The recent weather, if anything, has been too warm to suit the fruit growers of the Milton-Preewater country. S. D. Peterson, city attorney of Milton, in the city today said. Mr. Peterson came down on No. 1 this morning to attend to some legal business here.

Royal M. Sawtelle and little son, Richard, will leave tonight for Walla Walla. They will return tomorrow, accompanied by Mrs. Sawtelle and Emmy Lou Sawtelle, who have been visiting in the Garden City at the home of Mrs. Sawtelle's sister, Mrs. Ben Hill.

Roads through Central Oregon are in poor condition for auto travel, says Robert Sinclair, coal salesman, who makes his headquarters here. Mr. Sinclair returned last night from a trip that took him as far inland as Bend and he said today that the only bright spot in the trip was the good road between Arlington and Pendleton.

A man who had refused \$3 for his wheat last summer at Walla Walla "looked awfully sick" yesterday when news came of another slump on the Chicago board of trade, said A. M. Chrystall, local manager of the Interior Warehouse Co., today. Mr. Chrystall was in the Garden City yesterday afternoon on business. He talked with other farmers who had objected to selling a part of their wheat for \$2.40 a bushel, expressing the belief that they were bound to lose. Now they are wondering if the price will return to \$1.50, Mr. Chrystall said.

The name of Charley Gordon used to be prominent in high school athletics circles of Eastern Oregon. When attending Pendleton high, he was a star in several sports and later went to the Oregon Agricultural College for a time. He has been catching Bear Milton of late, and with Mrs. Gordon, he is a Pendleton visitor today.

E. L. Burroughs left this noon on No. 17 for the Dalles on a flying business trip. He planned to be able to return to Pendleton tonight on No. 4.

A yellow dog, a white rooster and a fireman engaged in the three-cornered race about 9:30 this morning on Cottonwood street, near the city hall. The net result will be chicken dinner Sunday for some member of the department. The rooster, straying far from home, was pursued by George Whiteley, member of the department. A yellow dog nearby also took up the chase. The dog captured the rooster after a lively feather-scattering pursuit and Whiteley overtook the dog just in time to save the chicken. Several small boys stood ready to aid in the capture but the action was so swift that their help was unnecessary.

SEN. FRANCE DECLARES WAR BETWEEN RUSSIANS AND U. S. NOT DISTANT

Says Britain Has for Years Exercised Influence on America to Keep Her From Trading With Soviet Government.

WASHINGTON, Jan. 22.—(U. P.)—Britain for the past few years exercised "great influence" on the government of the United States to exclude this country from the markets of soviet Russia, Senator France, declared in the senate. France also asserted the time is not faraway when the United States will have a war with Russia.

Misleading propaganda without Russia is undermining China and Russia, which two countries would be allies of the United States in such a war, according to France. Opposing the opening of trade with Russia, senators Moses said he hoped France would substantiate his charge before the senate foreign relations committee. Senator King said Russian trade relations cannot be established without recognition of the soviet dictatorship and charged the republicans were preparing to recognize Lenin Trotsky.

France later diverted to make an attack on the attorney general declaring a "condition prevailed in this country under the attorney general which never existed before in the history of the world except in the old days of Russian autocracy."

Mrs. WILLIMAN TESTIFIES

Declares Lydia E. Finkham's Vegetable Compound to Be the Best Medicine for Girls and Women

Hamilton, Ohio.—"I had such awful pains in my back I could hardly stand on my feet and I was never without a headache. If I walked up town I thought I would drop and many a time I felt so bad I had to go to bed and I was not able to do much of my housework. I would have hemorrhages every two weeks and dragging down pains. I had been feeling badly for three years and had two of the best doctors in the city, but I kept getting worse and only weighed 125 pounds. I saw your advertisement and I took eight boxes of Lydia E. Finkham's Vegetable Compound Tablets, four bottles Lydia E. Finkham's Blood Medicine and your Liver Pills and noticed an improvement right away. Now I weigh 138 pounds and feel fine. Everybody tells me how well I look and asks me what I took and I always say, 'Lydia E. Finkham's Vegetable Compound, the best medicine in the world for any ailment to which girls and women are subject.' I will always have a good word for your medicine and you may use my name whenever you wish."

Mrs. JOSEPH WILLIMAN, 722 South 9th Street, Hamilton, Ohio.

Britton, 35 year old veteran of the King, who started down "the other side" several seasons ago, is hardly considered when Americans are discussing ring affairs.

But if London does not go crazy over him, it will be surprising.

He's just their type of a ringman. Nice looking, a graceful mover and a good boxer, with some punch.

Ted Lewis by two victories over Johnny Basham, in which he first won and then proved his right to the British welterweight championship was a place in the affection of Piccadilly closed to that of George Carpentier almost a national idol.

Unless part of the affection is due to a native son love for Lewis, Britton should prove just as popular because he has proven his ring superiority over the blonde Ted time after time.

But Lewis, stambate of Britton, is also going across and since the English think so much of Beckett and Tommy Wells, the latter also may have a profitable and popular visit there.

LOOT LONDON MARKETS
LONDON, Jan. 22.—(A. P.)—A serious outbreak, involving the looting of markets, occurred in the Moxfield district, British officials announced today. Sympathizers with the non-cooperation movement are believed to have been responsible.

GOVERNMENT WILL INVESTIGATE
WASHINGTON, Jan. 22.—(A. P.)—Investigation of the contract between the international mercantile marine company, an American corporation, and the British government will be conducted by the shipping board next Thursday. President Franklin and others interested will be heard.

BRITONS ARE AVERSE TO CREDIT AMERICANS
NEW YORK, Jan. 22.—(By Henry L. Farrell, United Press Staff Correspondent)—As a class the English don't think very much of American fighters. They cling to the notion that while American punch ends fights it does not win them.

Joe Beckett in the second round of a recent bout, the Londoners refused credit to the American.

One expert at the ringside commented: "Up to the time Beckett was knocked out he was winning."

Tommy Burns, former heavyweight champion, writing expert stuff for "Sporting Life," in an analysis of the bout said: "Beckett lost because he couldn't take a punch."

He has devoted several hundred words to the fine showing that the flattened British champion made in the first round.

However, America is about to send "Moses" to England that may lead them out of their darkness about the inferiority of American champions.

Jack Britton, the welterweight king, is going over in February to pull the first 1921 revival of his old brother act with Ted Lewis.

We mean to do no frightening—A loosened nut needs tightening.

Too much stress cannot be laid upon the importance of exact auto-adjustment. Each bolt should be in place and each nut properly tightened. Your steering gear should be working perfectly and every part of the car's mechanism should at all times be doing its bit. It would be well for us to examine your car frequently.

Prominent men would not lend their names to the endorsement of a remedy unless they were convinced of its merits and knew from personal experience what it would do. The following letter from Mr. J.
