RAIL EMPLOYES SHOULD VOLUNTARILY CUT OWN WAGES SAYS EXECUTIVE

Road President Says it is Not High Wages the Men Want But Increased Purchasing Power; Government Blamed.

CHICAGO, Jan. 28.—(U. P.)—Two million railroad employees should voluntarily cut their wages, in the opinion of railroad executives meeting here to discuss labor and wage situation. President Beiler of the New Jersey Central Railroad, and a member of the labor committee, made the assertions to the railroad executives and urged employees to take this action to bring the nation out of the rail tangle. Beiler in an exclusive talk with the United Press as he was going into the meeting of railroad executives, said: "An arbitrary cut in wages for our employees would hurt. They should set together and tell the management they are 'willing to accept a little less.'" William Lee, president of the railway terminal in on record as saying "It is not high wages employees want but purchasing power. A dollar has greater purchasing power today."

FEELS JOY OF LIVING ONCE MORE, SHE SAYS

Miss Cogan Declares Tanlac Overcame All Her Troubles and She Thinks It's Just Wonderful.

"I used to think all the statements about Tanlac were exaggerated but I know different now, for I have used the medicine myself with wonderful results," said Miss Grace Cogan, the popular cashier of the Bamcock Hotel, 241 Third St., Coastville, Idaho. "Before I took Tanlac I had been in terribly poor health for three years. I was all run-down, had no appetite, was as nervous as I could be and so I got so I lost faith in anything helping me."

"I had constant headaches and pains in my stomach, and so weak it was just a drag to go about my work. I took any number of medicines, but none of them did me a bit of good and I got so I lost faith in anything helping me."

"But it's altogether different with me since I have taken Tanlac. I now have a splendid appetite, my sleep is sound and restful and I feel the joy of living once more, for my strength and energy have come back to me. I could hardly have believed any medicine could have done me so much good in so short a time. Tanlac is wonderful!"

MACCABEES SETTLE FOR CHRISTY'S WORK

C. M. Hogue, record keeper of Umattila Tent No. 27 K. O. T. M., has been busy today distributing \$10 checks to 24 local people who had applied for membership during a drive staged here last year by an organizer named N. N. Christy and who failed to turn funds given him.

Christy was here on a professed move for membership and held out promise of a local building. Many business men applied for membership to help the cause along but it developed the organizer had no authority for his building talk nor did he turn over all funds intrusted to him. The amount of the loss \$250 from applicants and some local personal bills have all been paid by the local tent through money collected from Christy's bondsmen.

with an aim there. His mother, who travels extensively, last summer gave her consent to his removing to Pendleton to attend school this year. Hanley, a Spokane boy, came here with his brother, the coach, after permission had been obtained from Mrs. Hanley. Neither boy was adopted by Coach Dick Hanley, as alleged by Baker, but guardianship papers were obtained for both. In the sight of local lawyers interested in the case, no violation of law was done by this action.

Three boys who desired to attend high school for the purpose of playing football last fall were told they might enroll but could not play because of their ineligibility. From the superintendent down the line, local school officials have exercised care to see that eligibility rules were complied with, it was declared.

In the game last night Baker exhibited a poor class of sportsmanship, according to reports of the game. The crowd interfered with the Pendleton men in every way possible and the Ta-

ber players displayed a desire to "get" the local men. All played through the contest, although they were roughed worse than in a football game.

Pendleton and Baker are due to play a return game at Baker tonight.

So far as known, the contest will be played again under protest by Baker. That team is scheduled to come to Pendleton next Friday and Saturday for two games here.

Other Schools Arguing.

The situation arising here somewhat parallels a dispute between Salem and Eugene high schools, in the valley. Eligibility, sportsmanship and a few other considerations have resulted in the cancelling of relations between those schools. Salem and The Dalles also became estranged in a championship football game last fall.

From the number of disputes arising between state high schools, it is evident that a showdown will result sooner or later. Sportsmanship, in some cases, has been thrown to the winds. Pendleton, in its contests this year, displayed what everyone declared was clean sportsmanship. A studied effort has been maintained throughout, officials declare, to keep sports here clean, to play only eligible men and to have all players comply with scholastic requirements.

HIGH SCHOOL NOTES

Be Good to the Birds

Uncle Sam and the American Forestry Association ask all the boys and girls in the country to build birdhouses—right away—so they'll be ready for spring newcomers. Children down in Washington are doing it with vim. This picture shows a birdhouse that won a blue ribbon in Washington school contests being mounted in a tree by its builders. Inset is Peggy Baker, daughter of War Secretary Baker, with the birdhouse her brother Jack built for her.
