MIDDLE WEST FARMERS TO JOIN NONPARTISANS

NEW YORK, Jan. 27.—(U. "The farmer has a genuine grievance," said White, "in marketing systems which permit low prices for produce and high prices for food. If conservative forces of society do not meet the problem, there is nothing for the farmer to do but join the league."

Postmaster General Burleson informed the house today in response to an inquiry as to why preference had been given foreign equipment. Mr. Burleson said the upkeep cost was 50 per cent less and that the purchase represented a forward step in airplane development over development at this time in the United States. Favor Joseph Bill

Discussion of the Joseph bill in the state senate was discussed at length during the session and it was much commended with the suggestion, however that some changes be made. One change desired is the elimination of mention of any particular project in the bill. At the present time specific mention is made of the Cello project. The legislation committee was instructed to work for this and some other changes in the bill. Senator Joseph is to be invited to the meeting to be held here February 5.

Washington Aid Wanted

Chairman Brownell was yesterday instructed to visit Walla Walla and other Washington towns to enlist the aid of that region in the move which is considered of as much importance to Washington as it is to Oregon. Mr. Brownell is leaving tonight for Walla Walla and is expected to later on call for a local delegation to appear at a meeting in Walla Walla.

For the present all efforts are being concentrated on the meeting to be held in Pendleton and further plans of action are deferred until that meeting. However, a resolution addressed to the directors of the John Day project was adopted by unanimous vote yesterday. The resolution is as follows:

Whereas the immediate development of the Umatilla rapids would bring immense wealth to the Columbia basin through the development of hydro-electric power and irrigation and Whereas the proper development of all the desirable land in the John Day project will call for the pumping of water from the Columbia for at least one unit.

Now, therefore be it resolved, by the Umatilla Rapids Power Site association in mass meeting assembled that we most earnestly urge the necessity of an immediate report upon this phase of its development by your body not only because of its value for the promotion of your splendid project but because of its great value to the northwest.

RHEUMATISM—RELIEF

From Its Dreadful Pains and Aches, Stiffness, Soreness—

It is properly to be sought in a good blood medicine, because authorities say rheumatism is a blood disease; acid has entered the blood, settling in the muscles and joints. That's what makes the sharp, sudden, shot-like pains, causing you to jump and cringe in agony. Hood's Sarsaparilla comprises remedies that every physician prescribes for rheumatism, combined with other blood-purifying, tonic and strength-building ingredients in a formula vastly superior in make-up and in curative power. It does give positive relief. Thousands say so. So will you. For a fine laxative take Hood's Pills.

JOHNSON IMMIGRATION BILL HEARD BY SENATE

WASHINGTON, Jan. 27.—(A. P.)—The senate immigration committee today concluded its hearing on the Johnson bill to suspend immigration for one year after hearing the views of Anthony Caminetti, commissioner-general of immigration. Chairman Colt expressed the opinion that the committee would look with favor on provisions of a bill introduced by Senator Dillman, republican.

admission of aliens, Mr. Caminetti asserted, the influx will break previous records before July 1. He urged congress to strengthen the barriers against undesirable. After Commissioner Caminetti had declared Lenin's power in Russia was stronger than a year ago and that bolshevism was a greater menace than ever, Senator Colt said immigration should not be suspended because of a fear of bolshevik propaganda. While Mr. Caminetti was declaring that dangerous radicals were leaving Russia and were attempting to reach the United States, Senator Colt urged him "to come back to earth."
