MILADY PURCHASER ALL AGOG AT SPRING REVELATIONS IN JANUARY OF SUMMER SUITS

BY "MARJORIE"
(Written for The United Press.)
NEW YORK, Jan. 24.—New York's manufacturing district is working upon spring models full-till this first month of the new year, and even the retail trade is showing advance lines, while Milady purchasers is quite agog at these spring revelations in January.

Style trends have not really crystallized as yet, although various lines show some points of similarity which tell what the season's mode will be. Suits are more varied than anything else, especially in the matter of trimming. Some houses use colored embroideries, others exploit the use of braid in novel designs, while others enliven the costume with gay beaded trimming. Perhaps the latter is most in favor, for each house shows at least some bead-trimmed suits. Some models are very gay with motifs of varicolored beads, while others use jet and iridescent.

Many of the cape-back suits have a beaded pattern about the cape edge. Navy blue, as usual, is the season's favored suit color. Tricotine is the reigning material, and it is these standard blue tricotine suits that faint colored beads more than any of the others. One model combines beading and peacock blue beads with fawn of the same shade. The fawn acts as trim or tondril and the beads are combined into a floral motif which is used on the long Tuxedo collar, the flare cuffs, and the coat peplum.

On the whole, there is a similar cut to all the suits. This is the short front coat with the longer or "stove" back. This effect developed from the winter's

vogue for the "huddled" wrap—this is, the wrap clutched up in the front, falling back upon the shoulders, and thus showing a lower back length than front. This fad is transferred to the suit coat rather than the skirt in the spring line. Spring belts which are plain, beaded, or embroidered are used. A few houses are making satin suits in place of the taffeta line of former black. Many sport models of tweed are also upon the market, but Jerseys are practically out of the showing.

The winter vogue for plaid, pleated skirts is holding over for the spring season. Contrary to expectation, the color effects are even darker than they have been for winter wear. Tan is the main color in all the plaid effects and navy and tan, or brown and tan are the leaders. Black and white effects are also very prominent. Both box and skirted models are shown and even plain gathered or shirred lines are upon the market.

Tailored flannel skirts in white trimmed with red or green stitching and buttons are a big line for resort wear. White and red or white and green checked effects are also very good. Colored silk skirts use falls almost exclusively and the Spanish effect as given by a low, highly-colored sash is very popular. Bashes of color upon white flannel or crepe de chine skirts are also very prominent.

SAYS SCHWAB DID NOT GET HIS EXPENSES PAID

WASHINGTON, Jan. 24.—(U. P.)—Charles M. Schwab never received a cent from the government for salary or expense while serving in the shipping board during the war. Charles Pies, former director-general of the emergency fleet corporation, emphatically declared before the Walsh commission investigating shipping board expenditures here. He made the statement in commenting on the charge laid before the committee in New York that a voucher for \$250,000 was paid Schwab for his expenses.

JAP PARTY INSISTS ON RIGHTS IN CALIFORNIA

TOKIO, Jan. 24.—(A. P.)—Immediate evacuation of Siberia, universal suffrage and insistence upon Japan's rights in California, is demanded in resolutions adopted at a general meeting of the Kenseikai, the opposition party of Japan.

\$1,250,000 SPENT BY TOURISTS IN SPOKANE

SPOKANE, Wash., Jan. 24. (A. P.)—Automobile tourists spent approximately \$1,250,000 in Spokane during 1920, according to Frank W. Gullbert, president of the Eastern Washington Highway association. Fifty thousand machines, carrying 150,000 persons entered the city during the year, according to estimates of Mr. Gullbert. He says that each person stayed in Spokane a day and a half at an average expenditure of \$5.

Automobiles from all but two of the 48 states registered during 1920 at the National Parks Highway office here, as have machines from Canada, Hawaii, Mexico, Holland, Philippine Islands, South America and Alaska. The two states from which no cars were registered are Alabama and Delaware.

Registered at the highway office were 216 cars from California, 254 from Montana, 82 from Idaho and 242 from Oregon.

Took Dangerous Chances.
He looked a sorry sight as he limped into the insurance office. Bandages were numerous, and he walked with the aid of a crutch.

"I have called to make application for the amount due on my accident policy," he said. "I fell down a long flight of stairs the other evening and sustained damages that will disable me for some time to come."

The manager gave him a firm look. "Young man," he replied, "I have investigated your case, and find that you are not entitled to anything. It could not be called an accident, for you certainly knew that the young lady's father was at home."—Baltimore American.
