CHILE GETS BIG GAIN FROM NITRATE EXPORTS

VALPARAISO, Jan. 7.—(A. P.)—Officials of the Nitrate Producers association, representing 95 per cent of the production of the country, declined today to comment on the charges made in the house in Washington by Rep. A. B. Almon of Alabama on Friday that American farmers were being robbed by an alleged Chilean nitrate trust. El Mercurio, however, said it is not the first time the question of paying tribute on Chilean nitrate has been attacked in congress. Regarding Rep. Almon's statement that Chilean nitrate had cost American farmers \$153,000,000 in port duties since 1879, El Mercurio remarks that if nitrate was not indispensable to them the North Americans would not buy it. The export duty on nitrate is two shillings six pence for forty-six kilos. It is estimated the government derives more than 52 per cent of its annual income from the industry.

Indians Become Unruly
Annie McKay, Wilfred Minthorn and John Snyder, Indians, parked their automobile diagonally across Webb street in front of the Henry Lazinka residence last night and proceeded to disturb the neighborhood with the noise inspired by too much denatured alcohol. Complaint was telephoned to police headquarters and the men were arrested. They gave battle to Police Chief Al Roberts and Oliver P. Lesley, who rendered assistance, but were jailed after being tapped a few blows with the officers' nightsticks. The woman got away in the melee. Minthorn and Snyder each were fined \$25 in police court this morning but had not the money to pay fines and went to jail pending aid from friends or relatives. Chief Roberts says that he will arrest Annie McKay if he can find her within the city limits. She and Snyder are among the most notorious offenders of the reservation, the police declare.
