrade throughout practically the entire session.

Foreign purchasing was said to total 2,000,000 bushels of wheat in addition to 3,000,000 the previous day and it was said that Denmark alone has taken 1,000,000 bushels of corn recently, with liberal sales to Holland also.

The fact that sterling exchange had moved up rapidly of late was likewise a bullish factor and so too was knowledge of steps being taken in Washington looking toward an emergency tariff on wheat and other agricultural products.

Besides due attention was given to dispatches saying the governor of North Dakota had denied reports that he would request farmers to sell 25 per cent of their wheat.

Government figures on the acreage and condition of winter wheat and rye proved to be about as expected, and so made little impression.

Signs that a big elevator interest had switched to the bull side helped to strengthen the corn market.

Oats followed corn. Provisions rose with grain and hogs.

Signs of Betterment in Business More Distinct.

NEW YORK, Dec. 18.—Dunn's today says: "The signs of betterment in business, if outnumbered by the unsatisfactory features, are becoming more distinct."

A change is seen in certain primary textile branches where the movement is freer, and some buyers in the leather trade are showing renewed interest.

Whether the indications of improvement mark a definite turning point in the lines affected is not clear at the moment but the symptoms are encouraging.

That a solid basis for recovery exists in a conviction strengthened by the week's crop estimates, disclosing unusual abundant harvests and the powerful banking resources and better transportation facilities are important constructive factors.

Weekly bank clearings \$7,895,156,431.
