New York Stock Exchange Dull and Little Interested. NEW YORK, Jan. 15.—Business on the stock exchange today was very dull and contracted as to scope in the absence of public interest and the market evinced little alteration from its recent irregular and professional tone.

The session began with recurrent pressure against speculative favorites: American Hide & Leather Ltd. showing especial weakness.

Before midday most losses were recovered, shorts rushing to cover as the more reactionary issues of the morning reversed their course developing sudden strength under the guidance of easy money and bull pools.

Reading assumed leadership of the market in the final hours infusing a degree of steadiness among steels, oils and allied issues. Crucible Steel at a net rise of 1/8, recovered all but a fraction of its dividend.

Progress Toward Recovery Clearly Discernible, Says Duns. NEW YORK, Jan. 15.—Dun's today said: While progress toward recovery is more clearly discernible, reviving demand in some quarters of late has only developed after further price yielding and waiting is still the rule.

in lines where an extension of the price deflation is seemingly foreshadowed. Indications multiply, however, that certain trades are beginning to emerge from their long continued lethargy, the improvement in dry goods conditions being especially conspicuous and the increased attendance of buyers in some of the leading markets is evidence of their renewed interest and a growing need for merchandise. While purchasing is still cautious and restricted, it is larger in some instances than had been expected and is the more wholesome and reassuring because it is based on actual requirements and not on speculative anticipations.
