 NEW YORK, Jan. 13.—Evaporated apples dull. Prunes firm. Peaches quiet.

Competition of Millers and Exporters Leads to Wheat Advance.
 CHICAGO, Jan. 13.—Evidence of competition between millers and exporters led to a sharp upturn in wheat today. Final prices although unsettled, were 3-4 to 4 1-4 net high with March 1.82 to 1.82 1-4 and May 1.72 3-4 to 1.73. Corn gained 1-2 to 3-4; oats 1-4 to 3-8 and provisions 10 to 30c.

Speculative Favorites Take Widely Divergent Course.
 NEW YORK, Jan. 12.—The superficial character of existing conditions in the stock market was strikingly illustrated today by the widely divergent course of speculative favorites, somewhat to the detriment or neglect of the more representative shares. Crucible steel, which has been the strongest and most prominent feature of the last week, reacted an extreme of 5 points, recovering little more than a point.

Atlantic Gulf, another speculative issue recently under pressure, rose almost 7 points at its best, but forfeited all but 1 1-8. Mexican Petroleum closed at a net gain of 6 points. Additional features embraced the less active shippings and oils, express company shares, International Paper, New York Air Brake and Sears Roebuck. There was a further demand for rails, although secondary or reorganized properties, such as New Haven, St. Louis Southwestern common and preferred, Rock Island, Lehigh valley and Southern railway fared better than seasoned or dividend paying issues.

Sales 900,000 shares.
 The open rate for call loans failed to get under 6 per cent although it again was reported that interior banks were loaning money here as low as 4 1-2 per cent. Time loans for two and three months were made at 1-2 per cent.

Eggs in Seattle 48 to 54 Cents; Butter 39 to 59 cents.
 SEATTLE, Jan. 13.—Eggs—Select local ranch, white shells 53@54; pullets 48.

Evaporated Apple Market Dull in New York.

MOON CHANGES AFFECT RADIO COMMUNICATION

PARIS, Jan. 13.—(A. P.)—The changes of the moon have been found by the radio officers of the small American fleet in the Adriatic sea to have a striking effect upon the efficiency of the atmosphere for transmitting radio communications. The officers have succeeded in drawing curves and other diagrams, based upon months of observations, which, they assert, reliably serve to indicate what atmospheric and celestial conditions affecting radio service will be met at any particular date in the future. The discovery apparently has special application to the vicinity of the Adriatic, for there the changes in the world's relation to the moon are much more than anywhere else in the world, so far as yet discovered.

Buick

Everybody knows Buick builds six-cylinder Valve-in-Head automobiles.

- that Buick sold its entire 1920 output long before the end of the season.
- that Buick has sold a large percentage of its 1921 schedule.
- that Buick users are Buick salesmen.
- that Buick car values are 100 per cent.

Added to their recognized high service value the new Buick models possess a distinctive beauty. Their graceful lines and handsome appointments merit the pride which early buyers have expressed. Nineteen Twenty One Buick automobiles have more improvements than any Buick models in the past five years and 1921 models represent 25 per cent greater used car values.

Many of our spring deliveries are already contracted for. Thousands have been disappointed during past years because of the shortage of Buick cars.

THE MATTER OF PRESENT PURCHASING SHOULD RECEIVE THE IMMEDIATE CONSIDERATION OF MOTOR CAR BUYERS When Better Automobiles Are Built, Buick Will Build Them.

Abraham Lincoln Said:

"Teach economy; that is one of the first virtues. It begins with saving money."

When a man, with a rugged character, like Abraham Lincoln, made the above quoted statement, it is fully realized that it contains an unusual deep significance. And it has not lost any of its value during these days of extravagant habits and very little economy.

This bank offers you every possible assistance to save and accumulate. One of our courteous tellers, at window No. 5, is constantly in charge to render you special Savings Service.

\$4 PER WEEK LODGING BEYOND MEAGRE MEANS OF EARLY CONGRESSMEN

Saving of \$52 Per Year to Continentals Kept Capital at Princeton Where Living Was Only \$3.

HARRISON, Ark., Jan. 13.—(A. P.)—There was a time in the history of the United States when \$52, representing a year's loss or saving to members of Congress, was a vital factor in the consideration of a proposed moving of the seat of government, and, according to an officer of that same Congress, \$52 a year was "no trifling consideration."

This bit of history is contained in a letter written by Charles Thomson, secretary of the Continental Congress during the several years of its existence to his wife Hannah, an aunt of President William Henry Harrison. The letter is dated Princeton, August 21, 1783; the Congress then being in session in the New Jersey town, and was addressed to "Mrs. Thomson, Corner of Spruce and 4 Street, Philadelphia."

It was proposed that the residence of Congress be removed to Elizabethtown, N. J., but, according to the letter, there was opposition on the ground that "lodging" in Elizabethtown would cost \$4 a week, whereas it could be obtained for \$2 a week in Princeton. Whether the "high cost of living" in Elizabethtown finally swayed the Congress in rejection it is not disclosed, but history records that the Congress met in Annapolis, Md., after leaving Princeton, and at no time sat at Elizabethtown.

The letter, in part, which recently came into the possession of Mrs. Rex Worthington, of Harrison, a descendant of Mr. Thomson, follows: "Dear Hannah: I have received your letters dated Monday 12 o'clock and Tuesday 10 o'clock at night and acknowledged the receipt of them. . . . Mr. Bend was misinformed respecting the adjournment. They met on Monday but they might as well have adjourned till this time for any business they have done. I am very apprehensive that nothing but some calamity will awaken the states to a sense of their situation."

The President of Congress has not provided a house for himself nor is likely he will find one here to suit him. I find Elizabethtown has been talked of at his table as a proper place for the residence of Congress. He has a rouse there which he says has twenty rooms and which he will let for the use of the President. It is true the place is infested with mosquitoes in summer and lying low and near marshes may be liable to intermittents in the spring and fall, but these are trifling when it is considered that by fixing the residence of Congress there the value of his estate will be increased and he will have an opportunity of letting his house at a good rent. But yet I am inclined to believe this will be opposed by his colleagues; for Mr. Cundick has found a lodging in this town at 3 dollars a week which enables him to lay up more money. And there is reason to fear that at Elizabethtown, which is so near New York, it will cost him at least four. This would be a clear loss of 52 dollars a year which is no trifling consideration, and which I daresay will have due weight with some of the others. There are other weighty considerations which might be mentioned. "Your loving husband, Chas. Thomson."
