Suggestions that the surplus from the fund collected for the Central European Relief be offered as a donation to the Chinese relief, which is under way in this country, probably will be made to the county executive committee in charge of the European relief when it seems to settle up matters. Prisoners in the city jail, of whom there are an increasing number, today are being given a chance to earn their keep. Those serving out fines for being drunk or disorderly will be taken out to assist Street Commissioner C. A. Crabtree in his work about town. General Electric Company Blamed.
Pendleton's present state of semi-darkness is due to the inability of the Pacific Power & Light Co., to get lamps from the General Electric Co. Dr. F. W. Vincent, local manager for the lighting company, said today. "Orders have been placed with the Portland office of the General Electric company for more than 30 days for a supply of street lamps but they have not been delivered. This is the third time that orders placed by us have gone unfilled. It is not a war emergency that prevents the orders being filled. It looks like carelessness." Dr. Vincent said that he exhausted the supply of 400 candle power lights on hand replacing broken 250s and that he now has neither size on hand. Thus lamps which are now out of commission cannot be replaced until the lamps are furnished by the factory.
