JUDGE WOULD SPANK GIRLS. ANACONDA, Mont., Jan. 25.—(A. P.)—A spanking and enforced attendance at school would be the proper treatment for some of Anaconda's wayward girls, according to Judge George B. Winston. "I have seen some girls some before my court who ought to have been in school and who had so much paint on their faces that it was impossible to tell without questioning whether they were 14 or 40 years old," he said.

Judge Winston flayed the way some of the girls brought into his court dressed. He declared it was not uncommon for a girl to be brought to court dressed in the height of fashion while their mothers who accompanied them wore poor clothes and shawls about their heads. A campaign of education was urged by Judge Winston as a means of lessening the number of wayward girls here.

AMENDMENT TO WHEAT GRADE LAW OFFERED TO STATE LEGISLATURE

An amendment to Section 6123 of the Oregon laws, proposing to change the penalty on grain grades falling under No. 1, is shortly to be introduced in the state legislature. The measure has considerable local support and is intended to furnish relief to the growers not alone of Umatilla county but of all Eastern Oregon, where No. 1 wheat is scarce.

Under the present system of grain grading wheat which does not weigh 50 pounds to the bushel and weighs 55 pounds or more is graded as No. 2. The price paid for this is 2 cents per bushel less than for No. 1. This county raises very little No. 1 wheat, by weight, yet a large amount of wheat is raised and its milling quality and other characteristics is worth virtually as much as No. 1.

The amendment drafted here has been referred to Salem for introduction. Some changes in committee are expected to be made. The bill as originally drawn is as follows: Following is a draft of proposed amended portion of Section 6123: In all contracts hereinafter entered into where the price or amount to be paid depends upon weight or grade, no discount or differential shall be made on account of test weight per bushel or grade, if the grain delivered under said contract weighs 55 pounds or more, per bushel, in the following cases:

Soft Red Winter wheat, same being known as Class 4 under regulations of United States Department of Agriculture, and under rules adopted in Oregon by the Public Service Commission, known as Class 5 under said regulations and rules, and White Club wheat, same being known as Class 6 under said regulations and rules; and with respect to the varieties of wheat hereinafter designated discounts upon wheat of grade inferior to grade No. 2 (which has a test weight of 55 pounds) shall be at the rate of one cent per bushel for each pound less than 55 pounds and not less than 51 pounds; a gross discount of 5 cents per bushel for wheat weighing 54 pounds, but less than 55 pounds; 5 gross discount of 7 cents per bushel for wheat weighing 53 pounds but less than 54 pounds; a gross discount of 9 cents per bushel for wheat weighing 52 pounds but less than 53 pounds; a gross discount of 12 cents per bushel for wheat weighing 51 pounds but less than 52 pounds. All lower grades than those here enumerated shall be sold and accepted by sample, and shall be known as sample grades. Said discounts, together with the rules and regulations above provided, shall become part of every contract of sale of wheat of the varieties named, unless expressly agreed to the contrary in such contract.

RACE RIOT IN SOUTH CULMINATES IN MOB SHOOTING TWO NEGROES

Armed Clash Between Whites and Blacks of North Carolina Ends by Jail Breaking on Part of Former Race.

WARRENTON, N. C., Jan. 25.—(A. P.)—All efforts to apprehend members of the mob, which last night broke into the jail, removed two negroes held there after an armed clash with whites, were set aside today in the anxiety of authorities to forestall a recurrence of violence.

Seven of the nine negroes left in the jail by the mob were today hurried to Raleigh for safekeeping and this afternoon five additional arrests were made and these prisoners also rushed to Raleigh. Four other negroes for whom warrants are held, have escaped.

The Warrenton home guard, ordered out by Governor Morrison last night, were under arms all day and the Henderson guard stood in readiness to respond to any call. However, no further outbreak was thought probable. The coroner's jury held an inquest this morning and quickly returned a verdict of death at the hands of unknown persons.

