No persons are known to have been injured.

DEMOCRATS TO BLOCK HASTY TARIFF ACTION

WASHINGTON, Dec. 21.—(By L. C. Martin, U. P. Staff Correspondent.)—Senate democrats will oppose the efforts to jam through as an emergency measure the tariff bill drawn up by the house ways and means committee which virtually places embargoes on many commodities. The decision to refuse their assent to this hasty action is reported today by the democratic steering committee of the senate. The emergency tariff bill is still in the house, having been reported by the ways and means committee as a means of cutting off imports of farming products in the hope of stopping price declines. The bill will be called in the house Wednesday and efforts made to pass it immediately, a member of the house ways and means committee said today. Members of congress from the West and South, including republicans and democrats, announced themselves for the emergency tariff, as well as a bill providing for loaning through federal farm loan banks of \$100,000,000 profits of the federal reserve banks.

14-YEAR-OLD SHOOT LAD AT POKER GAME

NEW YORK, Dec. 21.—(A. P.)—A 14-year-old boy was arraigned in a Brooklyn court yesterday charged with shooting and wounding a 15-year-old companion during a poker game yesterday. William Termino was the prisoner, and Salvatore Campisi was the victim of the alleged shooting. It happened, so the other four participants in the game told police, in this way: There was a big pot and heavy betting. William called Salvatore and Salvatore laid down four aces and reached for the money. "Wait a minute," William warned, "that makes five aces in the deck. If any man touches that money I'll shoot." Salvatore touched the money and the gun went off. Now Salvatore is in a hospital where it was said he would recover and William was held under \$1000 bail for pleading next Monday.

MINISTERS URGED TO TAKE UP MEDICINE

LONDON, Dec. 21.—(A. P.)—A controversy is on among the poorly paid section of clergymen who find themselves hard hit by the high cost of living over a novel suggestion put forward by Dr. Robert Rentoul, a prominent Liverpool practitioner, that the clergymen could augment their incomes by acting as doctors as well as parsons. Dr. Rentoul advises young clergymen to study medicine, take their degree and combine body-curing with soul saving work. Many clergymen do not look with favor on the idea. They argue that they have plenty to do already and that local practitioners would bitterly resent competition from them. One wants to know where a poor curate is to raise the 250 pounds necessary to qualify for a medical degree and others hold that "within a month the cleric-medic's sermons would be thin, and that the soul would suffer at the expense of the body."

MEAGER STUDENT LOAN FUND SWELLS RAPIDLY

MOSCOW, Idaho, Dec. 21.—Started in 1906 with a single hundred dollar payment, the scholarship loan fund of the University of Idaho originated and fostered by the Idaho State Federation of Women's Clubs, has grown to \$10,050, according to an announcement here recently by Mrs. J. H. Forney, past federation president, who is temporarily handling the fund. The scholarship loan for the University was first suggested by Mrs. W. J. Sweely, of Twin Falls, and it is declared to be due to her efforts that it has grown so rapidly. The loan was founded to aid upper-classmen who would not otherwise be able to complete their courses, but underclassmen are at times allowed to avail themselves of this opportunity. Students may borrow up to \$150 and are not required to pay back this amount until they are graduated and have established themselves in some occupation. Payment is then made, if desired, in small monthly amounts. During the war the loan fund was given impetus by the founding of scholarships in memory of Americans who were killed in France. This idea has continued in popularity and today a majority of Idaho towns have at least one such memorial. Twin Falls leads southern Idaho with six and northern Idaho, St. Eulalie is first with five.

AIRPLANE LIMOUSINE ORDERED BY MILLERAND

PARIS, Dec. 21.—President Millerand, despite the earnest contrary advice of Madame Millerand, is reported to have ordered an airplane limousine for the purpose of making official visits to foreign capitals and cities in the provinces. Should the report prove to be founded it will mean a departure in the mode of traveling of presidents in France and the permanent sidetracking of the presidential train. A regular squadron will have to be provided for the presidential suite and the 50 or so journalists who accompany the president on all his trips from Paris. Some newspapers call the president's attention to the fact that a fall from the window of his aerial limousine would have more terrible results than leaping too far out of the train window, referring to the accident to the former President Paul Deschanel.

PLYMOUTH ROCK, IN MOVING, IS BROKEN

PLYMOUTH, Mass., Dec. 21.—(A. P.)—Plymouth Rock was moved yesterday and broke in the process. The split was an old one caused by originally when the rock on which the Mayflower passengers landed was separated from its granite base in 1775 and hauled by a yoke of oxen to Town square. Ultimately the broken parts

were joined with cement and replaced under a monumental canopy which has since been the mecca of thousands of visitors to old Plymouth. In connection with the pilgrim tercentenary committee's work the shore line is being restored as nearly as possible to its aspect at the time of the pilgrim's arrival 300 years ago and a new monumental canopy is to be built. It was while excavating for this work that the rock was moved today. While it was in chains the ancient cement gave way and the two parts separated so that light could be seen between them. By tomorrow when the tercentenary exercises are held it is expected that the old base will be fully exposed and the divided rock re-placed on it in its old position.
