## 'WHISKEY' SMITH HAD ILLICIT STILL, FINED

George F. "Whiskey" Smith today was fined \$50 and sentenced to three months in the county jail upon his pleading guilty to a charge of operating an illicit still at 598 Calvin street. It was Smith's third conviction on such a charge and Judge I. M. Schanep, before whom he was taken, decided upon the jail sentence as a means of breaking up the practice. C. Trimmer, arrested with Smith, was to be taken to trial this afternoon at 3 o'clock. The two were arrested in a raid made last evening by Sheriff Zoe Houser and his deputies. Trimmer was alone in the house at the arrival of the officers but they awaited Smith's return and arrested both men. Smith attempted to smash a bottle of moonshine liquor he had with him when the officers arrested him. In the basement of the house was a complete outfit for the making of liquor.

contend the bulk of the work now concerning his department is so great the present organization cannot handle it with efficiency and dispatch, and that as a result projects are being delayed two or three years.

**Local Newspapers.** SALEM, Jan. 26.—(U. P.)—Numerous glowing tributes were paid by members of the house to Oregon newspapermen, as real promoters of the state's progress and prosperity in connection with the passage, by 47 votes, of Fisher's bill, providing methods of determining circulation of newspapers, publishing court proceedings and legal notices. It provides a legal rate for the majority of official notices to be \$1.30 cents per page folio for first insertion, and 45 cents for each subsequent insertion.

John F. Logan in particular, and lawyer members of the state parole board in general, provided material for a worthy battle in the senate which resulted in adoption of a majority report favorable to Home's bill barring lawyers from membership on the state parole board.

LaFollette, expressing his approval of the bill, declared the realness will do, and further, will legislate lawyers out of the legislature, which has caused Banks to refer to LaFollette as a "damfool."

## STOCK TRADING RETAINS ITS WOBBLY CHARACTER

NEW YORK, Jan. 26.—(A. P.)—Stock trading today retained all of its irregular and hesitant character. Oils were the only important shares to reflect changes in the industrial situation reacting from early advances on further reductions in the price of crude products, and diminished demand.

Equipments and steels, especially independent issues of the later group, rose and fell within a range of 1 to 3 points, except U. S. Steel, which followed a narrower course. General asphalt was again the most conspicuous specialty, gaining 3 5/8 and lifting leaders to a steady to firm close. Sales 309,000 shares.

The financial statement of the U. S. Steel Corporation for the fourth quarter of 1920, issued after the close of the market, reported earnings of \$42,177,862, against \$48,951,540 in the previous quarter of that year.

Call money was loaned at 7 per cent and the time money market was quiet with a prevailing bid of 4 1/2 per cent or the shorter periods. In foreign remittances sterling bills strengthened, but French and Belgian rates cancelled much of yesterday's sensational gain.

The bond market was moderately active, the new Belgian issue being traded in on the exchange at a slight premium over its issue price of par. Liberty issues were mostly better and the general trend elsewhere was toward firmerness. Sales, par value, \$12,175,000.

Old U. S. 2s declined 1/4 and the 4s advanced 1/4 point on call.

### GERMANY BACK IN FAVOR

TOKYO, Jan. 26.—(U. P.)—That Germany is rapidly getting back into her old position as a favorite in Japan is illustrated by the fact that the leading book firms are now selling more books in that language than in English and French, which took the lead during the war. One firm alone has received about 800 cases of German books during the last six months, medical works being in the lead.

### THE HOUSEWIFE OF 1921

Now that Woman's Suffrage is a reality the American woman must henceforth be considered not merely as a housekeeper and home-maker, but as a voter—a citizen and a force in this busy work-a-day world. With added responsibilities her health should never be neglected, and when beset with ailments peculiar to her sex she owes it to herself to first give that grand old medicine, Lydia E. Pinkham's Vegetable Compound, a trial, as for over forty years it has been the standby of American women in restoring them to health and strength.
