COOLIDGE BOYS WASH DISHES
SPRINGFIELD, Mass., Dec. 27.—Calvin Coolidge Jr., and his brother, sons of Governor Coolidge, donned aprons and washed dishes after their Christmas dinner.

MORRIS BROTHERS
(Continued from page 1)

findings to date have warranted closing the doors of the institution. It is probable that a receivership will be asked for shortly.

Business Grows Fast
Under the Etheridge's direction during the past three years the firm of Morris Brothers has undergone a rapid expansion in the handling of bonds.

The latest large transaction in which the firm engaged was in the purchase of bonds of Edmonton Alberta having a face value of \$2,135,000. Most of these had been disposed of and against them a large number of interim certificates are outstanding, being held by individual investors. Morris and his attorneys were unable to state last night the amount represented by outstanding interim.

Etheridge Leaves City
Etheridge left the city suddenly Thursday night. If developments warrant it is probable that the state authorities will seek to locate him and return him to Portland.

Etheridge's sudden cessation of relations with the firm and his departure mark a crisis in his local business career of almost epic proportions. Coming to Portland in 1917, as an employee of Morris Bros., through his energy and ability he developed the business on a large scale. His activities extended beyond the bond business. He was prominent in a variety of civic endeavors and during the war was a leading figure in the several Liberty loan drives.

Confesses Past Record
His most recent outside activity was his candidacy as a delegate to the Imperial Shrine from Al Kader temple. He conducted an elaborate and extensive campaign for that honor.

Unpleasant rumor became current that reflected on Etheridge's personal record and the business house he represented. The firm had enjoyed some unpleasant notoriety some months ago when the bond transactions he had engaged in with the state treasurer were brought to the attention of the Marion county grand jury. The grand jury returned no indictment.

But the rumors concerning Etheridge's earlier career were of a more ugly nature. They came to his ears. On Saturday evening, December 19, occurred the Shrine election. Mounted on a platform in the Armory, Etheridge laid bare his record. He confessed to having served time in the New Jersey penitentiary. He did not withdraw his name. The vote was taken, four delegates to be chosen. He was fifth on the list.

The records of the New Jersey penitentiary at Trenton show Etheridge to have been sentenced on October 21, 1907, to 18 months at hard labor in that institution upon conviction for false pretenses. On November 22, 1907, he was sentenced to a second term in the same institution for two years again for false pretenses.

Etheridge is a native of England and became a naturalized American citizen in Portland in July, 1918.

Weak Lungs

Those who have weak lungs can not be too careful about taking cold, as unless promptly treated, pneumonia may follow. As a prompt cure for bad colds no one could wish for a better medicine than Chamberlain's Cough Remedy. The success that has attended the use of this preparation, not only throughout the United States, but in many foreign countries, shows that it is a remedy that can be relied upon. It is pleasant and safe to take and only costs 25 cents; large size 40 cents.

A Good Cough Medicine
It speaks well of a cough medicine, when druggists use it in their own families, in preference to any other. J. Goldsmith, druggist, Van Ethen, N. Y., writes: "I have sold Chamberlain's Cough Remedy for years, with complete satisfaction to myself and customers. I have always used it in my own family, both for ordinary coughs and colds and for cough following the grip and find it very efficacious."

For Indigestion and Constipation
There may be people in this vicinity who are affected with indigestion and constipation, and if so, they will be interested in the experience of Mrs. H. C. Getty, Indiana, Pa. When visiting in Mt. Jewett, Pa., Mrs. Getty was advised to try Chamberlain's Tablets for indigestion and constipation, and says: "This medicine not only cured me, but toned up my whole system, so that my health has been better than for years, since taking it."

The Joy of Living
No one can reasonably expect to get much pleasure out of life when his bowels are constantly constipated. A few doses of Chamberlain's Tablets will move the bowels, strengthen the digestion and give you a chance to realize the real joy of living.

RAILROADS NEED NO FURTHER RATE RISE

WASHINGTON, Dec. 27.—(A. P.)—American railroads are completing a record year and have no intention of asking for another general rate increase, Thomas Dwight Cuyler, chairman of the Association of Railway executives, declared tonight, reviewing the 1920 situation.

The year, Chairman Cuyler asserted, saw American railroads placed again under private operation and saw them move a larger gross tonnage than ever before and establish new records in transportation gotten out of 400,000 cars. "These records, he added, were not achieved by the railroads alone but with the aid of shippers and with the day and night, rain or shine work of hundreds of thousands of employees."

In referring to reports that the railroads plan to ask for further rate increases, the chairman said: "I know of no movement by the railroads for a general increase in rates, nor do I expect any. It is true railroad companies are not receiving from the increase anything like the six per cent return needed, but every effort will be made to accomplish this by further economies and efficiency."

Achievements of the railroads since their return to private operation, March 1, were set forth as follows:

"Increased the average movement per freight car per day 6.1 miles from 22.2 to 28.6 miles.

"Increased the average load per car 1.7 tons—from 25.2 to 26 tons.

"Made substantial reduction in un-servicable locomotives.

"Reduced the accumulation of loaded but unmoved freight cars from 162,237 on March 1 to 21,991 on Dec. 3 of which only 8,154 were detained because of the inability of the railroads to move them.

"Re-located approximately 150,000 box cars for the movement of farm products.

"Moved the third highest coal production in their history.

"Spent over \$500,000,000 extra on improving the maintenance of tracks, bridges, cars and locomotives."
