

PENROSE CIRCULATES CLOTURE PETITION

WASHINGTON, Jan. 19.—(A. P.)—A petition to invoke cloture was circulated today by Senator Penrose of Pennsylvania, in charge of the emergency tariff bill although republicans leaders said no attempt to choke off debate would be made unless filibustering was demonstrated beyond all question.

Senator Penrose soon secured more than the required 16 senators' signatures to the petition in requiring that the standing cloture rule be invoked. It would limit each senator to one hour's time.

'SNUFF THE SNUFFLES,' WELLESLEY SLOGAN

WELLESLEY, Mass., Jan. 19.—(A. P.)—A coryza closet to snuff the snuffles and nip the colds of Wellesley college girls is to be installed at Founders' hall, it was announced today. The coryza closet is an air tight little room lined with zinc and filled with the healing and disinfecting vapors of eucalyptus oil and formaldehyde. When a student feels a sneezing coming she will rush into the compartment, shut her eyes, take a few deep breaths and the pulmonary menace will vanish.

World Champion Producer

Segla Dietrich Prospector—that's this cow's name—has produced 37,331.4 pounds of milk in one year's time. Her daily production is about 12 gallons. At the Carnation stock farms, Oconomowoc, Wis., 7 years ago this is a world record.

VANDERBILT HAS WORD OF PRAISE FOR OREGON

Cornelius Vanderbilt, Jr., completing his tour from Canada to Mexico, is now not only an ardent motor enthusiast, but also a believer in the Buick.

"I have driven many makes of foreign and American machines but have never had one, a stock car, which equaled the Buick."

"Leaving Vancouver, B. C. we spent two weeks in touring Vancouver Island, and thence to Seattle, and from there in easy stages down the coast with many side trips, adventures and amusements. We camped in the open almost every night, except when we were in the larger cities."

"Our total mileage reads about 2,500 of which more than 1,500 was over unpaved and poor country roads. We crossed four mountain ranges ascending about 8,000 feet at one time, moving within three hours from a temperature of 92 to 28. We experienced three days of wet weather, but none on which we could not travel."

"The trips up to Mt. Rainier and the Columbia River highway are by far the most beautiful scenic trips in the northwest and the Yosemite is the prettiest in California."

"We passed alongside of six forest fires in the northwest, one of which drove us out of the best camping place in that part of the country."

"We found the fishing (especially trout) extremely good in Western Washington, along roads seldom frequented by strangers. But the undiscovered sportsman's paradise is in the upper regions of Vancouver Island. We had either rabbit, game birds or trout and salmon at every meal."

"We passed Mount Lassen the day after its big eruption and were in Del Norte during two earthquakes."

"The places which he liked best on the trip were Sproat Lake, Vancouver Island, the views of Rainier from Seattle and Tacoma, Mount Hood from Columbia River Highway, Canyonville, Oregon, the top of the Siskiyou Trail, Inspiration Point in the Yosemite and the Seventeen Mile Drive in Monterey."

"If anybody ever seeks my advice again concerning a good car for the money I'll be glad to refer them to the Buick for I speak from experience when I say that my car has gone many spaces beyond what I even ever dared hope a car would do."

FORDSON CUTS TRACTOR PRICE HERE TO \$771.50

The Simpson Auto Co. announces a communication from the Ford Motor Co. stating that the price on the Fordson Tractor has been reduced \$163.00 effective Wednesday January 20.

This places the price on the Fordson at \$771.50 F. O. B. Pendleton. "This," according to J. E. Clesby of the Tractor department, "came as a complete surprise to us as we were contemplating no reduction in the price of tractors."

In the communication the Ford officials say: "We as manufacturers must take a loss covering materials on hand but we are willing to make the sacrifice for the ultimate good which will result and we feel confident that the dealer will analyze the situation from a business viewpoint and extend his full support and cooperation in absorbing any immediate loss sustained on tractors in stock which should be more than offset in a short time as this."

LADIES!

When irregular or suppressed use Triumph Pills. Safe and always dependable. Not sold at drug stores. Do not experiment with others; have disappointment. Write for "Relief" and particulars. It's free. Address: National Medical Institute, Milwaukee, Wis.

The Battery Minus Half the Wearing Parts

Plates and insulation in the Willard Threaded Rubber Battery serve as in any battery—but there's one difference. Wood separators wear out; Threaded Rubber Insulation outlasts the battery every time.

Threaded Rubber Insulation is acid proof—won't puncture or carbonize. It is one of the things that make this good battery still better. You'll find it only in the Willard Threaded Rubber Battery.

CINDER PATH CALLS

EARL EBY

Earl Eby is coming back to the cinder path. The Penn half-miler—former runner of the country—plans to quit business and re-enter school. Eby was a member of the U. S. Olympic team. He pulled a tendon while abroad and did not measure up to his high standard. It is believed Eby will assist Coach Lawson Robertson.

PAIGE

We ask you to take just one demonstration in the new Paige "Lakewood 6-66" and judge it from the standpoints of power, speed, acceleration, spring suspension and general motor efficiency.

Get the facts—actual lapsed time of the tests—and make a record in your notebook. Then take a second demonstration in any other car—at any price—and compare the results. That is all we ask.

- 6-66 Lakewood 7-Passenger Touring Car \$3795 f. o. b. Detroit
- 6-66 Larchmont 11, 4-Passenger Sport Type \$3495 f. o. b. Detroit
- 6-66 Five-Passenger Coupe \$3675 f. o. b. Detroit
- 6-66 Seven-Passenger Sedan \$3750 f. o. b. Detroit

All models will be exhibited at Automobile shows throughout the country

THE MOST BEAUTIFUL CAR IN AMERICA

No Hit-or-Miss Methods—

You can truly compare the construction of the LALLEY LIGHT with the art of fine watch building. For the LALLEY is built with just such care, precision and exactness.

First, every part of the LALLEY LIGHT is most carefully selected—premium prices are actually paid for the highest grade materials; then every moving part is fitted to the fraction of a thousandth of an inch; every single screw, nut and bolt is individually inspected for exact fit and accuracy and for strength. There can be no hit or miss in the building of the LALLEY; there can be no hurrying in its assembling; there can be no slighting in its final inspection.

And so the LALLEY LIGHT runs day in and day out, year in and year out, quietly, smoothly, positively, pending forth its power to light your home and your farm, to operate the milking machine, the washing machine, or what-not—requiring the minimum of attention and giving you the maximum in the saving of time and money.

There are so many interesting things to tell you about the LALLEY LIGHT that you must come in and have it explained. The LALLEY Book, too, is well worth reading. Drop in at your convenience.

Be Sure—See the LALLEY First!
