BRAZIL IS JEALOUS OF U. S. OPERATORS

RIO DE JANEIRO, Jan. 8.—(A. P.)—Activities of United States rubber interests in the Amazon region of Brazil have been bitterly denounced in speeches before the chamber of deputies by three of its members during consideration of the critical situation through which the Amazon district is passing because of the low value of rubber.

The speakers, Deputies Salles, Valladares and Lacerda charged what they termed as the "rubber trust" of the United States with driving the price of rubber down, forcing the native planters from the field and then purchasing the plantations at very low prices. The government was called upon for prompt financial assistance to prevent further control of the product by the United States interests.

Deputy Salles, representing Amazonas, read telegrams from his state affirming that unless prompt governmental assistance was given there would be a general closing down of business in the principal cities of the Amazon district. After stating that the difficulties in the Brazilian rubber industry began in 1914 when the low price of the European war left North American buyers alone in the field, Deputy Salles added: "Our nationality is threatened by purchase in small pieces. The rubber planter, losing interest, is abandoning the plantations, which the Americans are acquiring at infinitesimal prices, becoming lords of our soil."

The same charges have been made in telegrams from commercial bodies of the Amazon region, many of the local newspapers are editorially condemning what they state to be the monopolistic activities of the "rubber trust" of the United States.

Mrs. Stanfield in Collision.
PORTLAND, Oregon, January 8.—Mrs. Stanfield, wife of Senator-elect Robert N. Stanfield, was the driver of a machine which participated in a slight accident Tuesday afternoon at Fourteenth and Alder streets. Mrs. Stanfield was driving behind another automobile which stopped abruptly to avoid striking a pedestrian, causing her machine to bump into the rear of the forward car. Both machines were slightly damaged, but no one was injured.

SALT BUSINESS DEVELOPS.
EDMONTON, Alta., Jan. 8.—(A. P.)—Salt mining in the saline deposits of Senlac, Sask., has started and a development company is now hauling a low grade rock salt a distance of 19 miles to the nearest railway point by motor truck. The company expects shortly to be evaporating salt at the rate of about 19 tons a day. A contract has been made by the company to supply the United Grain Growers of Alberta next year with its entire requirements of salt for cattle purposes.

SCHOOLS ASK \$2,114,900.
BOISE, Idaho, Jan. 8.—(A. P.)—The new Idaho legislature is to be asked to appropriate \$2,114,900 to operate the educational institutions of the state for the next two years, according to announcement made here recently. This amount is \$340,300 increase over the total appropriated by the legislature two years ago.
