BOND BELIEVED FORGED HERE TO BE IDENTIFIED

Teel Irrigation District bond No. 258, for \$1000, was received today by Miss Grace A. Gilliam from W. C. Meyer, prosecuting attorney for Spokane county, for identification as genuine or forged. Miss Gilliam declared her belief that the bond is a forgery.

The bond, one of several alleged to have been forged by Mitholland & Hough, Spokane investment brokers, was in the collection of \$425,000 in worthless securities given to James P. Callahan, millionaire mining man, of Wallace, Ida. It contained forged signatures of Miss Gilliam, of J. Frank Spinning, secretary of the district, and O. D. Teel, president. Samples of Mr. Spinning's handwriting in Miss Gilliam's office showed that the forgery was palpable. The letter N was poorly made and there was an unsteadiness in the signing of the name Frank which is not apparent in the original. In forging Miss Gilliam's signature a pen of more bluntness than she uses had been used. The capital letters in her signature were not as fully rounded as she makes them, she said. The bond will be returned to Mr. Meyer, together with samples of Miss Gilliam's, Mr. Teel's and Mr. Spinning's signatures. An impression of the district's seal which was also forged, will be included.

NERVOUS, IRRITABLE, AILING WOMEN

Mrs. Britten Tells How She Was Restored To Health After Suffering for More Than A Year.

Another Triumph for Lydia E. Pinkham's Vegetable Compound

Dimondale, Mich.—"I had inflammation and a displacement and weakness, and it had been neglected so long that it caused great pain, and this affected my mind and nerves so that I was very irritable. I had severe pains every month, so that I was often obliged to lie in bed for two days at a time. I suffered for more than a year before my friends said, 'Why don't you try Lydia E. Pinkham's Vegetable Compound?' So I purchased one bottle after another until I had taken ten bottles, then Lydia E. Pinkham's Sanative Wash. I received so much benefit from this treatment that I am now able to do my own work."—Mrs. W. D. BRITTEN, R. No. 2, Dimondale, Mich.

Another Michigan Woman says: "I was bothered for a long time with female troubles and was so nervous I felt almost afraid at times. I also had a pain in my right side and was certainly in a bad way. Lydia E. Pinkham's Vegetable Compound has relieved me of these nervous feelings and pains and I am much better in every way. I don't know just how many bottles I have taken, but I took it for nearly a year and it has done me a world of good."—Mrs. JESSIE GRANGER, R. No. 8, Box 51, Kalamazoo, Michigan.

Good health is a woman's greatest asset. With it she may be the inspiration of her husband, a happy mother, and the life of the home. Without it she suffers agonies herself, household duties are a burden, and her family is made miserable by her condition.

Is it any wonder that these women were nervous and irritable after suffering so long from such deranged conditions? Such ailments act directly upon the nerves, and it has been said that a large percentage of nervous prostration, nervous despondency, "the blues," and nervous irritability of women arise from some derangement of the female organism.

If women who are in this condition would only profit by the experience of others and take Lydia E. Pinkham's Vegetable Compound at once, much suffering and unhappiness would be averted, as everyone knows a nervous, irritable, ailing mother makes the home unhappy and her condition irritates both husband and children.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

On the day following a popular masked ball at Solera in May 1905, the body of a young Swiss girl was found in the waiting room of the railroad station where she had been strangled to death. She had been seen the previous evening in the company of a young man dressed as a peasant woman. The description of her companion tallied with a costume worn by Hirschbrunner and he was tried and sentenced to life imprisonment, entirely on circumstantial evidence.

BRIDGEPORT, Conn., Jan. 13.—(U. P.)—Elwood Wade is sentenced to be hanged for the murder of George Watt. When the judge pronounced the death sentence, Wade smiled at him and said: "Thank you."

MAYOR OUTLINES WORK

(Continued from page 1.) the city charter now extant in Pendleton, and which is in his care, he found no limitation upon the interest bonds might draw but believed that there is a time limit on their maturity.

As soon as the box of papers containing charter amendments can be ferreted out, the city attorney expects to find some authority on which to accept or reject the recent issue. The state of the charter leaves him much at sea, he said.

Wrote Publish Charter Because of the uncertainty regarding the legal aspects of the case, the attorney recommended that steps be undertaken to republish the charter and make sufficient copies that the city would be protected. "If fire consumed that paper box tonight, the city would be without its fundamental laws," Mr. Warner said. Estimates of the cost of reprinting

What Is Your Telephone Service Worth?

The Pacific Telephone and Telegraph Company has built up a telephone system in Oregon from 7027 stations in 1900 to 94,528 stations in 1920. This development was secured for the most part during a period when cost of labor and materials was normal. During these 20 years the Telephone Company has carried out its part in the building of Oregon. Its operating expenses have increased faster than its revenue—for the last five years it has been operating at an increasing deficit. This condition cannot permanently continue.

New capital cannot be obtained by public utilities at all except when rates are such as will afford reasonable assurance, with efficient management, of earnings sufficient to care for legitimate fixed charges and establish for them a basis of credit. This does not mean that rates should be such as in themselves will supply new capital, but that they be such as to justify capital investments in competition with other business ventures.

The proposed rates represent a very small increase to the individual user—from 2 1/2 to 11 cents per day. In the aggregate they represent a revenue to the Telephone Company sufficient to enable it to continue to serve the public, meet its payroll obligations and show a reasonable return upon a legitimate investment.

Adequate service is dependent upon adequate rates.
