Including Pendleton Prices and Associated Press Reports

Higher Prices Offered For Livestock at Portland

While only two loads of livestock came into the yards and these consisted of cattle, higher prices were available for most offerings during the Wednesday trade at North Portland.

Only a few drive-ins are reported in the hog alleys for recent days, but there is so much strength underlying the market at North Portland at this time that it is easy to establish a price, even though no carload sales are received.

As a rule North Portland hog quotations are established only with the sale of carload lots, but the absence of car shipments at this time makes it necessary to quote on the basis of what comes forward—the drive-ins.

Sales of drive-ins were reported in the hog alleys up to \$11.50, a rise of 75c over the sales of similar quality during the previous 24 hours.

General hog market range

Prime Mixed \$10.50@11.50
Smooth heavy 10.00@11.00
Rough heavy 6.50@9.50
Fat pigs 9.50@10.50
Feeder pigs 7.00@8.50

While there were no arrivals in the sheep and lamb alleys at North Portland for the day, killers were offering about \$1 more for lambs and it is likely that a similar rise would likewise be available for mutton generally.

General sheep and lamb range:
East of mountain lambs \$ 9.00@ 9.50
Willamette valley lambs 9.00@ 9.50
Cull lambs 5.00@ 6.00
Feeder lambs 5.00@ 6.00
Yearlings 5.00@ 7.00
Wethers 5.00@ 6.00
Ewes 1.00@ 4.00

Transportation Shares
Infuse Strength in Stocks.
NE WYORK, Dec. 30.—Substantial inquiry for transportation shares infused appreciable activity and strength into the stock market Wednesday after an irregular opening in which several new low records for the year were made.

Buying of rails was most marked in the dividend paying issues at gains of 1 to 5 points, but secondary or reorganized properties of roads, traversing rich agricultural sections of the west and southwest were not neglected.

Oils, steels, equipments and motors displayed greater stability than at any time since the recent upheaval and various speculative specialties in the tobacco, food, chemical and utility groups scored advances.

Altogether the movement went far toward confirming the impression that much liquidation of the last fortnight had its inception in definite purposes to establish tax payments for the expiring year.

The day's budget of news again included backward conditions in the industrial situation, the Iron Age for example, seeing no prospects of a "buying spurt" for several weeks. It is believed however, that the first few months of 1921 will witness a general demand for supplies, especially railway equipment.

Best prices of the day were registered in the last hour when rails, under the guidance of Northern Pacific, overshadowed all other issues and drove the shorts to cover in many industrial stocks; a strong tone ruling at the close.

Sales amounted to 1,100,000 shares. Trading in bonds, especially the convertible or speculative issues, was in keeping with the demand for stocks, but treasury bonds and most industrial were irregular. Total sales, par value, \$4,275,000.

Bullish Sentiment Revived By Ships at Galveston.
CHICAGO, Dec. 30.—(A. P.)—Bullish sentiment revived in the wheat market Wednesday owing more or less to word that a large number of vessels had arrived at Galveston and would load out 5,000,000 bushels within the next few days.

Prices closed firm, 3 1-2 to 4c net higher, with March 1.65 1-4 to 1.65 1-2 and May 1.61 1-4 to 1.61 1-2. Corn gained 1 5-8 to 2c, and oats 5-8 to 1-2c. In provisions the outcome varied from 2 1-2c decline to 2c advance.

At first the wheat market showed a downward tendency largely as a result of apparent absence of any sign of new export depression. Later, however, liberal clearances of wheat and flour from the seaboard attracted extensive notice, and together with the numerous vessel arrivals at Galveston, put the bears at a disadvantage.

A broader domestic milling demand for wheat was also reported, and country offerings were small despite an advance of 1c for shipment to the gulf. Talk of competition ahead from Argentina failed to act as an offset.

Indication of a relatively light movement next week helped to strengthen corn after a weak start. There were signs too of a little European buying at both Chicago and St. Louis.

Oats followed corn upgrade. Provisions averaged higher with grain, despite lower quotations on hogs.

MOONSHINERS' OUTFIT FOUND BY SMALL BOYS

(East Oregonian Special.)
WESTON, Dec. 30.—Some small boys were playing in Mayor J. M. Banister's barn Monday and found a part of an outfit for making moonshine hidden under the hay. The part that was found consisted of the top of an ordinary wash boiler with regulation copper tubing attached to it. Some jars containing yeast were found with it. There was no indication that the still had ever been used in the barn. The supposition is that some one had used the still in their home and when not in use they hid it in the mayor's barn.

The pool hall which has been operated by Davis & Davis failed to open for business last Monday morning. Rumor has it that bootleg whiskey was being sold in the place and that the authorities were so close on their track that proprietors decided to close up the shop. Claude Davis, junior member of the firm, is reported to have left for parts unknown.

Prof. G. R. Hyslop, agriculturist at O. A. C., accompanied by Fred Benlison, Umatilla county Agriculturist, held two interesting meetings in Weston last Monday. In the forenoon the subject of the meeting was the growing and handling of potatoes. The afternoon session was devoted to the growing and marketing of wheat.

Frank Hartley of Carlton, Oregon, has been visiting in Weston for a few days this week. This is Mr. Hartley's first visit in Weston in nearly 25 years.
