Wheat Prices Collaps

CHICAGO, Jan. 22.—Announcement that scaboard experters were offering to re-sell brought about a collapse of wheat prices today after a bulge due largely to inquiries from Portugal. The market closed heavy, 2% to 5% net lower with March 1.64½ to 1.65 and May 1.54½ to 1.55. Corn lost let to 1¾ and oats 1⊕1¼. As much as 3,000,000 bushels of wheat was said to be wanted for Portugal and during the first half of the day there was a good demand from the scaboard presumably in anticipation of consequent large orders to buy. Later, however, it was said that six months credit was asked and that such credits had not been obtainable. Then came word of exporters trying to re-sell and the market gave way in a hurry. On the break Belgium and other European countries did considerable buying but prices settled; creamery higher than extrast