AUSTRIAN FINANCE BONE OF CONTENTION AT THE ALLIED COUNCIL MEET

Lloyd George Says German Disarmament Would Leave Country Open to Invasion of Russian Bolshevism.

PARIS, Jan. 25.—(A. P.)—The critical and complicated Austrian financial problem was discussed by the allied supreme council today. Opinions of the various delegations were no divergent that a proposal was made to refer the matter to the league of nations. It was rejected. Considering German disarmament Lloyd-George thought Germany was in peril of bolshevism if deprived of their arms on May 1 as required by the treaty. French Premier Briand refused to consider the suggestion. The Italian foreign minister proposed a compromise. Neither Lloyd-George nor Briand would agree, so it was decided to ask the military experts for another report.

HARDING'S VACATION PALS

WAR AGAIN LOOMS ON THE EUROPEAN ARENA IN SPRING

France Experts Foresee Clash of Three Million Armed Troops Between Bolsheviks and Border States in Future.

RUMANIA TAKING EVERY MILITARY PRECAUTION

General Pilsudski of Poland is Expected in Paris When Health Permits to Consult French General Staff.

(Note: Edwin Hillinger of the Paris United Press staff, has just returned to the United States after many months spent in close touch with the French foreign office, which is keeping a close and vigilant watch on war preparations of Russia.)

PARIS, Jan. 25.—(By Edwin Hillinger, U. P. Staff Correspondent)—France expects a new war this spring. Armies totaling between two and three million men will be thrown against each other in a year between Bolshevik Russia on one hand and Rumania, Poland and other outpost states on the other, according to French military experts. Despite the denial of Russian diplomats, persons close to Quai D'Orsay told me before I left Paris that Rumania was "making every military preparation."

General Pilsudski is expected in Paris as soon as his health permits, to consult members of the French general staff.

Poland promised France important economic concessions notably oil, in exchange for aid against Russia last year. France will keep Poland in a position to make good these pledges. France will help Poland, not without, but with war materials and grains. Poland's general staff is lacking in brains, but her manpower is placed at a million men. Rumania's effectiveness is Poland's in equipment and training. Poland's new bolshevik war machine is subject to considerable speculation throughout Europe. Here in America, where there is no thought of war, it is difficult to appreciate the anxiety with which these foreign leaders are watching Russia. Trotsky, in the belief of the French, could put a million men in the field without difficulty. The political objectives of the expected bolshevik push is to regain Russia's lost provinces from the Baltic to the Caucasus, including Bessarabia, Georgia, Lithuania, Latvia, Estonia, and parts of Poland.

JAPAN HOLDS TO NAVY BUILDING PROGRAM ON SELF PROTECTION PLEA

TOKIO, Jan. 25.—(A. P.)—Foreign Minister Uchida, when interpellated in the lower house of Parliament held out little hope for an immediate movement for disarmament, but said restriction of armaments would be considered by Japan if proposed by another nation. "Some practical men abroad do not approve of immediate disarmament although they agree in the principle. The existing German situation is one factor which prevents complete agreement. Japan's naval policy is one of expansion but one that cannot be avoided in interests of self protection."

30 PER CENT DECREASE IN CRIME FOR FIRST DRY YEAR IN CHICAGO

Director of Crime Commission Says Prohibition is Cause of Wholesale Corruption of Police Force.

CHICAGO, Jan. 25.—(U. P.)—Major crime has decreased more than thirty percent in Chicago during the first year of prohibition. The number of murders has dropped 51 percent; burglaries 19 percent and robberies 6 percent. While some officials have attributed the decrease in crime to prohibition, Colonel Henry Chamberlain, director of the Chicago crime commission, said he believed prohibition had no effect on major crime. "Prohibition has decreased misdemeanors," he said, "but what has been the cause for wholesale corruption of the police. The major criminal is not a drunkard, in fact, he seldom smokes. He finds his amusement in gambling."
